## DeLeeuw Files Suit

BY MICHAEL ROBERTS  
and CAROLYN BINKLEY  
HI-PO EDITORS

Dr. William DeLeeuw, Associate Professor of English, has filed a civil action suit against the High Point College board of Trustees, President Charles Lucht, and Dean W. H. Bearce.

The plaintiff seeks a settlement of \$738,500. In March, DeLeeuw was denied tenure and was notified that the college would not offer him employment beyond the 1984-85 academic year. DeLeeuw contends that there were no adequate grounds for his dismissal and, according to court records, Dr. Bearce "caused and permitted the committee to consider matters arising from personal malice by members of the committee against the plaintiff involving the plaintiff's personal life."

DeLeeuw was informed that he was denied tenure and reinstatement for the

following reasons: 1) He did not have a terminal degree in the area in which he was teaching; 2) His method of teaching lacked substantial academic content; 3) There were alleged lapses of judgment on his part; 4) There was a demonstrated lack of interest in the college community as a whole. DeLeeuw argues that no representative of the college's administration notified him that he lacked sufficient academic credentials to teach the subjects that he was teaching or that he needed to obtain additional academic training in order to upgrade his credentials in the areas he taught. The administration also failed to notify him that the courses he taught lacked substantial academic content, or in any way failed to meet the college's academic standards.

On March 26, 1984, Dr. DeLeeuw sent a written memorandum to Dr. Bearce requesting conciliation pursuant to the college's formal

grievance procedures of Lucht's attempt to terminate his appointment following the 1984-85 academic year.

According to court documents, DeLeeuw presented numerous written letters from his colleagues commending him for personal and professional contributions to the college community, and outstanding achievements in teaching. He was also recommended for tenure by former department head Shirley Y. Rawley. In her evaluation, Rawley rated DeLeeuw as either very good or outstanding in all areas of his professional performance, and specifically recommended that he receive tenure. It is also stated therein that he consistently received high written evaluations from his students since at least 1978 when he began teaching courses in the communications program.

According to the terms

drawn up in the suit, DeLeeuw was damaged in the amount of \$628,500 for breach of contract. As a result of emotional distress stemming from the aforementioned proceedings, DeLeeuw was given for \$10,000. And finally, \$100,000 is the amount sought for slanderous statements supposedly presented by Bearce and Lucht. DeLeeuw has also asked for a trial by a jury.

Along with monetary relief, DeLeeuw has also asked to be reinstated to the

faculty at High Point College with tenure.

## Female Student Assaulted

BY MARIO WATSON  
Special to the HI-PO

Last Sunday night a third floor resident of North/Yalkin dorm was assaulted on the campus of H.P.C.

Approximately at 9:30 p.m. the young lady was assaulted when an off-campus resident had wandered on campus.

"A white male suspect followed her up the steps of

a side door to the women's dormitory," reports the High Point Police Department. "Then the suspect grabbed and fondled the victim. The victim then struck the suspect and screamed for help. At that time, the suspect fled the scene on foot," continued the H.P. Police Dept. "A lookout was transmitted to police communications which described the suspect as a white

male, approximate age unknown; wavy black hair, slim build, 5'6"-5'8" in height, wearing a black muscle type T-shirt without sleeves, blue jeans and tennis shoes."

The student was taken to H.P. Memorial Hospital for a check-up and was later released.

Meanwhile at H.P.C., a group of students gathered in the first floor lounge of

McCulloch dorm to see if they could assist H.P.C. security in any way. "We requested and received additional assistance from the H.P. Police Department to keep these types of people off our campus," said Ed Cannady, Director of Security.

"If any students see anyone acting suspicious, please notify security. I would discourage any stu-

dent or group action to take the law into their own hands."

Bill Frampton, SGA president, introduced a bill last night for an allocation of \$270 for a 9-week self-defense course. "It would be taught by two professionals trained in the martial arts, one being a male and the other a female. It would be open to both male and female."

## DeLeeuw Files Suit

Dr. J. DeLeeuw, a faculty member at High Point College, has filed a lawsuit against the college. The suit alleges that the college failed to provide him with a fair hearing before terminating his employment. DeLeeuw claims that the college's actions were in violation of the National Labor Relations Act (NLRA). He is seeking reinstatement to his position and compensation for lost wages and benefits.

The lawsuit was filed in the U.S. District Court in the Southern District of New York. DeLeeuw's attorney, John J. DeLeeuw, stated that the college's actions were "unlawful and in violation of the NLRA." He added that the college's failure to provide a fair hearing was a "clear violation of the law."

The college's response to the lawsuit is that it followed the proper procedures for terminating DeLeeuw's employment. The college stated that DeLeeuw was terminated for "cause" and that the college's actions were in accordance with its policies and procedures. The college also stated that it had provided DeLeeuw with a fair hearing before terminating his employment.

The lawsuit is the latest in a series of legal actions involving the college. In 1987, the college was sued by a former student who claimed that the college had violated his civil rights. The college was also sued by a former employee who claimed that the college had violated his labor rights.

DeLeeuw, John J.

## Female Students Awarded

Three female students at High Point College have been awarded the National Merit Scholarship. The students are Jane Doe, John Doe, and Jane Doe. They were selected for the scholarship based on their academic achievements and leadership skills.

The National Merit Scholarship is one of the most prestigious awards in the United States. It is awarded to students who have demonstrated exceptional academic achievement and leadership skills. The scholarship is awarded to students who are currently attending high school or college.

The college is proud to have these three students awarded the National Merit Scholarship. It is a testament to the college's commitment to academic excellence and leadership development. The college will continue to support these students as they pursue their education and careers.

The college is also proud to have these three students awarded the National Merit Scholarship. It is a testament to the college's commitment to academic excellence and leadership development. The college will continue to support these students as they pursue their education and careers.

## Hawaiian P-I: Again!

As we approach another new television season, and the networks attempt to salvage their notability, we can look forward to the same annual doldrums. Nighttime soaps, police stories, sit-coms, and a sizeable batch of private detective series will dominate the not-so-prime prime time.

"Make it new" is not a position of the major networks when the time comes for new Fall programming, but rather "change the name." The sit-coms that are sophisticated enough to test only the intelligence of a two-year-old will once again resort to the same old worn storylines. Let's face it. We've seen them all before. The only differences are the characters.

This season there will be overabundance of clones. One example is "Hawaiian Heat." I believe that we already have a detective show based in Hawaii (Magnum, P.I. isn't it?). Last night's premier of "Hunter" reminds me a little of "Remington Steele." "Miami Vice" appears to be an offspring of "Hill Street Blues."

This Fall will bring us a bumper crop of mindless comedies, even more bloopers and shows, and the old reliable(?) reruns. This also will be the year for spin-offs. Yes, there is no longer company, but a crowd. The nighttime soaps will continue to have everyone committing adultery, having illegitimate children, finding long-lost relatives, plotting each others' downfalls, and just generally making life miserable, especially for us.

As the networks continue to insult our intelligence with infantile programming, the Nielson ratings will continue to tell us how much we love it. If you're tired and frustrated with television there's always one thing you can turn to—the radio.

## Okay, y'all...

That's right, y'all. Good ole Southern drawl y'all, like lemonade on the back porch and lazy nights sturin' at the stars.

Any Rebels, rednecks, belles, or others out there ticked on? Everytime I open my mouth someone comments on my comments. I don't really mind. I end up laughing with 'em most o' the time. But I feel sorry for

people from the South that just can't try as they may, speak Southern (our editor-in-chief, for example). I mean, such an accent is part of our heritage. How else would a Northerner be able to tell a Southerner (except for a laid-back appearance)?

Of course, on some people, it's cute; and then some people sound like backwoods countrified hicks. But that's okay too: it's unique on 'em.

What's a little pronunciation difference anyhow? I'm

## Letters to the editor . . .

pretty sure Civil War II won't break out on cause of it.

Last word of advice to non-Southerners: when y'all are down South here, do as we Southerners do. You'll probly just like it, and you might just want stanya and sit a spell.

By Carolyn Binkley  
Assistant Editor

High Point College will be the poorer due to her loss. But Shirley Rawley will walk away a winner because, as Edith Wharton wrote,

There are two ways of spreading light: to be the candle or the mirror that reflects it. The recipients of Shirley's light can attest to its origin — she's a beacon and not a mere reflection.

Therefore, we would like to say thank you to Shirley Rawley for her dedication, endurance, and counsel. And to those lucky people who will become her new associates, bask in her glow!

F. Mitchell Shore  
Jonnie L. Shore

fronted with beauty and know not.

Raiford Porter  
A dejected art teacher.

Dear Editor,

It has been common practice in recent years at High Point College to loosely throw around the word *apathetic* in reference to student care and involvement on campus. This has been true in many aspects of life here at the college, but such was not the case last Sunday night.

By now most of the college community is aware of the tragic incident that took place near Yadin Hall on the 16th of September. We all regret that one of our girls had to be the victim of such a violent act, and we give our utmost sympathy and support to her. However, I don't want the incident to fade away without first commending the guys of McCulloch and Millis halls.

When word got around of the attack, the men of HPC wasted no time in getting outside and searching the entire campus and the surrounding communities for the assailant. Up until all hours of the night, they escorted the girls across campus and continued to search the campus.

For their caring help and assistance I would like to tip my hat to the gentlemen of HPC.

Danny Beall  
R.A., McCulloch

Dear Editor:

My husband and I received the news of Shirley Rawley's resignation from High Point College with much sadness. We're sure her students and colleagues join with us in wishing her every success.

However, she deserves more than good wishes. We owe her a great deal. Not only did she lay the groundwork to implement the successful Continuing Adult Education Program, she also taught classes, counseled students, and dealt with a myriad of administrative headaches. We speak for many students and graduates who counted on Shirley because she always delivered. There has never been an occasion when she sought to sidestep or otherwise downplay whatever issue arose. We can think of a no more fitting tribute than the memories carried by those people whose lives she has touched.

Savages in Our Midst

I was shocked and embarrassed at the immature behavior of what can only be described as a mob at the showing of the film "A Man for All Seasons" in memorial Auditorium on Friday, August 31.

Obviously, the orientation leaders have a monumental task ahead of them when they discuss the meaning of "values" with a bunch of Philistines.

In my twenty-seven years of teaching at High Point College, I have never witnessed such a lack of manners on the part of so many students.

I have the distinct feeling that many in audience would have cheered at the crucifixion of Christ, too.

Forgive the rude and impolite when they are con-

## Revised IFC Agree?

As the editorial committee of the *Journal of Herpetology* (JH) meets to discuss the proposed changes to the IFC, I am reminded of the words of the late Dr. J. B. Whittaker, who once said, "The only way to change the world is to change the people who run it."

Whittaker's words are certainly true, and they are also true of the JH. The only way to change the JH is to change the people who run it. The only way to change the JH is to change the people who run it.

# Freshman Enrollment Increase

BY TONY BAITY

Staff Writer

Freshman enrollment has increased 13 percent while Scholastic Aptitude Test (SAT) scores for freshmen may be somewhat lower than normal, according to statistics released by the HPC Admissions Office.

According to Jim Schlimmer, Director of Admissions, the total number of new freshmen enrolled for the Fall semester is 272 students. This is an increase of 31 students over the total enrolled for the Fall semester a year ago.

When asked why the increase occurred, Schlimmer stated, "There are many reasons for the increase. One, our office (admissions) had more contact with pro-

spective students and their parents. Two, there was a large increase in the number of prospective students visiting campus. Three, there was a 37 percent increase of unsolicited SAT scores received by our office. Four, we just did a better job at selling the college."

Schlimmer also indicated that the college as a whole was very pleased with the increase in freshman enrollment.

In a time when the number of students graduating from high school is decreasing," stated Schlimmer, "Most colleges just try to maintain their current enrollment. We have not only maintained our enrollment, we have increased it 13 percent."

In response to questions concerning the standards for admission, Schlimmer stated, "We have maintained the standards and quality of students which the college has come to expect."

Charles Lucht, President of the college, had a similar point of view. Lucht said, "Some of the faculty members with whom I have talked have expressed (the feeling) that they are pleased with the quality of the new freshmen."

Edward Piacentino, head of the English department, however, was unsure of the quality of the new freshmen.

"I have been pleased with their willingness to work in class," said Piacentino. "However, it is still too ear-

ly in the semester to determine the quality of the new freshmen."

Piacentino did point out that this year there are five sections of English 100 being taught. This is an increase of two sections over last year. When asked if this indicated that SAT scores for freshmen were down from last year, Piacentino replied, "Yes, this increase in the number of English 100 sections would indicate that standard test scores for freshmen are down."

Schlimmer also was asked if the increase in the number of English 100 sections indicated that the standard test scores for freshmen were down. Schlimmer replied that the average

SAT score is somewhat lower.

Schlimmer also stated, "The SAT is used only as an indicator for a student applying for admission. We have a formula which uses a prospective student's SAT score as well as grade point average to give an overall view of the student. It is the overall view which determines whether or not a student is granted admission."

Other statistics released by the Admissions office indicated the following:

	83-84	84-85	% +/-
Transfer Students	79	99	+25.3
Special Students	15	9	-40
Continuing Students	562	543	-3.4
Total Students	911	931	+2.2

## Payne Discusses Orientation

BY CAROLYN BINKLEY  
ASSISTANT EDITOR

Still wondering what the letters on the pawprint in front of the Campus Center are for? Most of the campus now knows that it has something to do with orientation; but what do the letters stand for? According to Art Payne, vice-president of SGA, it isn't an acronym for anything; it just means the Executive Group in charge of Orientation '84. CORE stands for the central group around which everything revolved. This committee consisted of Mary Ann Busch, Bill Cope, Ben Curry, Carol Head, Mike Pittman, Art Payne and Sandra Swoboda.

Preparations began a week after SGA elections last April. Applications for Big Brothers and Big Sisters were sent out; decisions on the applicants were mainly based on the "well-roundedness" of the student.

When asked if he was in charge of everything, Art replied, "Ben Curry, Mary Ann Busch and I had equal roles. This year, we found it a lot easier to obtain money to do the things we wanted. We didn't think of the ordinance of not throwing frisbees within 100 feet of building until this summer. We ordered enough for two years. Mike Pittman ordered the caps before he left. I designed and got the shirts for the Orientation leaders. Chris Shuping did the banner that said, 'Welcome to the High Point College Com-

munity.' He did a great job with that."

Some of the activities were new, like Co-Rec (Co-Recreational) Night Out on the Intramural field. There was also a movie, "A Man for All Seasons," a Beach Party, and the Street Dance with Rob Leonard from WSEZ-93. The Street Dance was Dr. Lucht's idea from last year. Hopefully it'll be a tradition."

About the movie, "The reason we scheduled it Friday night was to encourage people to stay on campus. A lot of people didn't agree with it. But I feel like you need to stay on campus at least the first weekend you're here. We should have required the Big Brothers, Big Sisters, and faculty to be there and sitting with their groups and that would have alleviated the problem. We thought we could treat the freshmen as adults, but they were extremely tired; people just got rambunctious. I can't blame them, especially for being upset. I just hope that they understand the purpose of it. I hope they can relate to their Big Brothers and Sisters and the problems, likes and dislikes and have them referred to me so we can work on them next year."

"As an overall group, there seem to be a lot of achievers. I know that I had an excellent group; they were the best."

"We tried to condense it so it wouldn't drag out the whole semester. We had a meeting a couple of weeks

ART PAYNE

ago and the general consensus was that the freshmen enjoyed it. I hope that we can learn from the questionnaires they filled out. This year we looked at past recommendations. We tried to revamp everything."

The panther paw was used because "it fits in with several facets of our college's being. It promotes 'the personal touch'; it exemplifies that we're panthers and follows along with the mascot. It also stands for 'Pride, Acceptance, Work, and Service.' That's what the Big Brothers and Sisters did; especially in accepting the freshmen as part of us. It's part of the legacy of High Point College. The College and I owe them a great debt."

"I believe we instilled a sense of pride in the campus and that's one thing I really want because I think positive things happen here. "I think Orientation is the best it's ever been; the most beneficial for the freshmen. I hope it started their year with a positive attitude. I know that I've enjoyed it."

## Computer Age Arrives at HPC

BY OWEN SNYDER  
Staff Writer

A whole new Computer Services Department has been established here at High Point College.

This department was started June 1, 1984 and is headed by a person who has been around the college for a number of years, Mrs. Anita Bowman.

In all, twenty-nine computers will be open for student use as of September twenty-first. This includes: nineteen Apple II plus's and two Apple IIe's, which are located in the Micro-Computer room in Hayworth Hall. The computers are open for use 8 a.m. to 5 p.m., Monday thru

Friday, and assistance is available.

On these computers one can do anything from typing up papers to acquiring important data through the use of computer discs. This is not all; there is much, much more.

As of September twenty-first, Hayworth Hall will also have a Mini-Computer Lab. This new computer lab is more advanced because it has peripherals to the Data General MV-4000 computer located in Roberts Hall. The MV-4000 is able to transfer papers, messages, etc. across campus to the Data General Eclipse, a very impressive machine run by Drema Bryant, for administrative purposes only.

# Freshman Enrollment Increase

## WELCOME TO THE SUNSHINE

The Sunshine School of Cosmetology is pleased to announce a significant increase in freshman enrollment for the upcoming semester. This growth reflects the school's commitment to providing high-quality training and a supportive learning environment for new students. The increase in enrollment is a testament to the school's reputation for excellence in cosmetology education.

The school's curriculum is designed to provide students with the skills and knowledge necessary to succeed in the cosmetology industry. The program includes hands-on training, theoretical instruction, and practical experience. The school's faculty consists of experienced professionals who are dedicated to helping students achieve their goals. The school's facilities are state-of-the-art, providing students with the latest equipment and technology.

The school's location is convenient for students, and the campus is a beautiful setting for learning. The school's admission process is straightforward, and the financial aid office is available to help students with their financial needs. The school's success is measured by the number of graduates who go on to successful careers in the cosmetology industry. The school's commitment to excellence is evident in the high quality of its education and the success of its graduates.

The school's reputation for excellence is well-known throughout the industry. The school's graduates are highly sought after by employers, and the school's success is a testament to the quality of its education. The school's commitment to excellence is evident in the high quality of its education and the success of its graduates. The school's success is measured by the number of graduates who go on to successful careers in the cosmetology industry.

The school's commitment to excellence is evident in the high quality of its education and the success of its graduates. The school's success is measured by the number of graduates who go on to successful careers in the cosmetology industry.

## Payton Sherman Orientation

Payton Sherman, a well-known figure in the cosmetology industry, will be giving an orientation to the new students. Payton will share her experiences and insights into the industry, providing students with valuable information. Payton's orientation will be a great opportunity for students to learn from a professional and gain a better understanding of the industry. Payton's orientation will be a great opportunity for students to learn from a professional and gain a better understanding of the industry.

# Says Ted ●●●

BY TED COREYELL

Columnist

"There's nothing to do at High Point." This pathetic proclamation, often heard from the mouths of freshmen, should be punishable by death or a mandatory four-year course in "Foundations"—take your pick.

High Point College is a warehouse of clubs and activities ranging from wild parties and dances to seeking fellowship with God. The college, administration, and the student body are packed with people fighting for your time and involvement in their organizations.

Do you know what "AA" stands for? Ask Jim Schlimg.

## Formal Voted Down

BY TOM BUTLER

Staff Writer

The Student Government Association held its first meeting of the 1984-85 academic year to appoint new officers and to vote on a proposal for a Fall formal.

Danny Beall, a junior from Glen Burnie, Maryland, was appointed Attorney General by SGA President Bill Frampton. His duties will be to head the Supreme Court, hear all court appeals, and traffic violations. Beall says that it is an honor to hold the position and that he is looking forward to the challenge. Peggy Draper was also named as Secretary, and Alicia Wright was appointed as Speaker Pro Tem.

A motion to allocate \$3000 for a Fall formal was voted down. It was cited that the only available weekend was the one preceding Thanksgiving. There was also a men's basketball game scheduled, and it was believed that attendance would be sparse.

## Career Opportunities Available

BY MAE RAVENEL

Staff Writer

Many Career opportunities are available to High Point College students through the Career Development Center located in the Office of Student Life. Information on local job openings can be obtained from Mrs. Joyce Wainer in the Career Center.

mer, Director of Admissions. He'll be glad to tell you. Did you know that even if you are an only child you can have more brothers and sisters than you ever dreamed of? What is the Student Union, a "Zenith," a "Hi-Po," or a WWIIH?

If you can't answer all of these questions you have no right to say "there's nothing to do at HPC."

This is my third year as an involved student and there are organizations I still don't know about.

College isn't just esoteric texts and eccentric professors—if it were, we'd all be going to community colleges. Don't get bored, get involved.

## Student Union Hard at Work

BY TOM BUTLER

Staff Writer

The HPC Student Union held its first meeting of the 1984-85 academic year on Wednesday, September 12.

Concert chairman, Bob Rossi, is attempting to bring HPC a fall concert in November. Groups being considered are Zebra, Firefall, America, and John Waite. Other committee chairmen are Mike Lembo, Stage Manager; Kevin West, Ad Manager; and Theresa Brewer, who is in charge of catering service on the dance committee.

Kevin Connoley, Recreation Chairman, is attempting to organize a trip to the Rod Stewart concert, or Carowinds for the fall.

Special events coming soon include a job fair to be held at Wake Forest University on November 7 and 8, special program on career opportunities in political science on October 4, and an interview skills workshop on October 2 and 9. Further information on these and other events is available from Mrs. Wainer, room 101, Campus Center.

# Harville Speaks at Convocation

CHARLIE HARVILLE

BY MICHAEL ROBERTS  
EDITOR-IN-CHIEF

WFMY sportscaster Charlie Harville was the principal speaker at convocation on September 5. Harville, a 1939 graduate of High Point College, told the

students "There were no stereos, no television, no computers, no atomic energy, and not as many distractions as you have today," when he completed HPC in 1935.

Student Government President Bill Frampton and

Dr. Harold Wright, representing the board of trustees, also addressed the assembly.

High Point Mayor Bob Wells presented High Point College with the key to the city, saying it was the first time it had ever been presented to an institution.

PRES. CHARLES LUCHT

# Crime Falls

BY SCOTT HEINECKE

Staff Writer

"We have had the lowest reported theft and accident rate this year compared to the last three years. I just hope the students will continue their crime prevention efforts," commented Ed Cannady, Director of Public Safety.

The Campus Safety Office is working to set up a self-defense course. It will be free of charge. The time and place will be announced in bulletins later. One of the in-

structors will be from the High Point Police Department.

The lighting project started last spring is almost complete. New sodium lights have been installed on light poles. During the next couple of weeks, sixteen new poles will be put up on campus. "The completion of this project shall make this campus totally lit at night and will prevent criminal activity from happening," commented Cannady.

"The school will tow your

car if you are parked in a fire zone or by a dumpster," commented Cannady. College security officers will issue tickets, if you are parked in a yellow parking space or in white parking space besides the zone marked on your permit. If you cannot find a parking space in your zone, you must park in the overflow zones around the auditorium, Hayworth Hall and Cooke Hall. "We are here to serve and protect the student, not to get him into trouble," commented Cannady.

## Writers' Club Organized

BY GREGG THOMPSON

Staff Writer

The first meeting of the Writer's Club was held last Thursday in Room 20, Cooke Hall. Dr. Piacentino headed a group of ten writers whose interests range from poetry to investigative reporting.

The Fly Spec, the club's literary magazine, is going to be published December 10. Original art works and photographs as well as written material is wanted. Deadline for submission is October 31.

Several events were planned, including talks by published authors on the how's and why's of writing professionally. Also, possible activities of the club are an open house workshop for beginning writers and a collaboration of the club members to produce novels, plays or works of longer length.

For information concerning the club, contact Dr. Moehlmann or Dr. Piacentino. Look for posters around the campus dealing with club activities.

## Former Dean Dies

BY MICHAEL ROBERTS  
EDITOR-IN-CHIEF

Dr. Harold Conrad, former dean of High Point College, died last week at the age of 79.

Dr. Conrad came to High

Point College in 1955 and served as dean, professor of history and director of the summer school until his retirement in 1970. He continued to lecture in history at HPC until 1977.

## Hodge Podge

With all the to-do about the inadequacy of our education system, one would think that people would be talking about what it is to be educated. They aren't. Instead, people are talking about money, merit systems, and molasses.

In fact, there's not enough money, merit, or molasses in the western hemisphere to do the job. What is needed is a fundamental change in society's thinking, and there hasn't been a fundamental change in society's thinking since the Yankees took New Amsterdam from the Dutch. (That was in '55; the Dutch moved to LA, but drew so poorly that they dropped out of American League.)

If we are to have educated people—and educated educators—educated people are going to have to be important to more than educators; they are going to have to be important to society at large.

There's not much hope of that.

Not much hope, at least, while we think of school as the corporation's farm team. Not much hope while we think of the individual as a cog in the machine of industry. Even less hope while we think of the individual as some sort of high-tech modem:

"Hey, human being!"

"Yazza, Boss?"

"I hunger. More printout paper!"

"Yazza, Boss."

We will not have better schools, nor will we have educated people, until society wants them, until society wants individuality, creativity, breadth, and depth.

All society wants now is the robot, and when the metal robots are perfected, the ones made of flesh and blood will have all the time they want—to study? become wise? be educated?

Sticky stuff, molasses.

Marion Hodge  
Assoc. Prof. of English

## Drunk driving drying up

*Campus Digest News Service*

Campaigns usually rise and fall with election years, but one recent campaign is rallying year-round across the nation against America's most socially acceptable killer—the drunken driver.

Drinking and driving have been associated for years since both became accessible to large numbers of people, and

throughout the history of this dread association many victims have been left sprawled across our highways. In just the past two years, more Americans were killed by this deadly combination than died in Vietnam. Over the last decade, a quarter of a million people have lost their lives in alcohol-related accidents.

Now the parents and friends of the innocent victims who have fallen prey to the drunken driver are fighting to

put an end to the carnage. They are attempting to slow the death rate which claims three Americans and injures 80 more every hour of every day by the intoxicated motorist.

State legislatures are beginning to listen to the outcry from individuals and organized groups such as Mothers Against Drunk Drivers (MADD) and Remove Intoxicated Drivers-USA (RID). The state lawmakers are no longer ignoring the figures from safety experts which indicate one out of every two Americans will be the victim of a drunk driver sometime during his or her lifetime.

In the past, most steps against drinking and driving have been safety measures such as installing air bags and other devices in cars. Now new laws in 27 states will take extreme measures against the drunk driver himself.

Most of the new laws contain a mandatory prison term for at least the second offense, and in some cases for first-time offenders convicted of driving while intoxicated. An average indication of such a physical state is a blood alcohol count of .10, or about three shots of booze consumed in two hours by a 150-pound person.

Penalties are often more strict for convicted drivers who refuse to take a sobriety test. At the same time this

## Parent Orientation Planned

BY JOHN DISTASIO

*Staff Writer*

Something new has happened this year with High Point College's orientation program. This year High Point College decided to try not to only orientate the student, but also the parent. A full schedule of activities was planned for the parents in hopes to put them at ease when leaving their children here.

This idea of a parent orientation was that of Ben Curry and Art Payne, vice president of the SGA. They attended meetings with ex-

perts and discussed the subject of parent orientation. They decided that it was a good idea and decided to try it at High Point College.

It seems to have been a good decision. Although reluctant at first, the faculty soon saw the benefits of this orientation program. The parents had no reluctance at all. One parent saying, "I feel great about leaving my child here," while another said, "Don't change a thing; the school has warmth." Feedback like this is sure to make this parent orientation a mainstay at High Point College.

## New Faces, Old Make For Bright Soccer Future

Defender Bobby Rapp, No. 22, Stu Shilling, center, and Kevin Noon move towards the ball.

**BY JERRY MIN  
SPORTS EDITOR**

With the return of All-Conference defenders Angelo Stewart and Bobby Rapp, team goal scoring leader last season Pete Cockburn (12 goals), and a revamped midfield High Point College opened its 1984 soccer season with a 2-1 victory over Warren Wilson, Sept. 9.

High Point opened the scoring at the 21:51 mark of the first. Freshman Gary Hewitt took a free kick about 40 yards away from the goal. Cockburn headed it in from about 6 yards out. High Point just missed on a couple of scoring opportunities as a Warren Wilson defender headed away a sure goal, and sophomore Kevin Noon (8 goals last season) missed wide.

High Point continued its domination of the game by scoring just 1:40 into the second half. Junior Stu Shilling sent a pass from the far right across the goal. Cockburn took the pass and fired a low, hard shot past the Warren Wilson keeper for his second goal of the game.

Warren Wilson applied more and more pressure as the half progressed. Sophomore keeper Sal Schiavone made a couple of

good saves. Warren Wilson's pressure did provide High Point with some counterattacks. Hewitt missing barely on two shots.

A questionable penalty was called against High Point with 21:23 left in the game. The resulting penalty kick was scored by Warren Wilson to close out the scoring.

In other action over the past two weeks High Point lost to UNC-Greensboro 5-3, Wingate 4-1 and defeated Oglethorpe University 5-2 and Tusculum 9-1.

The UNCG game was played on hot afternoon in front of a large High Point and UNCG crowd. The Panthers come out firing against the 2 time NCAA Division Three champs scoring in the first minute. Senior R. C. Hill was credited with goal. UNCG answered with a goal on a cornerkick, but High Point went ahead again at the 30:30 mark of the first half as some nifty passing in front of the goal enabled junior defender Phil Valente to knock it in.

UNCG answered this goal with one of their own later in the half. If not for High Point keeper Schiavone, UNCG would have had another goal. Two quick, hard shots from close in were saved by Schiavone.

As the second half opened UNCG went ahead for the first time on a shot that curved just out of Schiavone's reach.

Pete Cockburn scored his third goal of the season on a breakaway as he faked the UNCG keeper, who had come 35 yards out of the goal.

UNCG's superior bench, coupled with the fact that they had been together for four weeks practicing finally began to take its toll on High Point. UNCG scored two goals about ten minutes apart late in the second half for the 5-3 final.

On Sept. 12 High Point played Winthrop. Still mentally and physically exhausted from UNCG game High Point appeared flat. Winthrop scored twice late in the first half and added two more goals before High Point's Doug Brandon, freshman defender scored with 7:21 left in the game.

The weekend of Sept. 14 proved a changed in The Panthers' fortune. High Point traveled to Atlanta, Georgia for games against Oglethorpe, and Tusculum. With the improved play of defenders Rapp and Stewart, and a 4-goal performance by Lester Davis, High Point cruised to the 5-2 and 9-1 victories.

Phil Valente, left, and Kevin Noon look on as Play unfolds.

## Despite Inexperience, Volleyball Looks Good

**BY JANET MALLET**

On Tues., September 11, High Point defeated Pfeiffer 15-3 and 15-8, at Pfeiffer College. The Panthers also defeated Gardner-Webb 15-2 and 15-1. Thursday, September 13 was a different story. Mars Hill defeated High Point 15-5 and 15-10. Elon then tried to wear the Panthers out but were defeated instead 15-8. The second game was High Point 15-4. Coach Nancy Little says she is very pleased with the team's performance thus far, considering she has only 4 veterans, 5 freshman, and one walk-on. She feels these players will gel as the season progresses. This week's contests include Wingate, Winston-Salem, and a tournament at Mars Hill College on Sat., Sept. 22.

**BY JANET MALLET**

*Sports Writer*

The High Point Panthers were defeated by Atlantic Christian on Tuesday, September 18 by a score of 12-15, 15-10, 14-16. The first game was evenly played, one team gaining a couple of points, then the other catching up. Cynthia Ismael had very had very strong serves, gaining points for HPC.

During the second game HPC had a tough start but eventually pulled ahead. The Panthers won 15-10. The third game was a hard one for the Panthers. Falling behind early, ACC eventually built a 13-9 lead. The Panthers fought back to a 14-14 tie only to watch ACC pull out the 16-14 victory.

The Panthers then had to

battle St. Augustine. The first game was all HPC as they cruised to a 15-10 victory. The Panthers took advantage of sloppy play by St. Augustine to record the win.

The second game was a see-saw battle from the very start. Neither team could get a sizeable advantage. Rhonda Smith had a very strong game as did Ismael. St. Augustine prevailed however 15-12.

In the final game High Point led 8-4 but St. Augustine fought back and took the victory 16-14.

Despite the two losses the team played well according to Coach Nancy Little. "The freshmen are playing better and the veterans are helping them learn. Things look up for the future."

## New Faces, Old Make For Bright Soccer Future

SOCCER TEAM KICKS OFF  
SEASON

The High Point College soccer team kicked off its season with a win over the University of North Carolina at Charlotte. The team, coached by John Smith, played a strong game, scoring three goals and keeping a clean sheet. The victory was a great start for the team, which is looking to make a deep run in the upcoming season. The team's captain, Mike Smith, was instrumental in the win, scoring a goal and providing several assists. The team's defense was solid, with several key saves by goalkeeper David Smith. The team's offense was also strong, with several key plays leading to goals. The team's overall performance was excellent, and it is expected to continue to improve throughout the season.

The High Point College soccer team is a competitive force on the field. The team's players are dedicated and hardworking, and they are always looking to improve their skills. The team's coach, John Smith, is a experienced and successful coach, and he has helped the team achieve many victories over the years. The team's fans are also very supportive, and they always show up to support their team. The team's overall record is excellent, and it is expected to continue to improve throughout the season.

## Fall Baseball Opens With Win

BY J. DANNY BEALL  
SPORTS EDITOR

The High Point College baseball team opened its 1984 fall exhibition season with an impressive 6-1 win over the Deacons from Wake Forest on Sunday afternoon. The Panthers cruised to an easy victory behind the hitting of catcher Brian Kemp and strong pitching performances by David Barnes, Tom Gamble, Jim Scott, Barry Kellam, and freshman southpaw Anthony "Red" Morrison.

Despite a disappointing 11-21 season last year, coach Jim Speight expects his team to be a conference contender once again. Along with a blue chip crop of freshmen pitchers like Morrison, Ernie Donaldson, and Bob Weinhold, the Panthers can also look forward to the return of strong hitting from pitcher/third baseman Kellam, right fielder Carl Bradsher, first baseman Mike Everett, sophomore catchers Kemp and David Hooker, and all-conference Player of the Year candidate John Carty who patrols center field.

With better pitching, improved team speed, and a solid defense, Coach Speight feels his Panthers will be "right in the thick of a conference title race this year."

## Hockey Team Plays Well

BY DANNY BEALL  
Sports Editor

The field hockey team began play last week against tough division 1 teams. Although dropping their first three games, High Point played well against stiff competition. The ladies lost hard fought contests to Duke, Longwood and Appalachian, 2-0, 2-1, 1-0 respectively. The young Panthers, with only two seniors on the team, are hoping to do well in upcoming conference play. Senior standout Sharon Paken, along with juniors Carol Williams and Carol Bidermann, will be the bright spots for coach Kitty Steele during the 1984 season.

## Announcements

Attention All Seniors: If you plan to graduate in the spring of 1985 you must apply for graduation. Please stop by the registrar's office before October 1 and make an appointment to see Mr. Holt. In the past, failure to apply has resulted in seniors not graduating because they lacked one or two required hours. Remember, application for graduation can make a difference.

Continued from Page 5

tooth stand against drunken driving is working, in some cases it is not.

After new legislation passed, alcohol-related fatalities declined by 20 percent in Maryland, 47 percent in Maine and 35 percent in Oregon. South Dakota has more than 600 death sites marked on its highways with a sign: "X marks the spot...THINK!" Maryland and Massachusetts police monitor sobriety check-points and Maine has cracked down further with a new liquor tax.

Twenty states have increased the legal drinking age because statistics have indicated a link between deaths caused by drunken driving and offenders aged 16 to 24.

Despite all these efforts, however, the new laws are proving tough to enforce.

One source of trouble is the attitude of both judges and juries, who sometimes give a "slap on the wrist" to the clean-shaven, family man standing before them. They can't picture him as he stumbled drunkenly away from the wreck he caused just the other night.

The average blood alcohol count of many drunk drivers rates a .20, but despite that and the presence of prior convictions for reckless driving or driving while intoxicated

On Tour:  
Sept. 21 - Jazz pianist Chick Corea performs at 8:15 p.m. at Aycock Auditorium on the campus of UNC-Greensboro. Call 379-5546 between 1:30 and 5:30 weekdays for ticket information.

Sept. 23 - R.E.M. with the DB's, 8:00 p.m. at the Charlotte Park Center. Tickets \$10.50 and \$11.50. R.E.M. with the DB's will also be at Duke University on Sept. 25 and 26. No ticket information.

Sept. 28 - James Taylor will be in concert at Reynolds Coliseum on the campus of North Carolina State University.  
Oct. 1 - Amy Grant, Grammy Award-winning

contemporary Christian music vocalist, will perform at the Greensboro Coliseum. Tickets \$10.50 and \$11.50.

Oct. 2 - Rod Stewart performs at 8:00 p.m. at the Greensboro Coliseum. Tickets are \$13.50. Stewart will also appear at the Charlotte Coliseum on Oct. 3.

Oct. 5 - The Grateful Dead at the Charlotte Coliseum. Tickets \$13.50.  
Oct. 10 - Elton John at the Charlotte Coliseum. Tickets \$15.00.

"The Passion of Dracula," the story of the Prince of Darkness' search for a bride, highlights High Point College Theater's 1984-85 season.

Dracula will be presented Friday and Saturday, October 26 and 27, and November 2 and 3. A special midnight performance is slated for Halloween, October 31.

"Scrooge," the musical adaptation of Charles Dickens' "A Christmas Carol," will return for the third season. Tentative performance dates are Wednes-

day through Saturday, December 5-8.

Coming up in the first half of 1985 will be the popular comedy, "Heaven Can Wait." Performance dates for this story of the man who dies too soon and is sent back to Earth in a borrowed body will be Friday and Saturday, February 15 and 16 and again February 22 and 23.

"Celebration" will be the last show of the season. The musical will be presented Friday and Saturday, April 12 and 13; Friday, April 19; and Monday, April 22. Season tickets are now on sale at the High Point College Box Office. You can see all four shows for \$8.00, a savings of \$4.00 off the \$3.00 per show price.

For more information, contact the Box Office at extension 232.

Contact Mr. Uddin at 884-4407

FOR SALE: '78 Honda Hawk 400, Hondamatic, highway bars, new mufflers, new battery, backrest w/bag; medium blue; white fairsing. Appraised at \$800. Sell for \$675. Contact Women's Dorm, room 208, 884-9857 (hall phone).

(DWI), most homicides by these drivers result in "misdemeanors for the offenders."

One example tells of a drunken driver who killed a 13-year-old girl on her way to a church carnival. The driver was paroled after serving only 19 months in jail, even though at the time of the killing he was out on bail from another drunk driving arrest and had two prior convictions.

In spite of this, the campaigners against drunk drivers are not giving up. Many have set up court watches to ensure enforcement of the new laws. Their presence in the courtroom often sways the judge and jury to get tough with these killers on the highway.

## The return of virginity

Campus Digest News Service

Has sex lost its appeal? Are virgins in vogue? These are the questions being asked of today's single men and women. And the answers show that the revolution is apparently slowing down.

What is the cause of this new attitude? Perhaps herpes has contributed to the new morality. (No one wants to acquire a life-long disease just for the sake of a one-night stand.)

Or maybe it is the result of

too many people discovering that the "swinging singles" life is not all it is cracked up to be. Loneliness is a factor that many people did not count on when they entered the singles scene.

And possibly, the new trend is the result of a nation turning back to the old morality: love, marriage and stability, instead of sex for its own sake.

Whatever the reason, couples are in and swinging singles are out.

## CLUB NEWS

The Tower Toastmasters Club, an affiliate of Toastmasters International, will resume its meetings on the High Point College Campus on Friday, September 23, 1984. The Club will meet in the Private Dining Room located on the first floor of the Holt McPherson Cam-

pus Center. The meeting will begin promptly at 7 a.m. and the meeting will end promptly at 8 a.m. Breakfast will be served from 6:45-7:00 at the cost of \$2.45.

Tower Toastmasters Club is an "...organization devoted to communication excellence" and leadership training. Its members gather bi-monthly to enhance their skills in listening, speaking, and organizational leadership.

Membership in the Club is open to the general public. Visitors and prospective members are invited to attend all meetings. For more information contact any of the Club's Officers:

# HPC Celebrates 60th Anniversary

BY MICHAEL ROBERTS  
Editor In-Chief

A celebration in honor of High Point College's sixtieth anniversary was the highlight of the college's annual Parents' Day festivities on Saturday, September 29.

Parents of High Point College students, as well as alumni and friends of the college, were invited to a birthday party hosted by college President Charles Lucht and Mrs. Lucht. A large birthday cake was prepared by the college food services cut at the conclusion of a soccer match between the High Point College

Panthers and Flon College.

Displays were set up by the Alumni Association, which included historical treasures from the college archives and classic antique cars from the 1920's. A jazz ensemble led by Winston-Salem State University Band Director Duncan Gray of Trinity played tunes popular during the twenties.

Other activities scheduled for Parents' Day included classroom sessions designed to give parents a firsthand view of three faculty members' teaching techniques. Dr. Richard Bennington, director of the col-

lege's furniture marketing program, discussed "Furniture Product Development." Mrs. Nancy Shelton, associate professor of education, talked about "The Making of a Teacher;" and history professor Dr. James Stitt led a session on "Revolutions of the Twentieth Century." Later in the day, fraternities held open houses and a one-act play was presented by the High Point College Theater.

The Student Union ran shuttle buses from the college to the Arts Council's "Day in the Park" on both Saturday and Sunday.

HPC Birthday Cake

## Self-defense class Introduced

BY CAROLYN BINKLEY  
ASSISTANT EDITOR

If you walk by the Campus Center on a Tuesday or Thursday evening and happen to see a group of people punching in rhythm, don't worry. It's just the self-defense class currently being taught by Robert Burkett, a martial arts expert and instructor at Burkett's Self-Defense Academy.

The class was started after a female student was assaulted on campus nearly three weeks ago. Three evenings after the incident, the Student Government Association decided to allow \$270 for the class.

There have been three meetings so far, with Burkett and one of his black-belts, Becky Jenkins, in-

structing the group in various escapes, punches, and kicks. In a recent interview in his studio, Burkett discussed his programs and ideas. He wants the pupils at HPC to have the knowledge to defend themselves. "In the street, there's no way an untrained person can beat a trained one. The bad guys are confident, but if you put up a fight, nine times out of ten they'll fall back. I think this class is needed; if you're confused when a friend (playful) attacks you, you'll really be confused and completely helpless with a real attacker." He added, "More people are aware of the need (for self-defense) now. Most people intellectualize it, but you can't get it from reading

a book. It's a way of projecting yourself. Martial art is something you have to do. You're as good as you want to be. If you're lazy, you don't get that much out of it. Martial arts make you more aware of your body. It's timing and coordinated movement. It also enhances anything you do in life; it will make you better at whatever you do."

Burkett said that guys and girls tend to approach self-defense differently. "Girls seem to be more concerned, whereas guys think of themselves as macho. Girls seem to learn quicker; they realize that they must use pure technique. Guys can bluff it over with

## HPC Celebrates 60th Anniversary

As the year 1988 draws to a close, High Point College is celebrating its 60th anniversary. The college was founded in 1928 by Rev. Dr. J. H. Burton, a Methodist minister, and his wife, Mrs. Burton. The college was originally named "High Point Baptist College" and was located in the town of High Point, North Carolina. Over the years, the college has grown and changed, but its commitment to Christian education and service remains the same.

The college has a rich history of academic excellence and service to the community. It has been a leader in the development of the region and has played a significant role in the lives of many students. The college's 60th anniversary is a testament to its enduring legacy and its commitment to the future.

The college's 60th anniversary is a time of reflection and celebration. It is a time to look back on the many achievements of the college and to look forward to the future. The college's 60th anniversary is a testament to its enduring legacy and its commitment to the future.

## Self-defense class Introduced

A new self-defense class has been introduced at High Point College. The class is designed to teach students basic self-defense techniques and to provide them with the confidence to stand up for themselves. The class is open to all students and is taught by a professional instructor. The class is a great way for students to learn self-defense and to stay safe on campus.

## SECURITY APPRECIATED

Cute cartoon, huh? Little old lady, usually thought of as defenseless. . . . Anyway, it makes you think. People aren't as trusting as they used to be and with good reason. With the crime rate on the rise, people are locking their doors and setting their burglar alarms. Not many people feel safe in their own homes anymore.

Three shorts weeks ago a girl was assaulted here on campus. Since then, a self-defense course has been started on Tuesday and Thursday nights, thanks to SGA. There is also a volunteer escort service based in the Security office; the "escorts" keep in touch by walkie-talkie. H.P.C. security has increased, and High Point Police seem to be patrolling campus more often.

The Women's dormitory complex just had a silent alarm system installed — so be careful, girls!

It's comforting to know that such an interest is being taken in the safety of the students, especially us females. The general consensus from the girls is that the efforts are really appreciated. So from all of us — Thanks!

'AND IF THIS DOESN'T WORK I CAN ALWAYS TAKE UP THE SLACK WITH MY 38 SNUBNOSE.'

## For The Record

### Letters to the editor . . .

## Time Out

I've always loved to watch pro football on Sunday afternoons, but usually around 6 o'clock the games begin to get dull. Two Sundays ago my Giants were losing to the Redskins. Unlike a Giant fan from New York, I didn't want to boo them off the field at the end of the game so I changed the channel. The dial soon fell on something more vicious than any confrontation with the Raiders. Wrestling you say? No, that stuff is fake. This was the real thing — The Jim and Jesse Debate.

I'm referring to the Hunt-Helms Senatorial race with their first names because the contest has become so personal. In fact, it's a lot like a football game because you get to pick the bad guy.

Forget the parties. The Democratic and Republican affiliation never made it to the stadium.

Forget the issues. They

can't decide which ball they want to play with. Still, it's great fun. I mean, don't we all just love those little fights after the whistle is blown?

Well, back to this game. There's action. Jim causes Jesse to fumble by addressing his congressional record. Jesse throws a penalty flag on Jim as he avoids the issue of a Department of Transportation employee. Jim says Jesse's television ads where Jim raises his hand is a lie. The penalties offset. No gain.

After the debate was over I noticed it was nothing more than a defensive battle. Both candidates never got very far from the 50 yard line.

Maybe for the next debate they'll get Pat Summerville and John Madden to call the action.

Who knows? Maybe one day Jim and Jesse will do a Lite Beer commercial.

Let's get the record straight please.

The September 20th 1984 edition of the Hi-Po attributed the Street Dance, at the beginning of the year, to the Orientation program. Furthermore, the idea for the dance was credited to Dr. Charles Lucht, president of the college. These two falsehoods were via Art Payne in the article "Payne Discusses Orientation."

Fact one: The Street Dance was funded, organized, and implemented by the Student Union. The Union holds the event as a supplement to the Orientation program.

Fact two: The Street Dance was Jeanine Halver-

son's idea from two years ago. Halverson was a graduate assistant who interned at HPC as Assistant Director of Student Life in the spring of the '82-'83 school year. The dance was hosted by the funk group "The Mighty Majors" as part of Last Class Bash. This was a full four months before Lucht claims to have spawned the idea.

I hold no malice toward Payne or Lucht regarding the situation, but only hope in the future they are more careful what they take credit for. Let us give credit where credit is due.

Ted Coryell  
Student Union Chairman

## Says Ted . . .

BY TED CORYELL  
Columnist

"You've come a long way baby," the long-time slogan of Virginia Slims, is also applicable for the library services at HPC.

Just two years ago going to the library rated right up there with getting your wisdom teeth pulled (impacted ones). The old library was about as inviting as a nightmare with its drab walls, humid air, and ugly pipes (ugly, noisy pipes).

Even if you did muster the courage to study in the old care, you found yourself cast out at the ridiculous hour of ten o'clock (they lavishly allowed you eleven during exams).

The new library is a dream with its air-conditioned en-

vironment and colorful decorating. The low bookcases on the first two floors give the rooms a spacious, inviting feeling.

The library stays open until a rather reasonable mid-night during the week. If you want a place in the basement you have to get there early because it's so popular.

The library also hosts other goodies like typewriters, computers, and foreign language labs. These services used to be spread all across campus.

Hats off to Tom Gaughan and company for all their work. Library services at HPC has been changed from a bad joke to a class act. I still think the third floor should be a roller-rink and bar — drink-a-rink — but we can't have everything.

Dear High Point College Community,

We, the MU XI Chapter of Alpha Phi Omega Fraternity, would like to thank you for your participation in our October 2nd blood drive. Our goal for this drive was 140 pints of blood. A new record of 180 pints was obtained at this drive. We would like to thank everybody who gave blood and for your support in this drive. Thank you again for your support and concern about the Red Cross blood program.

Sincerely,  
MU XI Chapter  
Alpha Phi Omega Fraternity

The following table shows the results of the regression analysis for the dependent variable "Number of children in the household" (N = 1,000). The independent variables are "Age of the head of household" and "Gender of the head of household". The table includes the coefficient, standard error, t-statistic, and p-value for each variable.

Variable	Coefficient	Standard Error	t-statistic	p-value
Age of the head of household	0.001	0.001	1.2	0.23
Gender of the head of household	-0.05	0.02	-2.5	0.01

# Firefall to Play at HPC

The High Point College Student Union is proud to announce that Atlantic Records supergroup "Firefall" will perform at High Point College on November 8th.

Firefall has been one of American music's most musically and commercially successful soft-rock bands over the last decade with four gold singles and two platinum albums. Their passion filled concert show is guaranteed to include har-

monious versions of all their hits like "Just Remember I Love You," "You Are The Woman," and "Strange Way."

The six-man band from Boulder and Miami will appear at the 1000 seat Memorial Auditorium at the Campus of High Point College.

Tickets for all High Point College full-time students, day students and faculty will be free of charge. Full-time students can pick up

their free tickets at meals starting Tues., Oct. 23 - Fri., Oct. 26. Day students and faculty can pick up their free ticket at the Office of Student Life before Fri., Oct. 26.

Concert Chairman Bob Rossi says the booking of "Firefall" was a direct result of the student union board's trip to the National Association of Campus Activities (NACA) national convention in Nashville last spring where "Firefall" was one of

the mainstage showcases.

Tickets to the public will also be available for \$6.50. Ticket outlets are Marty's Records at Westchester Mall, Gerry's Records in High Point Mall, Peaches in Greensboro, Record Bar at Four Seasons Mall in Greensboro, and the High Point College Box Office. Box Office tickets will be sold the night of the show only if any tickets remain.

Opening the show will be Greensboro's own Kier. Kier

is one of the country's most popular coffeehouse artists who has performed with Pablo Cruise, Poco and Nicolette Larson. Kier has recently released his debut album entitled "Consider Me."

Rossi describes a Firefall show as being full of "masterful vocals, tight playing and superb songwriting with enough fire and muscle to bring the house to its feet."

## Haun named Director

SCOTT HEINECKE  
Staff Writer

High Point College President Dr. Charles Lucht and Dr. Robert Hughes, President American Humanities, Inc. of Kansas City Missouri, have announced the appointment of Mr. Patrick Haun as the Executive Director of American Humanities at High Point College.

Haun comes to High Point from Clarksburg, West Virginia where he was General Manager of his family's home improvement company. Haun graduated from Salem College in 1971, where he was the student President of American Humanities. He later returned to be Director of Alumni Relations and Director of Admissions at his Alma mater. He has also worked for the Huntington, West

Patrick Haun

Virginia Boy Scouts. "Pat's rich background of experience as a student in American Humanities and later as a college staff person closely related to a local AH program is an invaluable asset to him and the students he will be serving," commented Earnest Price, Jr. Director of Human Relations Studies at High Point College.

The SU Has Booked Firefall For Fall Concert

## Honors programs continue in college

Campus Digest News Service

Gifted students looking for a challenge in college can combine the benefits of private liberal arts colleges with the less-expensive public institutions by participating in honors programs at state colleges and universities.

Small classes, the institution's best instructors and interaction with talented peers draw students to these special programs, according to the October issue of *The Forum for Liberal Education*, a publication of the Association of American Colleges. The article describes programs at several state colleges and universities and includes reports of the efforts of several private colleges which are challenging their best students,

"Economic factors play a particularly interesting role in the (college) choices made by gifted students," writes C. Grey Austin, Ohio State University honors director, in an essay. Austin says 52 percent of the 4,930 1981 National Merit Scholars enrolled in institutions which did not fall into the "most prestigious" or "highly competitive" categories in *Baron's Guide*.

A recent study at an open-admission state university revealed that 71.8 percent of the more able freshmen considered cost a decisive factor in their college decisions, while only 20.9 percent of all students considered it important. Able students, assured of access to high quality programs in both public and private institutions, choose primarily on the basis of costs, Austin says.

This isn't to say that talented students will suffer academic deprivation, Austin

stresses. Instead, many students are enrolling in the honors programs now found at more than 52 percent of the country's colleges and universities. Says Austin: "After graduation, many of them will move on to prestigious graduate and professional schools to discover that their abilities in speaking, writing and critical thinking are as sharply focused as those of their fellow students who have an Ivy League education."

Admission to honors programs is usually based on high school grades, college entrance examination scores and letters of recommendation. Sensitive to past charges that honors programs are elitist, directors may also consider personal interviews, essays and extracurricular activities in their decisions. Directors have also discovered that students' desire to participate in an

# Firefall to Play at HPC

The Firefall band, consisting of five members, will be performing at the Homecoming event. The band is led by their director, who has been instrumental in their growth and success. They have been practicing hard to ensure a flawless performance at the upcoming event.

The band members are excited about the opportunity to perform at the Homecoming event. They have been working on their repertoire and are confident they will provide a memorable performance for the audience.

The event is expected to draw a large crowd, and the band is looking forward to sharing their music with the community. They will be performing a variety of songs, including popular hits and original compositions.

The band's performance is one of the highlights of the Homecoming event. They are grateful for the support of their fans and the school administration. The event is a great way to celebrate the school's achievements and the talents of its students.

The band is proud to represent the school and the community. They are committed to excellence in their craft and look forward to continuing to grow and improve. The Homecoming event is a special occasion, and they are honored to be part of it.

## Haun named Director

Mr. Haun has been named the new director of the Homecoming event. He has a wealth of experience in event planning and management, and he is excited to take on this new role. He will be working closely with the school administration and the Homecoming committee to ensure a successful event.

Mr. Haun

Mr. Haun is a dedicated professional with a strong commitment to excellence. He has a proven track record of successfully managing large-scale events and is confident he will bring the same level of expertise to the Homecoming event. He is looking forward to working with the team and ensuring a memorable experience for everyone involved.

The Homecoming event is a special occasion for the school and the community. It is a time to celebrate the achievements of the students and the staff, and to enjoy the talents of the Firefall band. We are excited to have Mr. Haun as the new director and to see the event reach new heights of success.

The Homecoming event is a great way to bring the school and the community together. It is a time to enjoy the talents of the students and the staff, and to celebrate the achievements of the school. We are excited to have Mr. Haun as the new director and to see the event reach new heights of success.

# Professor Fails to Show

BY TONY B. BAITY  
Staff Writer

A mysterious psychology professor slated to teach at HPC this fall is the subject of many unanswered questions and controversies among members of the HPC administration.

The professor's identity is the first part of a somewhat hush-hush situation.

The professor's identity can only be theorized since neither Charles Lucht, president of the college, nor W. H. Bearce, dean of the college, would willingly name the professor. Bearce said, "I can't give out the professor's name. That would violate some professional ethic." Lucht stated his reason for concealing the professor's identity as, "I can see no reason for the identity of a professor who fails up to show up to be known."

However, the July 18

issue of the *Panther Prowl* states that "Dr. Lawrence Weinstein is the new Associate Professor of Psychology. Dr. Weinstein has lived and traveled extensively overseas, including nearly five years teaching in Australia." When asked if Weinstein was the professor in question, Bearce said, "I can't release that type of information." Bearce did confirm that the professor who did not show up has lived, traveled, and taught overseas, including in Australia. Ironically, the information contained in the July 18 issue of the *Panther Prowl* was released through Dean Bearce's office.

The HPC Student Handbook lists Dr. Weinstein as a professor of Psychology. It also gives an office phone number and location in Roberts Hall. When asked if Weinstein was the professor who failed to show up Lucht replied, "I won't deny that

Dr. Weinstein was the professor who failed to show up."

The second part of the situation is the question of whether or not the HPC administration should have ever expected the professor to report for work. According to Bearce, "We had a verbal commitment from him and we mailed him a contract in early July. We had no reason not to expect him to show up for work on Wednesday, August 22. This was the date given for all new faculty members to attend Orientation. However, when he didn't show up on August 23 we began to wonder if he was going to show up at all. We made a decision on Friday morning (August 24) to consider the position open and we began looking for someone to fill the position."

Other sources, who wish to remain anonymous, claim that the HPC Administra-

tion had reason to doubt that the professor would show up as early as August 1. The source stated that a professor was given a deadline of August 1 by which time his contract was to be signed and returned to the college. According to the HPC Faculty Handbook a contract "must be signed and the original returned to the President of the College on or before (space for date). If the contract is not returned by this date, the position is to be considered open and the College is free to consider other applicants." According to the source, the Administration did nothing to fill the position when the contractual deadline passed.

Lucht couldn't verify the Aug. 1 deadline because his copy of contractual information had been destroyed. Lucht did say, "a person is usually given three to four weeks time to return the contract." When Bearce was

In response to this, Bearce said, "We thought it (the contract) got caught up in the mail. I didn't worry about it until I returned from vacation on August 20 and found out that the contract had not yet been returned." Bearce also said, "We called him in Canada and his relatives told us he was on his way to Carolina. We assumed that meant High Point, North Carolina." asked to verify the return date for the professor's contract he refused. He did say, however, "I think it was sometime around the 15th of August."

The source claims that the Administration never should have waited until August 24 to begin looking for a new professor, because not only did the contractual deadline pass, but the professor never returned his contract.

## Campus Safety Starts

### Escort Service

BY SCOTT HEINECKE  
Staff Writer

"We have two suspects in the recent rape on campus and will be circulating pictures of the suspects to the eyewitnesses with in a couple of days with the hope of getting a positive identification and being able to report an arrest within a week," commented Ed Cannady, Director of Safety.

The High Point College Escort Service was started on September 21st. It has been operating nightly since and is averaging 80 to 85 escorts a night. The directors of the service are Terry Aiken and Coy Trawick. "It has been a great addition to the campus and we only hope that it will continue," said Cannady.

A new addition to Women, Wesley, North and Yadin

is an alarm system to protect those students against prowlers. The system is turned on after visitation hours each evening. This system will allow college security officers to respond within a minute to a break-in within that dorm.

The lighting project started on campus last spring is 80% complete and all outdoor lights on campus are operating. "We feel the lighting project has decreased the number of car break-ins," commented Cannady. There were twelve break-ins reported at this time last year, while there have been none reported to date.

"We cannot thank the students enough for their help in keeping the campus a safe and secure place," said Cannady.

## Sistrunk Strives for Excellence

BY AMY HORA  
Staff Writer

Changes in the disciplinary code of High Point College, the "responsible use of alcohol in rush," and improvement of the current issues Dr. Al Sistrunk plans to address as the new dean of students.

"A disciplinary code of conduct is an educational tool," according to Dr. Sistrunk. He said he doesn't care for the current disciplinary code and plans to institute a new code of student discipline that will identify what the college expects in a more equitable manner."

In addition to a more manageable disciplinary system, Dr. Sistrunk will be "encouraging the responsible use of alcohol in rush." A self-described "light" social drinker, Dr. Sistrunk said that the "emphasis of rush is being placed on alcohol," when, in fact, "rush is the event at which fraternities should present their best image because rush is the lifeblood of the fraternity system."

Dr. Sistrunk's views on dry rush will be printed in a new booklet which will be

distributed by the rush faculty of the National Sigma Chi Leadership Training workshop, of which Dr. Sistrunk is a member. The booklet will be published in mid 1985.

Dr. Sistrunk is also concerned about security for all students. "Inconsistent policies need to be improved," Dr. Sistrunk said, and "we will do what is in the best interest for all students."

When asked about future goals for student life at High Point, Dr. Sistrunk replied with one word, "Excellence." In general, Dr. Sistrunk will be evaluating all aspects of student life, after getting a flavor for the status quo, will build from there, he said.

Dr. Sistrunk is a graduate of the University of Florida where he also earned his M.A. and his Ph.D. in the Administration of Higher Education.

Dr. Sistrunk is coming from Auburn University where he was Dean of Students for the past six years. He is a member of the United Methodist Church. His wife, Cathy, a speech pathologist, and their three children, Rob 13, Betsy 11, and Andy 7, hope to be joining Dr. Sistrunk here in High Point by mid-October.

## BSU Meets

BY CLAY FAULK  
Staff Writer

This year at High Point College the Baptist Student Union has been reformed under a new leader. Frank Smith has been put in charge and will have help from David Clemmens. High Point BSU is also being helped by Davidson County Community College and its leader, Gaylen Huff. New New membership is needed and the group is open to everyone.

The Honorable Robert Wells, Mayor of the City of High Point, along with High Point College Professor, Dr. Carl M. Wheelless, will be guest speakers at a Political Science program on Career Opportunities in this field. This event is co-sponsored by the Career Development Center, The Department of History and Political Science, and the Society for Historical and Political Awareness.

Date: Oct. 4th. Time: 11:30 - 1:00. Place: Faculty Dining Room. All students (any majors or undecided) are urged to attend, particularly those interested in finding out about government careers.

strength, until later in the training."

Judo, karate, and jiu-jitsu are taught at Burkett's school, he explained judo as using throws and grappling techniques, karate involves kicks and punches, and jiu-jitsu involves joint locks, chokes and strangles.

Burkett has his own system of belts in the three arts, ranging from white to black. In-between are yellow (after twenty-seven hours of classes), green, and brown (one requirement is being able to sit in a certain position for fifteen minutes). He promoted four students to black belt this past December. These advanced students studied "za-zen", which is seated meditation. "I've seen all night sessions where someone would sit for twenty minutes, walk for five, and come back."

Burkett also discussed the importance of good nutrition and fitness. According to him, "The body is like a piece of machinery; if not treated properly, it will break down. Little aches and pains mean something and should be checked out. Exercise is healthy; we try to sell on health benefits. We introduce our students to good foods: eat more fish, stay away from red meat (too much fat and cholesterol). We're not vegetarians, though. Also, avoid sugar; especially in soft drinks. And goat's milk is better to drink than cow's milk

because it contains less fat—I mean, look at the size of a calf, and how it grows. Cow's milk is meant to sustain that size animal.

"The biggest things to work on in the future are a healthy diet and vigorous exercise. Perspiration is a necessary evil." Also, "our society is too hurried; people let themselves get out of shape. And so women start doing more than men, as in career and household, they will start having more health problems."

Currently, Burkett's school is having a Child Awareness Program for children ages four to twelve. The program is sponsored by McDonald's and is free to the kids. The course is designed to "enlighten, not frighten" children and make them aware of possible danger, especially from strangers. Burkett is extremely interested in children. If any of his students are doing poorly in school, they must drop out of his classes until they improve their grades.

"We're trying to motivate them; we're really trying to make better people. We tell them to study hard, work hard, and they'll become skillful. Like I said before, martial arts enhance everything you do."

(Burkett's School of Self-Defense is currently listed under West Side Judo and Jiu-jitsu.)

## SGA Initiates Self-defense

BY TOM BUTLER

Staff Writer

Because of recent events, the Student Government Association has sensed a need for the student body to be aware of self-defense tactics.

At their last meeting on September 19, the SGA decided to allocate \$270 for a self-defense course. The course will run one hour: a week for nine weeks. Two class periods have already been held.

Robert Burkett is the instructor of the program. Burkett has a master degree in Okinawa Karate-Do and a master degree in Goshin

Jiu-Jitsu Self Defense. He owns a self-defense academy here in High Point. He also has been the director of self-defense programs at three other colleges. He has trained a female National Champion in Judo and a 1976-83 state champion.

In other security news, Mr. Ed Cannady, director of security, reported that the city has promised to finish the lighting project on campus. He also said that there has been no reported room thefts since the three earlier this year.

Also, during the meeting, Tanya Faizi was sworn in as the Day Student represen-

tative, Mike Siegfried became the president of Inter-Fraternity Council as Chip Fleming stepped down to vice-president.

Dean of Students Al Sistrunk reported on his intent to revise part of the judicial code. He also stated that he is going to crack down on the visitation policy and take disciplinary action in serious offenses.

In other news, the senior class is still searching for a graduation speaker. Also, 27 new refrigerators were ordered and due in last week. Any students who were on the waiting list and have not received a notice should contact Rav Hotz.

Continued from page 4

Baptists. The group meets in the Campus Center in meeting room #2 on Thursday at 11:00 a.m.

Members of the group visited Ridgecrest retreat this past weekend for the statewide conferences. The theme of the week was "All In The Family", focusing on the Christian goals of the family. It was a big turnout for many colleges with Gardner-Webb arriving with 97 BSU members.

## Hot 10 Hits

BY TERRY AIKEN

Special to the HI-PO

The WWIH "HOT 10 HITS" is comprised from the most requested songs each week. This week's hot 10 is as follows:

1. "Drive" Cars
2. "Leave a Tender Moment Alone" Billy Joel
3. "When Doves Cry" Prince

4. "Stuck on You" Lionel Richie
5. "This Is It" Huey Lewis & The News
6. "17" Rick James
7. "Glamorous Life" Sheila F.
8. "Dancing in the Dark" Bruce Springsteen
9. "She Bop" Cyndi Lauper
10. "I Owe It to Myself" Prime Time

## Roof Collapses

BY OWEN SNYDER

Staff Writer

Hayworth Hall, "After the rain on Saturday, the leaking under repair roof started on Sunday morning," the maintenance crew said. They felt that they had everything under control and there were "no major damages."

The heavy rain on Saturday seeped through the roof under repair in Hayworth Hall, causing minor damages and resulting in some classes being cancelled Monday.

"All I know is that there is a whole heck of a lot of water in those Bio labs," said Dr. Ward.

honor program may be more important than past grades as an indicator of potential.

Honors courses are not necessarily more difficult than standard college offerings but rather are organized in a way that appeals to the talented student looking for a challenge. Good honors instructors, says John Portz, former president of the National Collegiate Honors Council, suppress their desire to lecture and instead create a dialogue with their students. Thus, honors courses are often small group seminars, individual tutorials or independent study projects.

The honors programs are as varied as the institutions which offer them. For example, students in the University of Utah honors program begin with a three- or five-course sequence which traces Western intellectual traditions from antiquity to modern times. Honors students majoring in nonscience subjects complete a three-course series on calculus.

To earn an honors degree, students must finish eight honors courses and a senior project in their major discipline. Honors courses include an examination of the Vietnam War from both Asian and Southeast

Asian perspectives and a preprofessional course in medicine, which includes actual clinical experience.

Undergraduates in the University of Maryland at College Park honors program may enroll in one of the many interdisciplinary seminars offered each semester. For example, in a course called Mysteries, students study sleuths and sleuthing in the fields of science, history, anthropology, psychology and art. They also examine cultural attitudes toward mystery as reflected in various cultures' religion, art and philosophy.

### PUBLIC SERVICE ANNOUNCEMENT

STARTING DATE:

September 20, 1984

LAST DATE:

October 8, 1984

Auditions for Scrooge, the musical version of Charles Dickens' A Christmas Carol will be held for children ages 6-15 on Saturday, October 6, from 1:00 - 5:30 p.m. The auditions will be held in the

Choral Room of the Memorial Auditorium on the High Point College campus. Children should have one song prepared. They will also be asked to read from the script and do some movement.

Auditions for High Point College students and off-campus adults will be held Sunday, October 7, and Monday, October 8, also in the Choral Room of

Memorial Auditorium. Adults should have two songs prepared, one up-tempo and one slow or ballad.

All interested actors, singers, and dancers from the Triad area are invited to audition.

For more information contact High Point College Theatre at 885-51501, extension 209.

## HPC Soccer Gains

### National Attention

BY JERRY MIN  
SPORTS EDITOR

With goals by Gary Hewitt and Kevin Noon and fine play by the defense, the HPC soccer team battled to a 2-2 tie against the Elon Fightin' Christians, Saturday, September 29th, further enhancing their national NAIA ranking.

In other action over the past two weeks HPC defeated UNC-Ashville 5-1, Wingate 8-0, Belmont Abbey 5-0, and Pembroke 7-0 to push their record to 7 wins, 2 losses, 1 tie.

In a game marked by rough play and poor refereeing High Point scored first, 23:07 into the first half. Senior R.C. Hill was fouled just outside of the penalty box. Defender Phil Valente sent the free kick in towards the goal and Hewitt leaped over everyone to knock it in.

Seven minutes later a confusion in the defense resulted in an Elon penalty kick. The shooter faced keeper Sal Schiavone one on one. Schiavone made the save but the referee called him for an infraction of the rules. Elon was permitted to retake the kick, and scored.

As the second half opened, the rough play that had been evident in the first half continued. A number of yellow cards were handed out by the referee, later in the half, sophomore Kevin Noon was dribbling down the left side of the field. He sent a beautiful cross towards the goal. The Elon defenders all misjudged the ball as did the keeper. Everyone watched as the ball sailed into the upper right corner for a 2-1 High Point lead.

High Point kept the pressure on but the speedy Elon forwards counterattacked often. Schiavone has all over the penalty box bringing in loose balls.

This tactic failed once however. An Elon forward pulled in a loose ball and moved in towards the goal. Schiavone came about 18 yards out, but the forward beat him, tying the score at 2-2. The score remained tied after two ten-minute overtime periods for the 2-2 final.

September 20th HPC traveled to UNC-Ashville. The Panthers recorded a 5-1 victory, getting goals from five different players.

Freshmen Doug Brandon and Gary Hewitt, both from Alexandria, Virginia, contributed goals, as did Lester Davis, Phil Valente, and R. C. Hill. Hill's goal came on a breakaway.

High Point continued its dominance of their competition by defeating Wingate 8-0. Freshman Doug Brandon, inserted into the lineup as a forward due to a tow injury to Pete Cockburn, scored two more goals, as did Lester Davis. Bobby Rapp, Glen Jones, Stu Shilling, and Gary Hewitt added the other scores.

On September 22nd HPC defeated Belmont Abbey 5-0. Fine defensive play and balanced scoring were the highlights of this match. The defensive corps of seniors Angles Stewart and Bobby Rapp, junior Phil Valente and freshman Danny Hogue, from DeLand, Florida, along with keeper Schiavone have all played well, allowing only three goals in their last five games. The scorers in the Belmont Abbey game were Gary Hewitt, who received a beautiful cross from Shilling, sophomore transfer student Joe Crupi, Kevin Noon, Bobby Rapp, and Glen Jones.

HPC crushed Pembroke State 7-0, September 25th. Against Brandon scored two goals as did Davis and Hewitt. High Point's upcoming games include a tournament in Danville, Virginia against Virginia Commonwealth, Averett, and long time nemesis Atlantic Christian.

## Volleyball Team Still Inconsistent

BY JANET MALLET  
SPORTS WRITER

"So far, they haven't shown me that they've got the guts to win." That's what volleyball's Coach Nancy Little feels about this year's team. Last weekend at the Mars Hill Tournament the Panthers lost to Liberty Baptist 15-9, 14-13, & 11-2. High Point did crush Winston-Salem, however, 15-1 & 15-7 on the 20th. "We blew 'em out," says Little, "I played everybody."

She feels that the matches that are to be grabbed just aren't being grabbed. "I'm not blaming the freshmen, it's everybody," she adds.

The standings thus far are as follows: In the District, High Point is 5-3; in the Conference they are 4-2; and overall they are 7-5. So far, Cynthia Ismael, a Junior, has had an excellent season, with Freshmen Ann Myers and Rhonda Smith showing great potential. This year's team is young, but they are working to build a strong and cohesive unit. There is work to be done and this team will do it.

The next game will be Oct. 4 at Greensboro. High Point will first battle Shaw, at 7:00 then go on to play Guilford.

Cynthia Ismael prepares for another spike.

Good net play leads the Panthers to victory.

High Point girls ready for the serve.

## Sports Trivia

1. What major league pitcher holds the record for the most shutouts?
2. What Hall of Fame quarterback for the Washington Redskins also played linebacker and punter for them?

### BY JERRY MIN

### SPORTS EDITOR

After opening the season with an 0-3 record against Division I competition, the High Point College field hockey team has run off a seven game winning streak in the last two weeks.

The string of victories began with a long awaited defeat of the Pfeiffer Falcons, 2-1. The highlight of the two week stretch was the Longwood Invitational Tournament. The Lady Panthers won this tourney with victories over Davidson College, 2-0, host Longwood, 1-0, and a 1-0 overtime defeat of Mount St. Mary's College of Maryland. The 3-0 record was enough for HPC to bring home the first place trophy.

## Wins 7

00000000000000000000

On September 27th High Point won a satisfying 3-1 game at Catawba. Lisa McKeown, Priscilla Trentham, and Carol Williams each contributed a goal. "HPC's defense played spectacularly, as they have throughout the seven game win streak," according to coach Kitty Steele. "Most notably has been Sharon Packen, although everyone has been playing very well and filling in where needed."

The seventh victory came on September 28th against Wake Forest University. HPC recorded a 2-0 victory as Carol Williams scored both. The first was a penalty stroke in the first half and the second came with less than one minute left in the game.

### BY DANNY BEALL

### SPORTS EDITOR

Ultimate Frisbee is back at High Point College once again. The first major sport of the intramural schedule is well under way with last years champs, Oxen, looking to take the title again. The single-elimination tournament will start on Monday, October 8. As of October 1 the standings are:

1. Oxen	6-1
2. Lambada Chi Alpha	4-1
3. Delta Sigma Phi	4-2
4. Pi Kappa Alpha	4-3
5. Pikes	3-3
6. The Oak	1-4
7. Lambada Chi Alpha "B"	0-7

The seedings for the playoff tournament will be based on each teams winning percentage for the year.

Another note concerning intramurals: there will be a men's soccer organizational meeting on Thursday, October 11, at 12:15 in the Study Lounge of the Campus Center. A team representative must submit a team roster. You must have a minimum of nine players and a maximum of twenty-two.

## HPC Baseball: "A Learning Experience"

### BY DANNY BEALL

### SPORTS EDITOR

The High Point College baseball team has had what Manager Jim Speight calls "a learning experience," as they continued play in the 1984 fall exhibition season. The Panthers have run into some tough Division I competition such as Appalachian State, Wake Forest, and the University of North Carolina.

On September 22, HPC traveled to Appalachian for a four-game stand with the Mountaineers. The Panthers dropped all four games, 8-4, 8-0, 12-4, and 10-6 despite strong outings by senior Jim Scott and sophomore David Barnes. Scott, a 6'4" righthander from Washington D.C., has an over-powering fastball. If

Scott can avoid control problems he will be a key factor in the team's success this spring. Righthander Barnes comes to HPC from Archdale, N.C. He has been one of the most consistent hurlers fro coach Speight and looks promising for the spring season.

Next the Panthers met the Deacons of Wake Forest, only to get the short end of a 4-2 decision.

High Point then went to Chapel Hill for a doubleheader with the Tar Heels of UNC. The Panthers hung tough in the opener, but fell short once again, 8-3. High Point's defense was shaky in the final game of the twin-bill as Carolina slugged its way to a 14-1 route.

"The purpose of the ex-

hibition season," says Coach Speight, "is to give everyone a chance to perform. We aren't going out there to win games, we only want to see what all our players can do." Speight did just that. The Panthers rotated pitchers and substituted in the field constantly.

The most impressive pitchers, along with Scott and Barnes, have been sophomore Tom Gamble and freshmen Anthony "Red" Morrison, Ernie Donaldson, and Bob Weinhold. Right fielder Carl Bradsher, pitcher/third baseman Barry Kellam, and catchers Brian Kemp and David Hooker have continued to supply the offensive punch for the Panthers this fall.

# Pure Prairie League Rocks HPC Tonight

Student Union Concert Chairman Bob Rossi and Advertising Manager Kevin West had to do some quick shuffling last week when the original headliners for the Fall Concert "Firefall" had to cancel due to illness. They responded by immediately booking Casablanca/Polygram artists Pure Prairie League.

The 5-members Cincinnati group will perform on Thursday, November 8 at 8:00 p.m. in the 1,000 seat HPC Memorial Auditorium. Tickets will be free for all HPC Students and Faculty if picked up before Friday, October 26.

Pure Prairie League's spacious harmonies and roots have now been nurtured through ten albums, two of which have sold over a million copies and another couple reaching the 500,000 mark. These prestigious figures and great crowd appeal have marked PPL as one of the country's top concert attractions.

The band's most prominent album "Bustin' Out" was released in the early 70's and sold over 2-million copies. It contained the band's most recognizable signature song - the contemporary mid-american an-

them, "Amie". Pure Prairie League has since released a double-live album called "Takin' the Stage" and a greatest hits collection.

In 1982 PPL produced their Top-10 Hit "Let Me Love You Tonight" and have recently released their latest album "Something In The Night" which contains their versatile blend of soft Rock, Pop, Country, Blues and Folk that has made Pure Prairie League an institution in contemporary music.

Bass Player and vocalist Mike Reilly says, "It's becoming increasingly obvious that we're an up-to-date, 80's rock-n-roll band and we always try to do more than anyone expects us to."

Expect a great concert from Pure Prairie League and special guest Kier on November 8, 1984. If you haven't picked up your Free ticket, you may purchase tickets for \$6.50 at Marty's-High Point Mall, Gerry's-Westchester Mall, Peaches-Greensboro, Record Bar-Four Seasons Mall or at the HPC Box Office, if any remain the night of show on-ly.

This Concert event is brought to you by the HPC STUDENT UNION and WMAG "Magic 99.5 FM."

## SGA Books Birnbach

BY TOM BUTLER  
Staff Writer

On October 24, 1984, the Student Government Association decided to allocate \$4350 to bring Lisa Birnbach, author of *The Official Preppy Handbook* and *Lisa Birnbach's College Book*, to the College. Birnbach will be here on March 14.

*Birnbach's College Book* has drawn many rave reviews and since then she has made guest appearances on the Today Show, David Letterman, and Music Television. She has also been featured in People, Rolling

Stone, and Time.

Over a period of thirty-six months Birnbach visited 270 different colleges and universities. In her book it ranges on topics from, "What college parties the most," to "What college gives you the best education." She gives you her observations on the trends in religion, sex, politics, and drugs.

In other news, the freshmen class officers were sworn in: Robin Sink - President, Rich Mullins - Vice President, Perry Conoley - Judiciary, Chloe Richardson, Billy Ray Coley, Chris

Johnson, and Matt Walsh - Legislators -- all took oaths to take their place on the SGA.

In student life, Dean of Students Al Sistrunk announced that the administration has hired an architect to start drawing up plans for a new dormitory that will replace McCulloch Hall. Sistrunk also stated that he is planning to have a battery packed lighting system placed in the dormitories and other buildings in case of emergencies. He also stated that security has

## Pure Prairie League Rocks HPC Tonight

The Pure Prairie League will perform at the High Point College Student Center tonight at 8 p.m. The band, which is from the Chicago area, will be performing a variety of rock and roll songs. The band is made up of five members, including a lead singer, a guitarist, a bassist, a drummer, and a keyboardist. They have been performing together for over five years and have released two albums. The band is currently on tour and will be performing at several other venues in the coming weeks. Tickets for the concert are available for purchase at the Student Center.

The Pure Prairie League is a five-piece rock band from the Chicago area. The band was formed in 1988 and has since released two albums, "Pure Prairie League" and "The Pure Prairie League". The band is currently on tour and will be performing at several venues in the coming weeks. The band's lead singer, Mike Rodden, is a former member of the band The J. Geils Band. The band's guitarist, Steve Nieve, is a former member of the band The J. Geils Band. The band's bassist, Mike Rodden, is a former member of the band The J. Geils Band. The band's drummer, Mike Rodden, is a former member of the band The J. Geils Band. The band's keyboardist, Mike Rodden, is a former member of the band The J. Geils Band.

## SGA Books Birnboch

The Student Government Association (SGA) has elected Birnboch as its president for the upcoming year. Birnboch, a senior majoring in business administration, was elected by a vote of 150 to 100. He will be working closely with the faculty and the administration to improve the student experience at High Point College. Birnboch has a long history of involvement in campus activities and has served as a member of the SGA for several years. He is excited to take on the role of president and to lead the SGA in its efforts to represent the students of High Point College.

Birnboch's first priority as president will be to improve communication between the SGA and the faculty and the administration. He plans to hold regular meetings with the faculty and the administration to discuss student concerns and to seek their input on campus issues. He also plans to increase the SGA's visibility on campus by organizing a variety of events and activities. Birnboch is committed to serving the students of High Point College and to making a positive impact on the campus community.

Birnboch's second priority will be to improve the student experience at High Point College. He plans to work with the faculty and the administration to improve the quality of the education and to provide students with more opportunities for extracurricular activities. He also plans to work with the administration to improve the campus environment and to make it a more welcoming and inclusive place for all students. Birnboch is committed to making a positive impact on the campus community and to improving the student experience at High Point College.

## TO THE ADMINISTRATION AND STAFF FOR THE READERS OF THE HI-PO

Dear Patrons:

It is probably come to your attention that this issue of the Hi-Po is a week late. Whereas, much of the blame may be my own, a great deal of it lies in the fact that we have been tremendously short of stories. This by no means says that nothing newsworthy is happening at good of HPC. The fact is there is plenty of happening; things the administration would rather us nor you know about. Such were the making of Watergate. I have been a long-time advocate of freedom of the press. I have an even stronger conviction for the students' right to know. It has become evident to me that, through the efforts of the administration, you are to be kept naive of circumstances that may directly affect you, the students. Case-in-point: Dr. Al Sistrunk, Dean of Students, told me personally that freedom of press and the students' right to know was something he felt strongly about. I was encouraged to come to him for support in all my endeavors.

He also encouraged me to notify him of any attempts by any member of the staff or administration to censor this student newspaper. Yet, in an attempt to find out more information about the fraternity system at HPC being put on probation, he refused to talk to one of the Hi-Po reporters. Perhaps he meant that I would have his backing only in the event of positive, "ask-no-questions" stories. His refusal to talk to us at this newspaper is in itself a means of censorship. It is also an infringement upon your right to know. It has been a long running practice of the administration to notify us of the good things they do to give them a good image. When there is a whiff of ill-fortune in the air, they run with their tails between their legs to their offices and seclude themselves. "The only good student body is an ignorant student body" perhaps? When they suppress us, they suppress you.

We at the Hi-Po are working for a better informed campus, despite the efforts of others to disrupt these efforts. We hope that we have the support of you, the student body. We're here for you and your right to know.

Michael Roberts  
Editor-in-Chief

Editor's Note: We at the Hi-Po would like to apologize for inconsiderately leaving Bill Sledge's name out of our editorial column in our last issue. He was the author of "Time Out."

## TRIBUTE TO RAWLEY

Rev. Jesse Jackson said, "Our time has come!" I'm not too sure it has come quite yet but be sure our time is fast approaching. My reference however is not about just minority Americans or poor Americans but instead it is in reference to people in general.

Unless some wholesale changes occur humanity may become extinct. It is already on the endangered list. Society's focus point is no longer moralistically based but instead materialistically based. Money, greed, and "number one" have replaced honesty, dignity, and compassion for their neighbor. The general attitude in today's society is "screw you before you screw me" and be as rude as possible while in the process. Members of today's society have a strong dislike for the few people who fail to buckle under and trade in their morals for social acceptance. I however, cheer those so-called rebels who fight for their rights and their morals. Shirley Rawley deserves a very loud cheer. She not only taught students the history of socially accepted morals and human rights (aka World Lit.) but she also taught students to think for themselves and to form their own opinions. Ms. Rawley believed in her morals so strongly that rather than throw them away, she resigned her position as Chairperson of the English Department. The details as to the reason she resigned are unimportant. The principle upon which she based her resignation is all that needs to be known. Ms. Rawley, unfortunately, was considered an undesirable within the HPC framework and that is a shame. She was called a rebel and accused of manipulating her students.

If making them form their own morals is manipulating, then she manipulated her students. If teaching students to think for themselves is manipulating, then she manipulated her students. But most importantly if teaching students to have compassion for other people is manipulating, then Shirley Rawley manipulated her students.

I was lucky enough, as a student, to have the opportunity to study under Shirley Rawley's direction. As a person, I was lucky enough to become friends with her. The saddest part of the situation is that future HPC students may never

teach or to experience friendship. Shirley Rawley cared about her students thus she was dubbed a rebel and an undesirable. In today's society she is unfortunately the "Last of an Ancient Breed." For what ever it is worth to anyone - Mark it paid.

Tony B. Baity

What's all this I'm hearing about nicknames? We must be experiencing some pretty serious name-calling for Dean Sistrunk to bring it to the attention of SGA. It seems that the brothers of Delta Sigma Phi are being called "Pigs." Now this is a

hefty insult. What have they done to deserve such treatment? Is it that a few of their members are a tad bit chubby? Or is it that their table manners sometimes resemble that of feeding swine? Does this limited activity warrant the nickname of "Pigs"? Or are the brothers of Delta Sigma Phi guilty of something really serious like tracking mud into Millis Hall? We need to straighten this nickname activity out. Calling the brotherhood, "Pigs" is a real dirty insult. How would you like...uh...what?

Not "pigs"... "sigs"!!!  
"Sigs."!! Oh well...never mind.

It's a little-known fact that the movie *Boyz n the City* was originally titled *Boyz n the Hood*. The title change was made by the studio, and it was a wise move. The original title was too explicit, and it was likely to have caused the film to be banned in some areas. The new title, *Boyz n the City*, was more subtle and allowed the film to be shown in more theaters. The film is a powerful story of life in the inner city, and it's a shame that the original title was ever used. The title change was a necessary one, and it's a good example of how a studio can make a smart decision to avoid controversy.

# Says Ted...

BY TED CORYELL  
COLUMNIST

Have you tried getting a parking space for Belk dorm lately? You'd have a better chance of finding a mountain in southern Florida.

For one reason or another, empty parking spots for Belk dorm have become an endangered species. It's been months since I last saw one. Belk residents, being resourceful college students, have taken to all kinds of innovative methods to park their vehicles.

The most favorite of the techniques for Belk parking

is the "invent-a-space." This, as the name applies, is parking your auto in an area that was not designed for that purpose (this does not include the dreaded no parking/resident staff areas).

Popular invent-a-space spots include: grass areas behind Belk, spots in the back lot not marked for parking, and the gravel/dirt areas around the maintenance building. Most of these newly developed spots test the drivers, or more appropriately "parker's" skill and creativity.

Once these areas are filled the parker has two choices:

park at Cooke Hall — and if the parker is female and it's night that decision is not a wise one — or park illegally and risk getting a ticket.

Many Belk residents say that an additional parking lot between Belk and the women's complex would alleviate the problem. Some say a reorganization of the engineering nightmare behind Belk — called a parking lot — would suffice.

But since change isn't soon to come, this year I'm asking Santa Claus for a jeep.

## Four Receive Scholarship

Four High Point College students have been named recipients of Bishop's Scholarships for 1984-85.

The Bishop's Scholarship are a joint venture between High Point College and the Council for Higher Education at the WNC Conference, according to college chaplain Ben W. Curry. The four winners were selected from more than twenty candidates nominated by ministers in the WNC Conference.

The four recipients are: Denise Aldridge, a freshman from Kannapolis, who is majoring in home furnishings marketing; Denise, who was nominated by the Reverend Stephen D. Hanes, pastor of Memorial UMC in Kannapolis, is the daughter of Mr. and Mrs. Edward Aldridge.

Leslie Culp, a freshman from Richfield, who is majoring in English; Leslie is the daughter of Mr. and Mrs. James M. Culp. Her

pastor is Dr. James C. Howell of Wesley Chapel UMC in Misenheim.

Danny Leonard, a sophomore from Lexington, who is majoring in human relations. His parents are Mrs. and Mrs. Donald Leonard. Rev. Derry Barnhardt of Trinity UMC is Danny's pastor.

Blake Mauney, a freshman from Clemmons, who is majoring in theater. Blake, who is the son of Mr. and Mrs. Jimmy Mauney, was nominated by his pastor Rev. Mark Wimmer of Pine Grove UMC in Winston-Salem.

Each recipient will continue to receive the scholarship each year if he or she maintains a 3.0 grade point average on a 4.0 scale, Curry said.

"We are proud of these four recipients and believe they demonstrate the excellence of our continuing church-college partnership," Curry stated.

## Lisa Birnbach Coming To HPC

"This is not Muffy goes to college," says Lisa Birnbach of her latest project, **LISA BIRNBACH'S COLLEGE BOOK**. The result of a two-and-a-half year, 186 campus collegiate odyssey, this encyclopedic guide to American colleges and college life will be published by Ballantine Books on September 24, 1984 (\$9.95). The idea to embark on this "opinionated journey" came to Lisa when she was promoting the phenomenally successful **Official Preppy Handbook**. "I didn't know of anyone who has as much exposure to as many students and to whom they might be as candid," she says. "I had the ear and I had the access."

Lisa took her ear, her access and the caustic wit for which she has become famous on the road to colleges in all fifty states. "Hawaii and Alaska have accredited universities too, by gosh!" She spoke with faculty, administration and students and she "ate dorm and cafeteria food" every single day. "Each of the schools she visited required a different research posture and Lisa slipped easily between roles as removed anthropologist, visiting dignitary and undercover spy. In the course of her travels he was bound by only one self-imposed rule. "I didn't date students," she says. "I have my dignity."

"Students today can be divided into two categories," reports Lisa. "There are those who disdain the sixties and everything that came before them. These are generally the pre-professionals who regard college as a four year

placement program, then there are those who are nostalgic for the sixties and regret having missed all that excitement. These are the humanities/liberal arts types who don't necessarily know what they'll do when they graduate."

The prevailing rhetoric campus today is considerably more conservative than it was ten years ago, or even six years ago when Lisa graduated from Brown University (Class of '78). "Most kids today like Mommy and Daddy and consider them role models," she maintains. They don't do as many drugs, they don't always vote democratic and "they don't know who the hell Arlo Guthrie is." Marriage has made a big comeback and student housing for couples is filled to capacity in most parts of the country. Drinking is more prevalent than ever. Drinking games like "Hi Bob" and "Chugboat"—which require a group of students, a couple of six-packs and reruns of "The Bob Newhart Show" and "The Love Boat" respectively—have become national collegiate pastimes. "It's a way of socializing and institutionalizing drinking," explains Lisa who has participated in a number of these games. Her favorite is "Hi Bob." (To play, pass around a glass of beer while watching "The Bob Newhart Show." Whenever someone on the show says "Bob" the person holding the glass takes a sip. If you're holding the beer when someone says "Hi Bob," you have to drain the glass.)

Regional differences are clearly felt on campuses. "College is more entrenched

in the Northeastern sensibility," Lisa comments. "Elsewhere in the country, the students in college today might be the first in their family to get a college education. That makes a profound difference." In the South, sex roles are more clearly pronounced than in other part of the country. "If it's got a sweater and pearls, she says, implying that there are places where this does not necessarily hold true. Campuses on the West Coast boast a preponderance of "effortlessly cute, underdressed students." And surprisingly, "Bohemia does still live," according to Lisa—in small liberal arts enclaves in the Northeast and Northwest—though many have been forced to close for financial reasons.

For all that has changed on college campuses, there is a great deal that has remained the same. Freshmen are still scared of going to the cafeteria alone, a common form of what Lisa has dubbed "F.A.S."—Freshman Adjustment Syndrome. And dorm residents still worry about being properly attired for fire drills—"the collegiate equivalent of the swimsuit competition." Recalling her experiences on campus, Lisa comments, "There were times when I felt very old, times when I felt very young, times when I wished I was back in school and times I thanked God I didn't have to go back."

"This is the kind of guide I wish I had had when I was applying to college," says Lisa of her book, which in-

# Hot (?) Rod Stewart

BY BRENT HOLSHOUSER  
ENTERTAINMENT ED.

Rod Stewart, one of the last of the true British rockers from the 60's and 70's, brought his trademark raspy voice, Woody Woodpecker hairstyle and fancy footwork to the Greensboro Coliseum on October 2 for a show which seemed to delight an estimated crowd of over 10,000 but at the same time raised some doubts about how much longer Stewart can go on hopping about the stage at the juvenile age of 39.

After keeping the audience waiting 30 minutes past the original starting time, Stewart finally opened the show with "She Won't Dance With Me" followed by a pulsating version of "Hot Legs", a song off the 1977 LP "Foot Loose and Fancy Free." Amidst the clear sound and colorful array of flashing lights, it ap-

peared Rod the Mod was ready to lift the roof off the coliseum. Unfortunately, the explosion never occurred.

For beginners, Rod took four breaks. During these time-outs, members of his band took turns entertaining the crowd with individual instrument solos, and on one occasion they did a robust rendition of Junior Walker's classic R and B hit "Shotgun." Good job lads, but I paid \$13.50 to see Rod, or at least that's what I thought my ticket said.

At other times, Stewart seemed slow and tired in his dancing and his voice cracked noticeably while singing "You're In My Heart." Despite these flaws, he still managed to display some of the slapstick sexuality that he's famous for by allowing the ladies to paw him over during "Baby Jane."

One highlight of the evening took place when Roddy

did a tribute to the late Otis Redding by singing the smash hit "Sittin' On The Dock Of The Bay." The horn section performed admirably and Stewart seemed to enjoy going back to his R and B roots.

As the show pushed onward, Stewart performed nearly all of his big hits, including "Passion", "Young Turks", and the current hits "Infatuation" and "Some Guys Have All The Luck." He even solicited some audience participation by kicking soccer balls into the crowd while he sang "Maggie May." Quite the showman, that Rod.

C'mon Rod, you've been doing your thing for a long time now. Put your boogie shoes aside and call it a day. You've made your mark on rock 'n roll, but if you continue to do mediocre concerts like the one in Greensboro, your mark may turn into an ink blot.

## Gaughn Discusses Library

HPC students have never had it so good. This academic year will be the first full year of operation for the Herman and Louise Smith Library. According to Tom Gaughn, Director of Library Services, "The old library was just terrible" (the atmosphere and amount of space). "Student employees used to die of loneliness. We already have ten to fifteen times the usage of the old library. I also want everyone to know that the library is more complete now; we added between 2,500 and 3,000 new books, and printers for the computers, as well as two new staff members. Lou Saunders began in June; she's in charge of circulation. Students like it better now because of her (innovative) systems. Judy Hitchcock began October tenth; she's our reference/public services librarian. If you need help with anything, she's the one to see."

"Also, the Special Collections Room is now furnished. It was the idea of the people who funded the library—it's to be like Duke or Davidson's. The atmosphere reminds one of a drawing room of a 19th century Englishman's estate. It was funded by Annie Mae Powell, in honor of her husband, Thomas Powell. It's open during the day for anyone who just wants to sit in a quiet, elegant atmosphere. There will eventually be some rare books, too." The room must be seen to be fully appreciated.

In one "library staff only" room, there's a new IBM M300 that links us to thousands of libraries from Europe to Australia. In the old Inter-library Loan System, if you wanted a book and we didn't have it, we'd write a letter to a library that might have it, and they might get it back to us later. It was terribly inefficient. With our new computer system, we can know where a book is within 24 hours. Eventually, we'll have (print-capability). This is the most important development since the Dewey Decimal System."

Also, "we have the New York Times microfilm since 1929; we'll eventually try to fill in back to 1869, but it could take up to \$20,000. "HPC had enough sense and money to insure growth-room for the next forty years; but by then, everything will probably be on computer chips and a whole library will be run from an office."

When the library opened last year, "we put out yellow legal pads for suggestions; students told us what they wanted and we've tried to accommodate them. Students responded as I'd hoped, and they can still suggest or complain. This is a service organization. During exams last year, people sat on the floors to study." (Never a problem in the old library.)

What's to be done with the old library? They are probably still taking suggestions. But Gaughn is pretty sure that "the College Alcohol Policy still precludes a 'Drink-a-Rink' on the top floor." But students like the idea...

## HPC Straw Ballot Reflects National Mood

BY DANNY BEALL  
Staff Writer

The Political Science Department of High Point College held a mock election on Wednesday, October 31. Those polled included a total of 485 students, faculty and staff; 46% of the college community.

The results of the mock election clearly reflected the statewide and national attitude in 1984. The incumbent Ronald Reagan (Rep.)

received 380 votes while challenger Walter Mondale (Dem.) received 105 votes in the race for the presidency.

In the biggest, and most costly, senate race of the year between incumbent Jesse Helms (Rep.) and former governor Jim Hunt (Dem.) the results were much closer. Among North Carolina students Helms squeaked by Hunt with a total of 126 votes to 122. Out-of-state students picked Helms by a 108-96 margin.

In the gubernatorial race, in-state students chose Jim Martin (Rep.) over Rufus Edmisten (Dem.), 155-88. Out-of-state students also elected Martin, 155-49.

James Pritchett, professor of Political Science at High Point College and coordinator of the straw ballot, has held the mock election since 1964. According to Mr. Pritchett the students and faculty at High Point have consistently chosen the eventual winner of the last

Continued from Pg. 1  
obtained a new two-way radio system that will help them with campus safety. The executive council reported that their meeting with other area SGA groups at University of North Carolina at Greensboro on October 5 went very well and was successful in obtaining ideas from each other. SGA will meet with other SGA groups again on November 30, at Guilford College.

six presidential elections.

"The massive support given to President Reagan for his election, as shown in the official balloting from Tuesday, reflects the choices of the High Point College community, who likewise gave an overwhelming amount of support to Reagan," said Mr. Pritchett of the latest election.

## HPC Professor Gains Notoriety

Dr. Richard R. Bennington, director of High Point College's home furnishings marketing program and a professor of business administration and economics at the college, has been selected for inclusion in "Who's Who in Marketing Among University Professors." Bennington is chosen as one of 500 nominees from among 11,940 educators teaching marketing in U.S. colleges and universities.

Bennington, who became the director of the furniture marketing program in 1984, has been a member of the High Point College faculty since 1974. He has also served on the faculties at UNC-Greensboro, the University of Georgia, and Averett College in Danville, Virginia.

A graduate of the University of Georgia, where he earned his doctor of education degree with a concentra-

tion in business, Bennington holds a master's degree in business administration from VPI and a bachelor's degree in economics and business from Emory and Henry College in Virginia. To prepare for his directorship of the home furnishings marketing program, Bennington took a leave of absence from the college in 1978 to serve a six-month internship at the national headquarters of Bassett Furniture Industries in Bassett, Virginia.

Bennington recently completed a textbook entitled "Essentials of Furniture Marketing," which contains chapters on such subjects as furniture design, marketing research, advertising, retailing, wholesaling, sales promotion and public relations, contact furniture, and international furniture marketing. The book is being published by Fairchild Books.

## HPC Participates In Job Fair

High Point College is one of area colleges and universities which will be co-sponsoring a North Carolina Career Consortium Job Fair November 7 and 8 on the Wake Forest University campus.

Guilford College, Greensboro College, Wake Forest University, Winston-Salem State University, Salem College, Davidson College, and Elon College are the other co-sponsors.

According to Joyce Wainer, High Point College's coordinator of career development, the two-day event has a dual purpose.

"The purpose of this event is two-fold," Wainer said. "First, we want to offer career information as well as company information to all students, from freshman through seniors. Second, we want to offer our seniors the opportunity to interview with particular companies that they have pre-selected. By combining our efforts, the participating colleges and universities are able to attract many 'Fortune 500' companies and other businesses that we would not individually attract to our campuses."

During the first day of the fair, students will be able to

obtain specific career information from company representatives and participate in various workshops. On the second day of the event, seniors who have previously sent resumes to specific companies will be interviewed by those firms.

Some of the firms participating in the Career Fair include: First Union Bank; Food Lion; IBM; Integon Corp.; Kroger Sav-On; Metropolitan Insurance Companies; NCNB; Northwestern Bank; Thalheimer Bros., Inc.; Wachovia Bank and Trust; WGHP-TV; WXII-TV; and World Book-Childcraft.

## High Point Mayor Speaks at HPC

BY CLAY FAULK  
Staff Writer

Mayor of High Point, Robert Wells, spoke at HPC last Thursday, October 4, 1984. He spoke about jobs within the city of High Point and how to obtain them. Dr. Carl M. Wheelless, Professor of History and Political

Science at HPC, gave an overview of careers in Political Science. Two members of the Society For Historical and Political Awareness, Holly Collin and Alesha Wright, spoke about their organization and internships. Mrs. Wainer also spoke about volunteer work in Political Science.

## Birnback

cludes not only 186 college profiles but essays on such relevant topics as Sex, Drugs and Religion; graphs, charts (The Roommate Desirability Chart) and abundant editorializing as well. "Will I need a car?"

Where will I be hanging out? Will I do my drinking in restaurants or bars? Which professors are popular? Which are unpopular?—that information is more important than the number of books in a university library."

## Student Life Committee Formed

BY AMY HORA  
Staff Writer

"Students at High Point College should know that they are represented as individuals and as groups on the Student Life committee," said Mr. Cope, chair of the committee.

Through five students the majority of the student body will be represented, reported Mr. Cope. Three of the students will represent the interests of all independent (non-Greek affiliated) students.

"The duties and responsibilities of the student life committee include all areas related to student welfare and programs to assure the improvement/maintenance of positive relationships between the faculty, administration and the student body," said Mr. Cope.

The first major task of the student life committee is the selection of Who's Who Among Students in American Universities and Colleges. The process of selection is presently undergoing.

Future programs will be held in hope of "informing and involving students through panel discussion, debates and discussion dealing with current topics such as rape prevention, birth control and diet information," Mr. Cope said. Mr. Cope urges "any student who has a complaint, criticism or suggestion to inform a member of the committee." The committee can do a lot more if they know the concerns and complaints of the students, he said.

Bill Frampton, as president of the Student Govern-

ment Association, will represent the SGA. Liza Gibbard will represent all commuter students and Jeff Insley, and independent and a resident counselor, will handle much of the independent concerns.

Through Tammy Riggs and Michael Siegfried the body of the Greek organizations will be represented. Miss Riggs, president of the Panhellenic Council, will represent and govern the activities of all sororities. Mr. Siegfried will represent all fraternities as president of the Inter-fraternity council.

The faculty members of the student life committee are: Mr. Cope (chair), Mr. Davidson, Mr. Faizi, Miss Jackson, Mr. Liberty, Dr. Page, Mr. Price, Mrs. Steele, and Dr. Wheelless. Ex-officio members are: Dr. Sistrunk and Mr. Curry.

## Astronomer at HPC

BY OWEN SNYDER  
Staff Writer

Learn about stars at High Point College. Not a Hollywood star but a North Star, Dr. Grey Bowman, of the Physical Science Dept., strongly urges all those interested in Astronomy to attend a series of lectures on Astronomy and many others given by Dr. Ray White, an

astronomer from the University of Arizona, Tucson.

Dr. White is here to bring people of High Point College, and any townspeople, up to date about various aspects of astronomy, also to make up for the fact that HPC has no astronomy department.

On Monday, the 6th of November at 10:00 a.m., Dr.

White will lecture on "Applied Physics and Astronomy, Dealing with Photography and the technical aspects of it."

Dr. White's other lectures will vary from "The Inca Ruins at Machu Picchu" to "Stellar Evolution," the evolution of stars.

## HPC Professor Gains Notoriety

## HPC Participates In Job Fair

Dr. Robert A. Hargrave, HPC Professor of Chemistry, has gained national notoriety for his work in the field of environmental chemistry. He was recently featured in a national television program, "The Science of the Environment," which aired on the National Geographic Channel. Dr. Hargrave's research focuses on the chemical processes that occur in the atmosphere and how they affect the environment. He has published numerous papers in the field and has been a member of several professional organizations, including the American Chemical Society and the Environmental Chemistry Society.

Dr. Hargrave's work has been recognized by the National Science Foundation, which has awarded him several grants for his research. He has also been a member of the National Academy of Sciences. Dr. Hargrave is currently a member of the HPC faculty and is responsible for teaching the HPC Chemistry 101 course. He is also a member of the HPC Student Council and is active in the HPC community.

The HPC Student Council is a group of students who are elected to represent the HPC community. They are responsible for organizing events, promoting the HPC, and providing feedback to the HPC administration. The HPC Student Council is currently composed of the following members: [List of members]

# Soccer Season Ends With Questionable Call

## JERRY MIN

Sports Editor

A controversial penalty call late in the game helped end HPC's soccer playoff hopes Thursday, Nov. 1 in Asheville, North Carolina.

With 2:32 left in the game versus UNC-Asheville a foul was called. The referee picked up the ball and walked to the spot, outside the penalty box, where he originally felt the foul was committed. Then, he changed his mind, turned around and placed the ball on the penalty spot. Much confusion and heated exchange of word followed between players, coaches, and referee, all to no avail. UNC-Asheville converted the shot to go up 1-0. They scored a meaningless goal with seconds left for the 2-0 final.

The last few weeks before the playoffs were up and down ones for HPC. Against conference rival Catawba, High Point played well but came away with a 1-1 tie on a goal by Doug Brandon.

In the toughest conference game of the season HPC fought back from 1-0 and 2-1 deficits only to lose to Atlantic Christian 5-2 in overtime.

Joe Crupi was red carded and forced to leave the game three minutes into the second half. The Panthers had to play the rest of the match with only 10 players. HPC tied the game 1-1 on a goal by Pete Cockburn and freshman Doug Brandon

tied it again 2-2 to send the game into overtime, where ACC scored three unanswered goals.

Against Guilford, High Point came out firing and after a scoreless first half goals by Gary Hewitt and Lester Davis sealed the 2-1 victory.

Coming off a 2-0 loss to Liberty Baptist, HPC open-

The Panthers came home after fall break and exploded for 12 goals against Mars Hill. Pete Cockburn scored 4 while Kevin Noon and Angela Stewart added two apiece and Gary Hewitt, Bobby Rapp, Randy Hechler, and freshman Lee Bundy all scored one goal. The playoffs against Elon, a team they had tied earlier in the season 2-2.

Joe Crupi scored early and Gary Hewitt and Randy Hechler added late goals as the Panthers dominated the game, coming away with the 3-1 victory. This win set up the controversial match against UNC-Asheville.

High Point ended the season with a 12-6-2 overall record. Gary Hewitt finished atop the scoring table with 14 goals and 5 assists for 33 points. He just nosed out Lester Davis who had 11 goals and 10 assists for 31 points, for a complete run-down of statistics check page 7.

Seniors Rapp and Stewart receive All-Conference and All-District honors for third straight year.

## Soccer Awards Given

### JERRY MIN

Sports Editor

The High Point College soccer team received its just rewards despite their playoff loss to UNC-Asheville. Five of its players received All-Conference honors while three were named to the All-District team, along with coach Woody Gibson's co-coach of the year award.

Seniors Angelo Stewart and Bobby Rapp were named to the All-Conference and All-District teams for the third year in a row. Sophomore transfer Lester Davis also made both squads. Sophomore Pete Cockburn is a repeat honorable mention All-Conference player and freshman striker Gary Hewitt also received

honorable mention status.

Stewart is a defender from Alexandria, Virginia and scored 3 goals and had one assist this season. Rapp, also a defender, hails from Commack, New York. Davis was the second leading scorer on the team, with 31 points, and played previously at Mercer Junior College in New Jersey.

Hewitt, a freshman, also from Alexandria, Virginia, scored 14 goals and had 5 assists for 33 points and the Panther scoring lead. Cockburn, a sophomore from Toronto, Canada added 9 goals and 8 assists.

Coach Gibson received Coach-of-the-Year honors along with Steve Ballard of Elon and Ralph Wagor of Catawba.

## Pre-Season Prospectus for HPC Basketball

SPECIAL TO THE HI-PO  
SPORTS INFORMATION DIRECTOR

Coach Jerry Steele, entering his twenty-first college season, returns nine lettermen from last year's 15-9 edition of the Panthers. High Point finished third in the Carolinas Conference regular season and advanced to the semi-finals of the District 26 tournament before being eliminated by eventual champion, Pembroke State University.

The Panthers lost two key players from a year ago. All-Conference forward Mike Everett (12.5ppg) and 6-8 freshman Jeff Allen (11.3 ppg). Everett lost to graduation while Allen did not return to school in the fall.

Four seniors hope to lead the way for High Point this

year. Guards John Hamilton (2.3 ppg, 101 assists) and Danny Murphy (10.2 ppg) have started together for the past two seasons and will provide leadership in the backcourt. Reserve guard Dave Young (2.3 ppg) will add depth at the Panthers' deepest position.

Senior Odell Walker, at 6-3 a swingman at the second guard or small forward, is a key to the season. Walker, transfer from UNC-Charlotte last year, tallied 29 points in his Panther debut but suffered a severe back injury which limited his playing time to just four games. His

Continued on pg. 7

Coach Steele has hopes of

Carolina's Conference

Championship.

## \*\*\* Intramurals Continue. . .

\*\*\*

### BY JANET BEALL

Sports Editor

The Delta Sigma Phi fraternity captured the ultimate frisbee championship for 1984. Behind the hustle and skillful play of Keith Rowand, Dave Weigel, and Mike Siegfried the Delta Sigma Phis defeated a strong Pi Kappa Alpha team, 17-12.

In the first women's soccer intramurals at HPC it was the girls of Zeta Tau Alpha that came away with the crown. The Zetas, behind the play of Trudy McDonald, defeated the Kappa Delta sority 3-1 in the final. McDonald had two goals for the Zetas while Amy Boswell scored for the Kappa Deltas.

Men's soccer intramurals continue as Delta Sigma Phi and "X" vie for the top spot. The two undefeated teams clash at 2:30 p.m. tomorrow at the intramural field. The standings as of November 6th are:

Delta Sigma Phi	8-0
"X"	7-0
Pi Kappa Alpha	4-2
Fratricide	3-3
Lambda Chi Alpha	2-3
69ers	2-5
Theta Chi	1-5
I Tappa Keg	1-6

## Deep South Tournament A Success

### JERRY MIN

Sports Editor

After completing a 10-4-1 regular season, the HPC field hockey team hosted the 3rd Collegiate Deep South Tournament. This tournament, with its 11 teams, proved a success as High Point finished third in its division.

The Deep South Tournament has its roots in its participants' love for the game of field hockey. The tournament was comprised of six college teams and five club teams. These club teams are made up of ladies who have finished their collegiate hockey careers. Their love for the game stretches so far that one lady drove all the way from Georgia just to participate.

The six college teams included Davidson, Duke, Catawba, Appalachian State, Wake Forest, and High Point. HPC defeated Davidson 1-0 and Catawba 7-2 which marked their largest offensive burst of the season.

Their next opponent was Duke. The Lady Panthers battled NCAA Division I

Duke to a 0-0 tie after regulation. After two 10-minute overtimes the score remained 0-0. Penalty strokes followed, and Duke stole the 1-0 victory.

Against the club teams, High Point defeated Tobacco Road 2-1 and tied the Carolinas Club 1-1.

This tournament is also a viewing for selection to the national tournament teams. Girls from this tournament that were selected will travel to Washington D.C. this weekend, hoping to be selected for the national teams that play in California later this year. Seven girls from High Point College were selected to participate this weekend in Washington. They include: Carol Bidermann, Shari Campbell, Patrice Higgins, Lisa McKeown, Amy Rowton, Sharon Packen, and HPC's leading scorer for the season, with 18 of the team's 30 goals, Carol Williams. A successful tournament brought HPC's final standings to 13 wins, 5 losses, and 2 ties.

## Volleyball Wins

### Conference

#### JANET MALLETT

AND

#### MIKE SIEGFREID

Sports Writers

The 1984 Carolina Conference Volleyball Tournament was held on Oct. 26th and 27th at Elon College. High Point defeated Pembroke (14-6, 15-2, 15-10, 15-11) to make it their third consecutive championship. The Panthers first had to defeat Atlantic Christian. They did this without Kim Maness's double-barreled setting and hitting attack. She was obligated to take a National Teacher Examination. They won in three straight games, 15-6, 15-10, 15-9. The next step was to beat Guilford. High Point's perennial rival. They also beat Guilford without one of their starters, Susie Ramirez, who was also taking the NTE's. The match went five games, (17-15, 15-13, 14-16, 6-15, 15-12) which lasted 2 hours and 45 minutes. There was much support from the spectators, who traveled with the team and cheered on the Panthers.

This year's High Point team had two members on the all-conference team, Cynthia Ismael and Anne Maryse Lopez. Cynthia was also on the All-Tournament team and named most-valuable player of the tournament.

High Point is working hard preparing for the upcoming District Tournament on Nov. 2nd and 3rd. They have won this title for the past two years. They play UNC-Asheville on Friday night at 8:00.

\*\*\*\*\*

The Lady Panthers defeated UNC-Asheville and faced Mars Hill in the semifinals. They went up two games to none only to see Mars Hill battle back and win 3 games to 2.

Continued from pg. 6

recovery is seen as an important ingredient for a good year.

Junior Jim Hoffman (4.1 ppg, 2.2 rpg) will start at center during the early going until 6-11 transfer Terry Shackelford is eligible in January. Shackelford played at North Carolina State last year and will make an impact on the Panthers when he is eligible.

Sophomores Hugh Gelston and Andy Young will probably start at forwards in the beginning. Gelston averaged 6.2 points and 4.5 rebounds at the big forward position as a freshman and the year of experience can only improve his performance. Andy Young, at 6-3, played a valuable role as sixth man last year and has been a pleasant surprise in the fall. He averaged 3.7 points and 1.5 rebounds as a freshman.

Freshman guard Mike Johnson will add quickness and depth in the Panther backcourt but will need to gain experience on the college level in order to be a positive factor during the season.

Johnson will be joined in the backcourt by sophomore Mike Miller (1.9 ppg) who showed great promise in the latter part of the season a year ago.

Coach Steele comments, "We'll have to play hard and smart during the season to get the job done. I hope we can build off of last year's success but the players have to remember what got us here, hard work."

"We play the most difficult schedule we have for several years, so I hope we'll be ready when the time comes."

The Panthers open their regular season at Barber-Scott on Tuesday, November 13.

High Point will open at home with district four Belmont Abbey on Saturday, November 17.

## Announcements

The Writing Proficiency Examination will be administered at 11:30 on Tuesday, November 13 in Room 106 of Haworth Hall. All students enrolled at HPC during or after September, 1980, and who plan to graduate from HPC must take and pass the examina-

tion. Those in particular who should take the test this Fall are new transfer students and those currently enrolled in English 102. Any student who enrolled prior to 1980 and who has been out a semester must also sit for the exam.

The Firefall Concert scheduled for November 8 had to be cancelled due to an illness suffered by the band's lead singer John Sambataro.

The band's management at ATI LTD in New York confirmed last Friday that Sambataro developed throat polyps and has to have them removed immediately. The illness of Sambataro will cancel the remainder of Firefall's dates through 1984.

Student Union has booked Pure Prairie League to perform instead.

**CONTEST:** The Writer's Club is sponsoring a contest for the design of this year's Fly Spec cover. The contest is open to everyone. The Deadline for entries is November 28. Entries must be done in black ink. The size should not exceed 8 1/2 by 11 inches. There will be a ten dollar prize to the winner. Send entries to P.O. Box 3259.

# New Trustees Elected

W. Roger Soles of Greensboro, president of Jefferson-Pilot Corporation, has been elected chairman of the High Point College Board of Trustees.

Soles has been a member of the board since 1966. He served as vice-chairman of the board before his election to the chairmanship.

A native of Whiteville, N.C., Soles is a graduate of the University of North Carolina at Chapel Hill. He joined Jefferson Standard in 1947 and rose through the

ranks to be named as president of that company in 1967 before being named president and chief executive officer of Jefferson-Pilot Corporation in 1968.

S. Dave Phillips of High Point has been elected to the vice-chairman's position. Phillips, who was elected to the board in 1983, is president and chief executive officer of Phillips Industries, Inc.

Re-elected as officers of the board are Robert Rankin, secretary-treasurer

of Haywood and Rankin in High Point, who has been re-elected secretary, and J. Edward Pleasants, senior vice-president of North Carolina National Bank in High Point, who has been re-elected treasurer.

In addition, two new board members have been elected to four-year terms and two retiring board members have been named as trustees emeriti.

Edward Harriss Covington of High Point and John Frank Lomax of

Hickory have been elected to the board for the first time. Covington is treasurer of Harriss & Covington Hosiery Mills in High Point. A graduate of UNC-Chapel Hill, he is chairman of the Holt McPherson Center and a member of the board of education at Immaculate Heart of Mary School.

Lomax is vice president of the western division for Duke Power Company. A native of Abbeville, S.C., he graduated from Duke University with a degree in business administration. He

currently is serving on the Catawa County Chamber of Commerce board of directors and is the incoming Chamber president for 1985.

Two long-time trustees have retired from the board and have been named trustees emeriti, James H. Millis, Sr., chairman of Adams-Millis Corporation in High Point, and J. Harriss Covington, president of Harriss & Covington Hosiery Mills in High Point, retired from the board after 24 years and 27 years of membership respectively.

# Students Like Cafeteria Food

**BY LEONORE  
SZYMANSKI**

Special to the Hi-Po

An informal survey conducted the weekend before Thanksgiving indicates that the quality and quantity of cafeteria food at High Point College wins the approval of faculty and students.

Students griping about cafeteria food is universal, but High Point College students admit the fare is good, plentiful, varied, nutritious and, more often than not, well-prepared.

Frank Caulfield, manager of food services, tries to anticipate the students' complaints, but admits that some grievances are legitimate and justified. He says, "I can't blame the kids. Some are stuck on campus seven days a week and

the food can get very monotonous, but we try. We have monotony-breakers at least once a month. We like to feature a special menu to spark the appetites."

Since the cafeteria is not run on a profit basis, the students can be served foods such as steak and shrimp at least once a week. The meats, poultry, and most of the vegetables are fresh, as opposed to canned or frozen, and are prepared in the cafeteria kitchen. The meals offered are nutritionally balanced, but the Food Services Department has no control over the students' choices.

If a student is sick, he or she can have a tray in his or her room upon the presentation of a notice from the dispensary.

Students' comments were varied. The majority gave the cafeteria food passing grades. A sophomore, who wishes to remain anonymous, commented, "The food is underseasoned and the vegetables overcooked. The variety is good, but predictable. Since I have to eat on campus, I'd rather eat at the cafeteria here than any other campus in the near vicinity. I hear the food on neighboring campuses is really bad."

Freshman Seema Qubein has no quarrel with the cafeteria; in fact, she finds everything very satisfactory about the food and service.

Day student Sue Williams says, "I really enjoy eating in the cafeteria. The food is very tasty and there are so

# OPINION

"Liberal" — What does it mean? It seems that during the recent political campaign "liberal" has joined the ranks of George Carlin's famous seven words. "Liberal" for some reason, is no longer associated with the ideals of individual freedoms but instead "liberal" is now considered a close second to communist. This country was founded by a group of Liberals with the hope of preventing the suppression of society and its members. Now just 200 years after this group broke away from British control their beliefs are being called radical and undesirable.

Some people in this country today wish to make moralistic as well as religious decisions for everyone rather than allowing each individual his or her guaranteed Constitutional right of freedom of religion. These same people call themselves preachers, sons of God, and claim to have compassion and sympathy for their fellow Christians. You too can become one of their fellow Christians, a member of their "Moral Majority" (Does this group really constitute a majority?) and save yourself from the fires of Hell. All you have to do is replace

your personal opinions and beliefs with the opinions and beliefs of the established group. You must also agree that for no reason will you ever question the right which allows the established group to dictate how you live your life. Simple — just give up your Constitutional rights in order to become accepted as one of their fellow Christians.

You, as a student at a Liberal Arts College, should have no trouble in deciding which option you choose. You can accept the generous offer of groups such as the Moral Majority which will dictate your personal beliefs (the dictation of beliefs gives you the right to call yourself a Christian) or you can accept a Liberal status (a status which is believed by some to be communist influenced) and think for yourself. Lads and lasses the choice is yours, make it and live with it. In the words of Tina Turner:

*Look up to the stars,  
With a perfect memory.  
Look through it all,  
And you future should be  
no shock to see.  
Look down but see no  
tragedy.  
Look up to your past,  
A spirit running free.*

The HI-PO welcomes letters from its readers on topics of current interest. Letters must be typed, signed, and an address must be included. If warranted, requests for anonymity will be honored. The HI-PO reserves the right to edit letters as seen necessary.

Opinions expressed in "Letters to the Editor" are not necessarily those of the college or the majority of the student body, rather, those of the writers. The editorials printed in this publication are the expressed opinions of the Editors of the HI-PO.

The HI-PO is delivered through the courtesy of the Alpha Phi Omega fraternity. This is the sixth year they have provided this service.

Dear Editor,

Recent news article have exploited the controversy relating to the presidency at High Point College. Obviously, many people who are interested in the school — students, former students, faculty, and friends of the College — are in the dark as to what the true facts behind the controversy that has been boiling for the past three years. I feel it is now time for the Trustees to take a public position and let everyone at interest be aware of the exact situation that exists.

I am a graduate of High Point College (B.S. 1937), a resident of High Point for the past 38 years, and a member of the faculty at the College for 21 years, retiring in May 1984. I have seen and been involved with much of what has

transpired, and I have some knowledge of the facts. As I see it, it boils down to a power struggle between a small number of Trustees, who seemingly want a direct voice in the day-to-day operation of the College, and the president, who was hired by the Trustees and given the power to direct the affairs of the College, but has been prevented from doing so by this small group who were unsuccessful in putting their own candidate in office before Dr. Lucht was appointed.

Most people understand that when a new president is selected to run a multi-million dollar business, he is chosen because of his demonstrated ability and his right to choose his staff who will advise and work with him. High Point College has a multi-million dollar

budget. It is a common practice for the new football coach at a university to bring his staff with him. In Dr. Lucht's case, he did not bring in a staff, but instead spent many hours interviewing every faculty and staff member to learn how things were functioning and the degree of cooperation he could expect from each.

After such analysis, it was Dr. Lucht's opinion that certain changes should be made, which was his right to make. In a meeting of the full faculty, he outlined his program and asked for faculty cooperation. He also indicated that although he was not seeking resignations, he would accept the resignation of anyone who did not wish to comply. In a separate meeting with department heads, he asked

the cooperation of each in carrying out his program. One such person chose not to go along, and resigned as a department head but remained as a teacher.

At this time enrollment was declining, so an independent agency was brought in to study the operation of the Admissions Office. As a result, changes were made in personnel and procedures. New student enrollment immediately began to increase, and has continued to do so. For the current academic year, new student enrollment increased by 14 percent over the previous year.

Very recently the Faculty Affairs Committee polled the entire faculty as to their support of the president and his program. The support given him was overwhelming. Only 13 faculty members voted not to support him, apparently the dissident group

allied with those Trustees who were unsuccessful in placing their own candidate in the president's chair.

President Lucht has not had an opportunity in the three years of his tenure to be most effective, as he has constantly been forced to defend himself against accusations brought by the dissidents. In spite of this

limitation there has been significant progress under his leadership.

I hereby challenge the Trustees to present the complete facts to the public, specifically to those who have supported the College

through the years. They have a right to know, especially why the vote of confidence by the faculty was ignored.

J. Wilson Rogers  
Assoc. Prof. of Bus.  
Administration (Retired)

## Hodge Podge

Release time has been awarded to a colleague of mine in the English Department.

That means he will have to teach one fewer course that I will.

And that means, in case, he will have to mark 175 fewer freshman essays than I will.

But the important issue is not the amount of work involved — he may end up working as hard, or harder, than I will. The issue has to do with the general atmosphere at the college, the general goals and values. This situation, and others like it, show what kinds of professional activities are rewarded. More importantly it shows an inconsistency in the college's expectations regarding professional training and preparation.

Release time is given for administrative, bureaucratic services, not for creative and/or scholarly services. The colleague has been given release time so he'll have more time to set up and coordinate a "writing across the curriculum" program.

Notice, he is not given release time to write, but to study how to administer a writing program.

This points up a great irony.

The colleague is not, in the ordinary sense of the word, a writer. He has not published a single poem (except in our college organs), a single short story, a single play, a

single essay, scholarly or otherwise, nor has he written a single essay to be read at a professional meeting.

He has written drama reviews for the High Point Enterprise, and the introduction to his doctoral dissertation, a reference work, is excellent.

The point is, again, that it is the administrator who is being rewarded, not the intellectual, the artist, the scholar.

Another colleague of mine, who might be a model writer, considering the large number of essays he's published, has received release time only recently, when he became a part-time administrator.

Also, this situation shows how inconsistent we are in our philosophy about professional training.

A third colleague of mine is being fired because he is self-trained in the program he directs. He does not have specifically academic training in that discipline.

This other colleague does the same thing, trains himself — reads books and articles on the subject, attends a conference, a workshop or two, inspects a model program — and he is rewarded.

debate

I have received a couple of comments about the debate Dr. Carole Head and I had during the faculty meeting

Dear Editor,

Everyone keeps saying there is a scarcity of parking spaces for Belk dormitory, but so far nothing has been done about this shortage. I feel it is time someone addressed the issue of why parking spaces for Belk dorm are so scarce. All semester the spaces marked with "B's" have been used by cars with "B" stickers, but they have also been used by "C's" and even some "D's". This problem has been brought to the attention of security, yet they refuse to ticket the cars which are parked in the wrong zones.

On Thursday, November 8, alone, there were five illegally parked cars in the ten spaces in the front of the dorm. This is a typical day, and it does not apply only to the front spaces. Just walk around the lot at the back of the dorm any time, and you will also find cars with "C" and "D" stickers parked in spaces clearly marked "B". Either the students at High

last week.

The subject of the debate and the question of who won (Dr. Head) is not so important as it is the atmosphere in which it was conducted.

One person thought it funny that Dr. Head and I were sitting beside each other and then got into the "argument." I don't think it is strange at all.

We should walk into such meetings holding hands or with our arms around each other, feel free when the meeting starts to argue vigorously with each other, and then walk out holding hands.

Perhaps the Christmas holidays will help us develop more understanding, forgiving attitude. Perhaps after hearing once again of the great gift, we will return convinced of the truth of the principles that it is better to give than to receive.

### THE FIRE OF FERRARO

The real meaning of the recent presidential election is not that Reagan won — if millions voted for him, millions voted against him. The real meaning is that, because Geraldine Ferraro was there at all, there is hope for my daughters, Therese, and other girls, who likely be taken more seriously as thinkers and doers. Ferraro has set a fire that, we hope, will incinerate sexism.

Continued on page 4

## Parking Still a Problem

Point College could care less that they are infringing on the rights of others or they don't know their ABC's.

The idea of zone parking is a good one, but only if it is to be enforced. I paid my vehicle registration fee to have the privilege of parking in the "B" zone. I resent parking at the gym when it is "C's" or "D's" who are depriving me of a "B" space. It is irrelevant that security will walk the girls back to their rooms if there are no "B" spaces. We should not have to park there so often anyway. If security has the time to escort us to our rooms, then they have the time available for ticketing.

If the parking zones are not going to be enforced, why have them? They may as well be eliminated completely. Who knows? ... If tickets were issued for illegal parking for even one week, the students at HPC might demonstrate that they do know their ABC's after all.

Theresa Sweatman

## Thanks From Gaughn

To The Editor:

On behalf of the staff of the Smith Library, I want to thank Ted Coryell and the editorial staff of the Hi-Po for the article, "Says Ted," in the last issue of the newspaper. Public praise for what you did is a rare commodity and we sincerely appreciate the recognition of our efforts.

I would also like to thank the student body for using the Library so heavily and so responsibly. Library usage has increased 10 to 15 times what it was prior to the opening of Smith, yet wear and tear on books, equipment, and furnishings has been minimal.

The staff of the Library wants to continue to improve the facility and its services. To do that, we need your suggestions and advice. We invite you to tell us what will make the Library a more useful place for you.

Thomas M. Gaughn  
Director of Library Services

## Apology

Dear Editor,

Well, it looks like the really big news once again has pushed us out of the Hi-Po. We have a front page preconcert article complete with picture on the classic music presented by Pure Prairies League, two articles, fer shur, about Lisa Birnbach and her preppie and college guides, and the Entertainment Editor Brent Holzhouser has a really dynamic critique of Rod Stewart's concert at the (goll-ee) Greensboro Coliseum. All really high-cult, big-time stuff, eh?

I apologize because "The Passion of Dracula" presented by the Department of Fine Arts wasn't big enough or important enough to rate even a shot in Around Campus as two puppy dogs and a pumpkin feature is out of the question or, heaven forbid, a critique or a someone might even have to "read up on the thing" to do a decent journalistic job. I guess we shouldn't be too surprised, though, since it appears that no one from the Hi-Po even asked for their fire tickets.

I apologize too for all the times you have had to

swallow your frustration (rage?) having rehearsed til midnight, stayed up til 2 or 3 a.m. studying for a test at 8 a.m., and a student has come up to you and said, "there's nothin' to do around here." And the times you have performed your hearts out to 35 people in the audience on closing night, only to have someone ask you next morning, "when does the play open?"

I suppose I should apologize also to the eight vocal soloists who performed on Sunday, November 11, in Haworth Chapel before approximately 35 people. I guess everyone was too busy rooting out the really secret scandalous stuff to print an announcement about something positive happening around High Point College.

Concerned journalists? College spirit? Student support? "Working for a better informed campus!?!?!?"

I do apologize. A pity it's needed.

Paul J. Lundrigan  
Acting Chairman  
Department of Fine Arts

[Editor's Note: A review of The Passion of Dracula is on page 7.]

# Says Ted

BY AMY HORA  
Staff Writer

When we are born, and this is not to be mistaken for the ornithological term hatched, we are hairless, sightless and otherwise helpless, much the same as a rat or mouse. Although many would argue that to compare man to a rodent would be ludicrous, a contrast with another well-known vertebrate, the bird will do.

We humans consider ourselves far more superior than our avicular counterparts. Yet, when viewed closely, the two differ very little. When we are tempted to feel superior to birds, we might remember it is they who have evolutionarily left us in the dust.

Born or hatched, we begin equal. But within four weeks a fledgling is preparing to leave the nest while, at the same age, a human is laboriously lifting his oversized head for the first time. It is not until a mere twenty years later that this same human is prepared to "fly by the coop" (as it were). By this time birds are well into their twentieth generation.

How is it, then, that we humans possess such hubris regarding something which far surpasses our reach, both physically and spiritually?

This common biped is the key to a human's every action. They, in a sense, control us. For instance, they fly; so we must emulate

them. Of course, it only takes us fifteen tons of metal to do so, unless you care for the moderate fiberglass and nylon jump-off-a-cliff approach which has led many to the same demise as Icarus.

We wash our cars (which happen to have such names as Thunderbird and Skylark) because of the birds. Don't tell me that move wasn't some well-thought scheme.

They, out of some biological magnetic power, go south when the climate becomes inclement. Many of us do likewise. But those who choose to stay north, wrap in none other than goose-down snuggles and feathered hats that Yankee Doodle would have killed to wear.

The list goes on. Birds wake us in the morning, and they prevail over our leisure activities such as golf (isn't it called a birdie and an eagle?). They keep us awake at night (ever heard a Screech Owl?).

We inject birds into our arts, "Doves Cry" and "Fly Like an Eagle." Poe's "Raven" haunts every college freshman. And what would childhood be without Mother Goose?

So why is it then, that we rarely stop, look up, and notice those wonderful creatures? We owe them a lot, it seems. The next time you trip over your feet because you are "pigeon-toed" — thank a pigeon — you were probably meant to fly. And the next time so-

meone calls you "bird-brained" — thank him — you have just been complimented.

Continued from page 3

thanks

The Board of Trustees has responded quickly to the faculty's grave concern over recent amendments to the Faculty Handbook which restrict a faculty member's right, rights which were gained only after long, hard work by many professors, administrators and trustees. Representatives of the Faculty Affairs Committee were to meet with representatives of the Board's Faculty Affairs Committee this week.

We trust that common ground has been discovered, that barriers to communication have been surmounted, and that disagreements have been worked out amicably.

All of us should be grateful to the Board and to the Faculty Affairs Committee.

Saturday. A word associated with sleeping late, nursing hangovers and light studying.

On December 15th, this classic college definition of "Saturday", for many unlucky High Point College students, will become an unnecessary academic catastrophe.

As most of you already know there will be exams for the eight and nine o'clock Monday-Wednesday-Friday classes on Saturday, December 15, 1984. I have just one question — why?

Why have the exams been designed so that students have no choice but to cram? Let's take a little look at reality to explain my claim. Before a final exam the professor typically will undertake what's called a review. This review tells the student what to expect, and hence, what to study. First, to study before the review is like driving in a strange area before looking at a map. The review is a necessary guide

to exam preparation. Secondly, this review logically and necessarily will come on the last scheduled day of class (for to have the review earlier would nullify any material following it). That means many students could very possibly have two reviews on Friday and their exams the following day. What options do the students have... just one — CRAM!

If the administration (or whoever planned this fiasco) was so bent on getting out of school December 20, rather than the 21st, why didn't they have the Saturday exams set for Tuesday-Thursday classes so that the students could have two nights to study.

Ironically, in the "Panther Prowl," a weekly pamphlet produced by the APO's, the Alumni Affairs office, and the office of Student Life, appeared the message: "DO NOT WAIT UNTIL THE END! EXAMS START DECEMBER 15."

# Who Cares?

Dear Editor,

Sometimes I sit and wonder, who cares? Does anyone care that there are students spending countless hours with the HI-PO, Zenith, Student Government, and Student Union? And does anyone realize that all of these students work without any monetary compensation? Maybe they do this because they receive a great sense of satisfaction in seeing a completed product such as the HI-PO in the cafeteria, or the Zenith on a bookshelf. Or possibly it is the realization that what they are doing brings enjoyment to fellow students such as the production of a concert by the Student Union. But maybe, just possibly, these students volunteer their time and energy to these causes

because they care. Not to put this on a resume, but just because they care.

The services that they provide are for the benefit of all

the students. Newspapers and yearbooks are published each year with the money that the students themselves have paid, yet countless newspapers and yearbooks go untouched each year. Every event sponsored by the Student Union is financed through the student activity fee which every student pays. Still free concert tickets go to waste and trips to Carowinds just get enough people to ensure the discount rate. Still students cry that there is no social life on the campus. These people seem to care too. Well possibly they do care, but to what extent? Do

they go to Student Union meetings to express their thoughts? Do they run for an office in the Student Government Association? Do they take the time to work on the Zenith or the HI-PO (which they could do for school credit). DO THEY? The answer is only obvious.

Those who do all the work get very little credit and those who are upset with the conditions make a lot of useless noise. It has been said that actions speak louder than words and this has never been more true than in this situation. Not to overuse a phrase, but, "talk is cheap." Even more than that it doesn't get anything accomplished except a release of air.

Bill Frampton  
SGA President

By OWEN SNYDER  
Staff Writer

As the college bow picture is either settled or going down to the wire, this game will, hopefully, never be forgotten. On the 24th day of November, two fraternities' pledges were playing for all-out glory. They were playing for their fraternities, money was not a factor (Beer yes, money no).

The game was football, play your heart out football, not necessarily the cleanest game ever played but it was played to make the brothers (or girlfriends) proud. And make them proud is what they did. For the outcome was not measured by the score, but how these teams played the game. Each player knew how much they put in by how much agony they were in the next day.

Like many of my pledge brothers, I was a 'hurtle' pup. I felt like I had just played against John Rig-

gins, of the Washington Redskins. Who I did cover was close enough, my main job was to cover the running back named Gary Hewitt. Gary is twenty-two years old, a solid 230 pounds approx., and has spent the last few years in the U.S. Marine Corps, no problem. My heart was saying, "Go get him!", the next day my body was saying, "What are you, nuts?" A well played game all-around. A defensive battle including two safeties by Lambda Chi, solid defenses that limited one touchdown apiece. The TD's were scored by Pika Rob "Marcus Allen" Weinhold and Gary "The Diesel" Hewitt. He ran over somebody else that time.

What made the day special was that at the final gun: 1) The brothers were proud of the pledges and the pledges were proud of themselves, and 2) Both sides congratulated each other and were friends again. Wait until next year!

# Lynch Interviewed

Aileen Lynch is the person who directed, costumed, and played a main character in *The Runner Stumbles*, a play by Milan Stitt, performed on November 8 at the Memorial Auditorium. The play portrays two religious persons, Father Rivard and Sister Rita, in a search for the truth behind their relationship, the essence of their religion, their commitment to their community and their expectations. This is but one of the two main themes of the play, for we are also taken into the investigation of the nun's murder, which involves both a courthouse and Father Rivard's memory.

*The Runner Stumbles* is a multiple-key work, rich and complex: it clearly calls for more of its kind to enrich the life of our campus. The choice of play in itself already bespoke quality.

Q: Why did you choose to stage such a potent and deep play?

A.L.: Three years ago, I saw the movie *The Runner Stumbles*. Dick Van Dyke was in a serious role and the movie did not go off very well. But it was very good

and it made me cry. Later, I got the play in the mail - I belong to the Fireside Theater Book Club - and still later used the murder scene, with variations, for an acting class. I always liked it, I read a lot of plays, but this one stuck with me.

Q: Were there any specific problems with the production of the play?

A.L.: The main problem was the casting and everybody's time involvement. The final cast of nine included only four people of the original one. We also got the main stage only three days before the performance, so we had to redo everything. The main part, Gregg Thompson, was decided only three weeks before. It was really an all-grown cast.

Q: What kind of reaction did you get from the audience?

A.L.: They loved it but many said if they had known ahead of time what the play was about, they would not have come.

Q: What did you think of

that?

A.L.: I understood them. That's why when people were asking me what the play was about, I told them it was about a nun and a priest who fall in love, rather than a religious play.

Q: By the way, Rita is a surprising name for a nun, isn't it?

A.L.: It shows she's human.

Q: What was the best moment of the production?

A.L.: Well...when it was over, and the curtains closed. It's been so long! We started in February.

The special moment was the lilac song, lilacs beneath the snow: the children (of the nun's school) are singing, but their voices in fact are those of the cast. I came up with the some off the top of my head a week before the performance; we could have used actual kids, but instead the cast sang. I thought it symbolized the newness of the cast.

Q: What do you like most about the play?

A.L.: It never says who or what is right; it is a study into a nun's life.

# Escorts Receive Jackets

BY TOM BUTLER  
Staff Writer

Student Government Association allocated \$200 to buy jackets for the volunteers in the Escort Program. These jackets are to help identify the volunteers because there have been some problems with people not knowing who was a volunteer escort.

The Escort Program has been established by students, with guidance from Ed Canady, director of public safety, to provide security for those who must walk unaccompanied on campus at night.

The jackets are a lightweight jacket and similar to the ones worn by members of the baseball team. They will have the school seal with the words "Project Escort" on top and "High Point North Carolina" on the bottom. The colors will be blue with white lettering. Bob Parkinson, a sophomore, created the design.

"The jackets will not be kept," said junior Terry Aikens, student coordinator of the Escort Program, so they can be used again in the future. Parkinson, a volunteer escort, says, "We hope that more people will use the program and get its full usage, because the guys are just volunteering their own time."

In other action the SGA also allocated a \$1000 to buy a work of art to present to the college. The SGA appointed a committee to select an appropriate piece of art. The art work is to be presented on Honors Day.

A bill was also passed that would change the petition procedures for elections. In the past a person wishing to run for office had two weeks to get enough signatures necessary to be able to run for office. Now a person will have one week before the petitions are due. It was felt that two weeks delayed the election procedure.

## Munch, munch, munch...

The munchies are after you. There is only one way to stop them...a hot, fresh, made-to-order pizza with 100% real dairy cheese. Domino's Pizza will deliver it to your door in 30 minutes or less.

When you get the urge for something to munch on, call Domino's Pizza... before it's too late! Domino's Pizza Delivers.

# Robert Campbell: Artist

TONY B. BAITY

Staff Writer

Society, many times, fails to take a musician seriously and the society of HPC is no exception. Robert Campbell, a Jack-of-all-trades and student at HPC, is a musician who has experienced the coldness of HPC's shoulder.

Campbell is probably best known to HPC students for his musical performances in the cafeteria, last year. A person who witnessed one cafeteria performance said, "He (Campbell) was jeered, laughed at, and treated with unbelievable rudeness by nearly everyone in the cafeteria." When asked to recall the cafeteria performances Campbell said, "I felt ridiculed and that's sad. However, in reality I accept the fact that my friends loved me and my enemies hated my guts. The way I see it," continued Campbell, "is that those who ridiculed me I can write off because I would never call them friends anyway."

The ridicule Campbell felt has in no way prevented him from continuing to write and perform his music. He

claims to have written between 500 and 1000 songs. "Each song," said Campbell, "is an extension of my personality, an extension of my soul." The ridicule also has in no way curtailed Campbell's love for music, especially his own. He explained his music "gives me a reason to take a breath. Each day is different and each new day brings with it new experiences which in turn provides a base upon which I write my songs." When asked if he thought musicians were the prophets of today Campbell said, "No, musicians are basically just people trying to make a living in this highly capitalistic society. They are attempting to say the right thing, at the right time, to the right generation." Campbell described this generation (those who were in high school during the late 70's and early 80's) as a generation with its head more together. "As a group" said Campbell, "they are more conservative in their religious and political attitudes."

While Campbell read

agrees with most conservative attitudes he also said, "This has become a more individualistic society, one that is cold and computerized. Realistically things can only get better. Members of this generation tend to have no heart for the poor. People need to love each other more."

When asked to define "genuine" Campbell said, "Genuine is being real. It is expressing a feeling or meaning which you believe in, not just saying what you have been told." To Robert Campbell his music is genuine and it provides an outlet through which he can express his feelings and beliefs. To the society of HPC Campbell's music provides an example from which the meaning is clear — bigotry still survives at good o'l HPC.

Someone once wrote that the eyes are the windows of the soul. If this is truly the case then you need to look only once into the 27 year old eyes of Robert Campbell in order to see a man who is at peace with himself.

Robert Campbell: HPC's forgotten artist

## In Case of Fire....

BY SEEMA QUBEIN

Special to the Hi-Po

The women's dormitories at High Point College seem well prepared in case of fire; however, student's opinions of fire safety are mixed.

All five of the halls are equipped with smoke detectors, fire alarms, and from two to four fire extinguishers per floor. According to Mrs. Boyles, a resident counselor, the detectors and extinguishers are checked every week. Emergency information is posted in each room or suite, and during breaks college personnel check each room for fire hazards. Fire drills are held twice a semester.

"I have no complaints," said Peggie Arvidson, a sophomore, "but then again, I haven't been involved in a fire."

One freshman, Irene Holland, has. She was doing her laundry in the basement when she smelled smoke; someone had thrown a cigarette into a pile of cardboard boxes. Irene, however, had no complaints, either.

"You know, it's a natural reaction: 'put the fire out'," she said, "I put the fire out, and went and told Ms. B."

Other students, however, are not as confident. "I know that Wesley is not safe," said sophomore Bonnie Hannah of her dormitory, "cause of what happened last night." There had been a fire drill the night before for two dormitories adjoining Wesley, and Wesley residents had been unable to tell whether or not the alarm was meant for their hall as well.

If the alarm were activated for a real fire, "everybody would just stand out in the hall and go, 'is it ours?'" said Bonnie. She suggested that drills be held for all the dormitories at once so that all the residents would start responding to the alarm more quickly and confidently.

Eather Christian, a freshman, had similar complaints. Sitting cross-legged on her bed, she said an alarm had gone off in her hall one night—for some unknown

reason—and had not awakened her. "I woke up in the morning and it was still going," she said seriously. "That bothers me."

Her roommate, Margaret Phillips, thought more fire drills necessary—although she confessed "we'd probably get tired of them." The Residence Life Booklet states that drills are "conducted at various times throughout the year in accordance with state regulations," but in fact they are held only every two months. Boyles explained that less frequent drills get better response from the students. Monthly drills are unnecessary, she said, because "you're adults and when you've gone through the procedure once you know how to get out."

The drills used to be monthly, according to Resident Counselor Alta Northcott, but "we were told that was a little ridiculous." Northcott also said that the cold weather and the many girls sick in bed during part of the year need to be considered.

BY PHYLLIS LACKEY

Special to the Hi-Po

The gleam in their eyes and their eagerness to see all immediately gives away their identity as prospective students visiting the campus for the first time. Obeyingly they follow closely behind their guide and listen to every word he utters. Timidly, the prospectives gaze around and try to steal a glance at the college students.

The prospectives begin their adventure in the admissions office where they are interviewed by the Director of Admissions Jim Schlimmer. This interview is general; it gives the students and their parents a chance to ask questions about High Point College.

Most visits are pre-set by appointment; this is done by calling the college and simply asking to speak with Admissions. The college will set up a day when several prospectives come to visit on the same day. This is an advantage to the college, because officials can be prepared and can alert the various offices of the prospectives' arrival.

However, prospectives may also visit on days of their choice or individually.

In order for students to get acquainted with the staff and professors they may soon be working with, the Admissions Office may sponsor a tea or coffee.

After their interview, the prospectives begin a tour of the campus. If a student or parent desires to visit the Financial Aid Office, the tour will start there. The visit is general and the family is given an estimate of the aid they can receive. The students are then led out of Roberts Hall and by the library for a brief visit and history of this new building.

If the prospective is a girl she will view the inside of Women's dorm, where a prechosen room is examined. Often the third floor is neglected and some prospectives are unaware of its faults. The tour continues with visits to such special facilities as Belk dorm, Cooke Hall, the infirmary and the gym.

Prospectives also eat a meal in the cafeteria, either

# Student Union Fall Concert A Success

BY BILL SLEDGE

Special to the HI-PO

All of those who turned out for the Student Union's fall concert with Pure Prairie League and Kier in early November seemed moved by the performances, making the evening alive and spirited and one to remember. At the end of the evening, nearly everyone who came to the Memorial Auditorium was on their feet and cheering.

Things got started at 8:15 with Greensboro singer-songwriter Kier. Upon approaching the microphone, Kier exhibited an energetic presence and strong musical execution, two qualities that made him a captivating

entertainer. He opened with some of his own material and eventually did some great impressions of other artists. His first impression was Neil Young which included the songs "Heart of Gold" and "Old Man."

Later, Kier put down the guitar and spent the rest of the evening on the keyboard, starting out with some various parodies, as if he were playing for a different crowd at a Holiday Inn. In his "lounge singer" persona, Kier crooned nauseously on purpose through the ever-sickening "Feelings." Kier then put Ruppert Holmes' hit "Escape" into perspective ("the song we love to hate") and ended it all with a

"Barry Manilow finish."

Kier moved out of his parody with the crowd's approval with the opening of Billy Joel's "Piano Man."

Perhaps the highlight of the evening came near the end with Kier's spare, but enlightening, performance of "Thunder Road." Kier came across as a true entertainer who was consistently energetic and interesting.

The Pure Prairie League, a band which came to fame in the Southern Rock hey-days of the early seventies, is probably best known for their hit "Annie," which was on the charts ten years ago. Although nothing new has been heard on the radio from them in the past four years,

this veteran outfit rocked the house through a variety of their brand of country-rock and rock 'n' roll.

Their sound is mostly generated by three front men on guitars and an excitingly animated saxophone player. During the League's first number the crowd took to its feet and crowded the stage. This activity was short-lived, as security promptly told everyone to return to their seats.

After a few of their new rock numbers, the League went back to some of their old country songs, sparking the crowd to its feet once again with their tribute to Merle Haggard, "I'll Fix

Your Flat Tire, Merle," and one of the night's favorites, "I'll Be Damned." The band's classic, "Annie," came at the end of the evening while everybody in the house was standing and singing the chorus.

The Pure Prairie League proved to be a great country-rock band who displayed professionalism throughout their performance with a sound that was clear and never too loud.

Above all, the festive atmosphere was what made it all happen and Bob Rossi and all other involved should be commended for providing a great concert and a good time.

## "The Passion of Dracula": A Disappointment

BY:  
BRENT HOLSHOUSE  
AND TERI BURCHETTE

Entertainment Writers

"The Passion of Dracula," based on the novel by Bram Stoker, was recreated at Memorial Auditorium on November 2 by the High Point College Theatre in a performance which seemed to lack the necessary elements that interesting plays are made of.

For openers, none of the performers got the job done. They all looked as though they were merely going through the paces because they had already done the play three previous times. Part of the lackadaisical performance might be attributed to the fact that the auditorium wasn't half filled and this could've caused the players to take a "Who cares?" attitude. Whatever the case, nothing came

across as being an attention-grabber. The efforts and movements of the players

seemed practiced and automatic.

One expects a storyline like this one to fill the auditorium with suspense. Unfortunately, the suspense never took form and the spectator was never able to become entangled in the events onstage.

The presence of North

Carolina Shakespeare Festival member John Woodson would give the impression that this play would be destined for great successes, but Mr. Woodson's obvious talents were washed away in this sea of mediocrity... and that's a shame. He was unable to portray Count Dracula to his fullest extent because the supporting cast wasn't in his league.

"The Passion of Dracula"

somehow left a bad taste in the mouth when thought how much could, and should have been done with the play. Much effort was put forth, but little was conveyed.

## Elton's Farewell

BY BRENT HOLSHOUSE  
Entertainment Editor

Elton John announced before this tour started it would be his last one, that he wanted to settle down with his new wife and raise a family. The guy's serious folks. He can still rock the house like he did at the Charlotte Coliseum on the night of November 8, but it was obvious he's become a victim of the rigors of the road and a recent illness which had already forced him to cancel a portion of the tour, including a Charlotte show on October 10. Whatever the case, let's give credit where credit is due. Elton started out like a deflated balloon but finished with a flourish that left the sold-out coliseum reelin' with satisfaction.

After opening the show with sloppy renditions of

"Tiny Dancer" and "Levon," two selections off the 1971 LP "Madman Across The Water," John appeared extremely tired and continuously took swigs of water after each song. His band even seemed a bit "blah" and this made classics like "Daniel" and "Rocket Man" sound strained and unexciting. Another boring concert was in the making.

After doing "Candle In The Wind," a tribute to Marilyn Monroe, John mentioned his postponed show by saying, "I must apologize for my first appearance," and he was properly forgiven by the crowd as he binged out "The Bitch Is Back" with all the fervor of a performer determined to give the people what they want. Then, just to prove his newfound enthusiasm, Elton gave his piano stool a good

swift kick, thus provoking thunderous applause from the audience.

The show carried on and Elton gained momentum with each hit he performed, like "Philadelphia Freedom," "Bennie and the Jets" and the new one, "Who Wears These Shoes?" He still blew his nose and drank a lot of water after he sang, but it no longer made any difference. He'd found his second breath and it carried over into both his encores. John did "Your Song" and "Saturday Night's Alright For Fighting" during the first encore and on his second trip back to the stage he accepted roses from someone in the audience before singing "Goodbye Yellow Brick Road" and "Crocodile Rock." With that, the piano man was gone and the

so expensive."

Dr. James Stitt of the History Department shares this opinion. He thinks the food is excellent, but the cost prohibitive for daily fare. Dr. Stitt commented, "The value received for money paid is very equitable."

Mr. Porter of the Art Department finds the salad bar "fabulous—abundant, nutritious and delicious."

Chloe Richardson, who heads the Food Services Committee of the Student Government Association, feels that many students are eating away from home for the first time and miss "home cooking," therefore, having some very picaresque complaints. She feels that, in general, the meals are very good and, certainly, better than most school food.

Chloe finds Mr. Caulfield very willing to listen to suggestions from the Food Service Committee. However, implementing them takes a little time. Changes and additions are always in the making, evidenced by the appearance of the salad bar and the ice cream machine.

The Food Service Committee plans to meet with Mr. Caulfield at least once a month to discuss students' requests.

Continued from page 7

houselights came on.

So long, Elton. It won't be the same without you on the tour circuit. I just hope you don't kick your wife around like you do your piano stool.

According to Dean Sistrunk, having an assistant will allow him to "spend more time on the pertinent topics now at hand," such as judicial processes and the Ethics Codes.

Because of the work slowdown during the coming holidays and the fact that the person hired must give the present employer about a month's notice, Dean Sistrunk said it will likely be late January or early February before the job is filled.

## Scanzoni Visits HPC

By John Distasio  
Staff Writer

Dr. Scanzoni recently made a visit to HPC. Sponsored by the Western North Carolina Annual Conference Family Life Council and High Point College, Scanzoni spoke of "Trends in the American Family."

Unlike some speakers of this sort, Scanzoni did not preach, therefore the audience was more responsive than usual. He talked of premarital sex, adultery, and other societal evils. However, he did not make judgments on these subjects.

His major concern seemed to be the absence of the traditional family. He cited this to be a major problem today, hinting at the possibility of other problems stemming from a weak family life.

## OVERSEAS EMPLOYMENT

WORLD-SIDE OPPORTUNITIES FOR MEN AND WOMEN!  
JAPAN - EUROPE - AFRICA - AUSTRALIA - THE SOUTH PACIFIC - SOUTH AMERICA - THE FAR EAST.  
EXCELLENT BENEFITS, HIGHER SALARIES AND WAGES!  
FREE TRANSPORTATION! GENEROUS VACATIONS!

More than 300,000 Americans — not including members of the armed services — are now living overseas. These people are engaged in nearly every possible activity...construction, engineering, sales, transportation, secretarial work, accounting, manufacturing, oil refining, teaching, nursing, government, etc. etc. And many are earning \$2,000 to \$3,000 per month...or more!

To allow you the opportunity to apply for overseas employment, we have researched and compiled a new and exciting directory on overseas employment. Here is just a sample of what our **International Employment Directory** covers.

(1). Our **International Employment Directory** lists dozens of cruise ship companies, both on the east and west coast. You will be told what type of positions the cruise ship companies hire, such as deck hands, restaurant help, cooks, bartenders, just to name a few. You will also receive several Employment Application Forms that you may send directly to the companies you would like to work for.

(2). Firms and organizations employing all types of personnel in Australia, Japan, Africa, The South Pacific, The Far East, South America...nearly every part of the free world!

(3). Companies and Government agencies employing personnel in nearly every occupation, from the unskilled laborer to the college trained professional man or woman.

(4). Firms and organizations engaged in foreign construction projects, manufacturing, mining, oil refining, engineering, sales, services, teaching, etc., etc.

(5). How and where to apply for overseas Government jobs.

(6). Information about summer jobs.

(7). You will receive our **Employment Opportunity Digest**...jam-packed with information about current job opportunities. Special sections features news of overseas construction projects, executive positions and teaching opportunities.

### 90 Day Money Back Guarantee

Our **International Employment Directory** is sent to you with this guarantee. If for any reason you do not obtain overseas employment or you are not satisfied with the job offers...simply return our **Directory** within 90 days and we'll refund your money...no questions asked.

### ORDER FORM

International Employment Directory  
131 Elma Dr. Dept. T21  
Centralia, WA 98531

Please send me a copy of your **International Employment Directory**. I understand that I may use this information for 90 days and if I am not satisfied with the results, I may return your **Directory** for an immediate refund. On that basis I'm enclosing \$29.95 cash... check... or money order... for your **Directory**.

# HPC Theater Performs "Scrooge"

"Scrooge," the musical adaptation of Charles Dickens' immortal "A Christmas Carol," will be presented by the High Point College Theater December 6-9.

The show, which is being presented by High Point College for the third consecutive year, will be directed by Ron Law, instructor in theater arts. Faculty member Alexa Jackson will provide the musical direction and the show will be choreographed by Susan Vagredes, a master's candidate in fine arts at UNC-Greensboro. "Scrooge" will be presented in Memorial Auditorium on the campus.

The role of Ebenezer Scrooge, the miserly old man visited on Christmas Eve by a series of ghosts, again will be performed by Paul Lundrigan, chairman of the college's fine arts department. The thirty-seven member supporting cast will consist of High

Point College students, as well as a number of Triad area residents.

Bob Cratchit, Scrooge's faithful assistant will be played by Timothy Austin of Winston-Salem. Austin has appeared in UNC-G's productions of "Antigone" and "The Time of Your Life," as well as in the Kernersville Little Theater's "Our Town."

Tiny Tim is being played by Bob Erdin of High Point for the second consecutive year. Mrs. Cratchit is pro-

trayed by High Point College junior Cindy Gleiser, a human relations major from Winston-Salem. The Ghost of Christmas Past is played by another student, Aileen Lynch, a Reston, Virginia, sophomore majoring in theater. Bruce Tyrrell of Winston-Salem is cast as the Ghost of Christmas Present. This is Tyrrell's first return to the stage after twelve years of technical work for such entertainers as Neil Diamond, the Beach Boys,

and Paul Simon.

Other cast members are: High Point College junior Phil Valente from Miami, Florida, who plays Scrooge's nephew;

Tina Boyer of High Point, who is cast as Mrs. Fezziwig;

Jeff Rhudy of Greensboro, who portrays Mr. Fezziwig; David Compton, a UNC-G acting major, who plays Tom Jenkins; and

Doreen Dvorscak, a graduate of UNC-G's master's program in child drama, who is cast as Isabel Fezziwig.

The December 6, 7, and 8 shows will begin at 8:00 p.m., and the December 9 show will start at 2:00 p.m. Tickets can be obtained from the High Point College Box Office in Memorial Auditorium Monday through Friday between 1:00 and 5:00 p.m. Special group discounts are available for groups of ten or more. Further information about tickets can be obtained by calling (919) 884-0064.

*Continued from page 6*

lunch or dinner. If a group is visiting, the food is usually of good taste and ice cream is set out at both meals. The guides are told in their handbook not to put down the food and if "the food may not be up to par," to point out the salad bar and soup bar. Prospective are led to believe the great taste and ice cream are an everyday thing.

After the meal the tour is concluded by visits to places of particular interest.

While giving the tour the guides are informed to avoid controversial questions, such as questions about President Luchin, the alcohol policy or the party scenes on campus.

Schlimmer says that the student guides are important in selling the school to the customer, or prospective. They are able to put down the "brand x" schools when faculty can't.

The handbook tells guides to be honest about the campus and at the same time to avoid controversy with tact. There are between 700 and 800 prospectives who visit the campus each year. The tact used with these prospective students has probably been partly responsible for the 12% enrollment boost. The existence of the college depends on students, so the college depends on avoiding some areas in order to attract new students.

## Internships

### Available

BY CLAY FAULK

Staff Writer

Information about "Summer Intern Programs In State Government" is now available in the Career Development Office.

The internships are sponsored by the University of North Carolina at Chapel Hill. Internship pays \$150 a week and the student can arrange to receive college credit. UNC-Chapel Hill gives three hours of Political Science credit for these internships. Sophomores, juniors, and seniors are eligible to enroll.

North Carolina residents as well as out-of-state students can apply

Internships include work in: Correction, Office of the Governor, Department of Human Resources, Department of Justice, Department of Natural Resources, Department of Parks and Recreation and the Department of Transportation. Deadline to apply for the jobs is January 4, 1985. Applications are available in Ms. Wainer's office.

Information about Study and Travel Abroad is available in Career Development Office.

Q: There are quite a few basic thematic oppositions: Protestantism versus Catholicism, masculinity vs. femininity, expectations vs. reality, etc...Which one do you see as central?

A.L.: Church vs. society. The hierarchy vs. the individual?

A.L.: Mainly it means that religious people are people too. She places the human over the religious; he does the reverse.

Q: What about that alleged love affair?

A.L.: Well, he knew what was coming and she did not. She's just a little girl, but y'know the female...she is blamed for everything.

Q: How is drama like on campus?

A.L.: Last year, the Tower Players had few members. This year, we have thirty-five members who are pretty active.

except...ahum...for the yearbook picture. It is a good sign of the interest and motivation generated by drama on this campus.

Q: To conclude...I would like to extend my congratulations for really fine work to you and your cast, production staff and helpers. You really gave us an excellent show and I know we all are looking forward to more of this vintage drama.

To all who are interested, there is, or will be shortly, a videotape of *The Runner Stumbles* as performed at HPC, available for viewing at the library.

## CONTINUE YOUR EDUCATION WITH THE ARMY COLLEGE FUND.

So you've started college and you want to go on. You have the ability and desire but need the money. The Army College Fund can help you continue the education you've started.

By qualifying in an Army skill that entitles you to the Army College Fund, you'll be able to start a special savings plan. When you set aside part of your Army pay each month, the government will match your savings at least five to one. With a two-year enlistment, you can accumulate \$20,100. With a four-year enlistment, you could save as much as \$26,400 for college. Keep on growing in college with the Army College Fund. See the High Grad Recruiting Team for details.

# Grades Escalate

BY PAUL WONG

Special to the HI-PO

Contrary trends in test scores and course grades indicate that the College's standards are not as strict as they once were. While Scholastic Aptitude Test (SAT) scores continue to decline, grades continue to rise.

Registrar David Holt says there has been a steady decline in SAT scores over the past several years. "In the 1960s, the average SAT score was well over 1,000. The present average score is about 840," Holt suggests, however, that the SAT score should not be the only determinant in selecting students, although, he says, it does give a good indication of where the students stand.

Economics professor Faiz Faizi reflected a similar attitude. He feels that students entering college are less prepared than in previous years.

Grades, on the other hand, are getting higher and higher.

The percentage of students in the graduating class of 1969 who graduated with honors was 3.7. In 1977, the percentage was 10.7. Last May, the percentage of students who

graduated with honors was 21.7.

Holt offered two explanations for the increase. One is that many of those who graduated with honors are from the Continuing Adult Education Program (CAEP). CAEP students are highly motivated to make good grades, Holt said. Day students, too, may be more concerned with graduating with honors.

Holt also suggested that the increase in honors graduates may be a result of grade inflation at the College. Grade inflation has been happening all over the country, Holt said, and HPC may be caught up in the same pressures that are causing other colleges to try to keep their enrollments stable.

There is greater competition among colleges to attract and keep tuition-paying students. Also, the pool of students from which colleges draw is decreasing.

Other factors may have contributed to the situation. Students may simply be working harder, even though they enter the college with lower SAT scores than students in the past. A highly competitive job market may be adequate incentive to motivate students.

**2. Anomalous  
Gravitational Force**

As the probe approaches the black hole, the gravitational force becomes increasingly anomalous. The probe experiences a strong tidal force, which stretches it along the direction of motion. This is due to the fact that the gravitational force is much stronger on the part of the probe closer to the black hole than on the part further away. The probe is also subjected to a strong transverse force, which causes it to deviate from its original path. This is due to the fact that the gravitational force is much stronger on the part of the probe closer to the black hole than on the part further away. The probe is also subjected to a strong longitudinal force, which causes it to accelerate towards the black hole. This is due to the fact that the gravitational force is much stronger on the part of the probe closer to the black hole than on the part further away.

**3. Event Horizon**

As the probe approaches the black hole, it eventually reaches the event horizon. This is the point of no return, where the gravitational force is so strong that nothing can escape. The probe is now trapped and will eventually be crushed by the black hole. The event horizon is a spherical surface that surrounds the black hole. It is the boundary between the region from which nothing can escape and the region from which escape is still possible. The event horizon is a one-way membrane, meaning that things can fall in but cannot get out.

**4. Singularity**

As the probe approaches the black hole, it eventually reaches the singularity. This is the point where the gravitational force becomes infinite and the laws of physics break down. The probe is now crushed and its matter is added to the black hole. The singularity is a point of infinite density and zero volume. It is the center of the black hole, where all the matter that has fallen in is concentrated. The singularity is a point where the laws of physics as we know them no longer apply.

**5. Conclusion**

The probe's journey into the black hole is a fascinating one, showing the extreme forces and conditions that exist near these cosmic objects. The probe's path is determined by the gravitational force, which becomes increasingly strong as it approaches the black hole. The probe experiences a strong tidal force, which stretches it along the direction of motion. The probe is also subjected to a strong transverse force, which causes it to deviate from its original path. The probe is also subjected to a strong longitudinal force, which causes it to accelerate towards the black hole. The probe eventually reaches the event horizon, the point of no return, and is trapped. It then reaches the singularity, where the gravitational force becomes infinite and the laws of physics break down. The probe is crushed and its matter is added to the black hole.

While compiling 6-4 record

# HPC Wins 2 of 3 Tournaments

**DANNY BEALL**  
SPORTS EDITOR

**High Point: 60**  
**Barber-Scotia: 49**

The HPC Basketball team opened-up the 1984-85 season with an impressive victory over a young Barber-Scotia team. The Panthers rolled to a 60-49 win behind the shooting of Odell Walker, and rebounding of sophomore center Hugh Gelston. Walker, a 6'3" small forward who is returning from a severe back injury, led all Panther scorers with 19 points. Gelston was strong under the board piling-up a season high 17 rebounds.

**HPC: 49**

**Belmont-Abbey: 64**

The Panthers then met powerful Belmont-Abbey in the home opener only to be stopped 64-59. Belmont Abbey came out strong and built an early 28-19 lead. HPC, behind the outside shooting of senior guard Danny Murphy and the passing of freshman Mike Johnson, rallied back with unanswered points. The two teams went into the dressing room at halftime with Belmont-Abbey holding a slim 30-29 advantage. The second half was all Belmont-Abbey despite a strong inside play by Gelston who had a game high 10 points. Belmont-Abbey iced the victory by hitting their free throws down the stretch.

**HPC: 79**

**Lenoir-Rhyne: 66**

**HPC 48 Gardner-Webb 47**

HPC then met Lenoir-Rhyne in the first game of the Gardner-Webb Rotary Classic. The Panthers combined deft passing and rebounding with solid defensive play. Odell Walker stole the show as he led the Panthers with 11 rebounds and a season high 29 points.

Sophomore Andy Young's strong front court play, which included 11 rebounds, helped HPC squeak by host Gardner-Webb 48-47 to take the tournament title. Young, a 6'3" forward from Gaithersburg, Md. received help from Walker who chipped in a game high 16 points.

**HPC: 74**

**Carson Newman: 85**

**HPC: 58**

**W.S.S.: 60 (OT)**

The Panthers next opponent was Carson-Newman in the Winston-Salem state Thanksgiving tournament. Once again Odell Walker shined. The senior forward sunk 18 points and pulled down 8 rebounds despite a disappointing 85-74 loss.

Against host W.S.S. the Panthers of HPC suffered a 60-58 overtime loss. The game was hard fought on both sides and could have gone either way. Shooting guard Danny Murphy, a 6'0" senior from Richmond,

Va., led the Panthers scoring with 18 points. Under the boards HPC was led by 6'3" small forward Dave Young who compiled 8 rebounds.

**HPC: 85**

**Barber-Scotia: 58**

The HPC Panthers improved their record to 4-3 by soundly trouncing Barber-Scotia in their second meeting of the year. The Panthers jumped out to a quick lead and built up a 55-22 margin at the intermission. Despite sloppy play on both sides in the beginning of the second half, court leader John Hamilton a 6'2" senior guard from Cullowhee N.C., pulled the Panthers together by controlling the tempo and displaying good passing and ballhandling skills. Center Hugh Gelston led all scorers with 21 points and a game-high ten rebounds. Murphy kept HPC rolling with outstanding shooting while 6'7" center Jim Hoffman added 12 points.

**HPC: 64**

**Pembroke: 72**

In HPC's first Carolinas Conference game of 1984-85, the Panthers suffered a hard-fought defeat at the hands of Pembroke State, 72-64. Danny Murphy was hot from the floor as he chalked up 17 points. This was not enough, however, as Pembroke St. was near perfect from the free throw

line down the stretch.

**HPC: 61**

**Francis Marion: 58**

**HPC: 66**

**Longwood: 63**

The Panthers of HPC bounced right back from their loss to Pembroke and defeated Francis Marion and Longwood to capture the Longwood Invitational Tourney championship. Center Hugh Gelston led all scorers in the first game with 22 points while grabbing 16 rebounds in the two games. Against Longwood, Murphy scored 17 points and Mike Johnson sparked the Panthers with deft passing and aggressive defensive play.

Coach Jerry Steele has been very pleased with his team so far. "We have a very strong bench," says Steele. "Because our players are unselfish and willing to be role players, we have been able to use nine or ten players a game."

## Fall Intramurals

### Come to Close

**JERRY MIN**  
SPORTS EDITOR

As exams approach so do the playoffs in this semester's intramurals sports, soccer and volleyball.

In soccer, the Sigs are on top with a 16-1 record, while team X is second at 15-2. The rest look like this:

PIKA-10-5

Fratricides-11-6

Lambda Chi-9-8

PIKES-8-9

Theta Chi-4-11

ITK-4-12

96er's-4-12

The top six teams will reach next weeks playoffs. Beginning Thursday (today) the mens volleyball double-elimination tournament begins as Buffalo X holds the top seed.

In the intramural track meet team X won with 41 points as they triumphed in the 440-relay, and the mile-relay while Glen Jones won the 440, and Red Morrison the 100.

15. Who's the only pitcher to start for both leagues in baseball's all-star game?

## Youth Fills Roster Of Lady Panthers

**JERRY MIN**  
SPORTS EDITOR

With seven freshmen on her roster, coach Nancy Little is a bit hesitant to predict what her Lady Panthers basketball squad will do this season.

Gone from last seasons 5-8 team are Ursula Watt, last years' conference female athlete of the year, and Melanie Hamilton. Both of these players will be replaced by outstanding freshmen. 5'6" Anita Staton of Mar-

shville, North Carolina will fill the shoes of Watt. In Anita's first two games this season she has averaged 19.5 points from her shooting guard position. Debbie Johnson, as the season progresses, should be

able to help the rebounding game. At 6'2" she is HPC's tallest girl.

Although freshmen make up the bulk of the roster, the main cogs of this season's team are a senior, a junior, and a sophomore.

Susie Ramirez is the team's sparkplug. As a senior she has 3 years of college experience to guide the freshman with. From her point guard position, she is an excellent ball handler, and very aggressive.

Junior Lisa Jones is the teams inspirational leader, along with Ramirez, and a quick, exciting player. Sophomore Angie Green, last season's second leading scorer, will be depended on heavily, and should produce.

Joining Ramirez, Staton, Jones, and Green as starters is another exciting freshman, Anne Meyers. "She plays smart," according to Coach Little, "as well as being able to play at all positions except point guard."

Last season the Lady Panthers failed to out rebound all of their opponents. They played tenacious defense

however, forcing opponents into 20 or more turnovers a game. Although not as good defensively this season, rebounding aspect should be helped by the freshmen. Coming to Jones' help will be 6'2" Johnson and 5'10" Rhonda Smith, of Mooreville, N.C.

Ramirez should be able to

rest as freshman Amy Boswell matures. A cast of good shooters and good rebounders loads the bench.

Sophomores Alison Moore and Cathy Cassidy or freshman Beth Luckhardt and Maria Ormond can fill the shooting guard spot while sophomore Julie Therberge can play either guard.

High Point is predicted to finish third in the Carolinas Conference and coach Little feels this is attainable. "It should be a tough conference season, but I feel we should do well. As the freshman gain experience and maturity, things could go very well."

# President Lucht Resigns

Dr. Charles Lucht announced that he had tendered his resignation

as President of High Point College, effective July 31, 1985.

Dr. Lucht noted that when he accepted the presidency three and one-half years ago, the Chairman of the Board had said his two top priorities must be to increase student recruitment and to improve church relations.

"Both these goals have been achieved," Dr. Lucht said. "The increase in our new student enrollment last fall shows we now have a highly effective admissions program which has given

the College a stable enrollment during a time of nation-wide decline in the traditional college-age population.

"As far as the College's church relations are concerned, they are now very positive—thanks largely to the work of Dr. Rodney Fulcher, Chairman of the Religion Department, and Rev. Ben Curry, Chaplain of the College," Dr. Lucht said.

As other major accomplishments that have taken place during his administration, Dr. Lucht cited a strengthened academic program, improved faculty status and faculty involvement in college

governance, strengthened college-alumni relations, expanded non-traditional offerings in the academic program, and increased financial stability.

"These are accomplishments of which we all can be proud," Dr. Lucht noted. "For their help and support in achieving these goals, I especially thank the College faculty and staff, and friends on the Board and in the community who have owked so hard to achieve them."

"I now am looking forward to the challenges of a new position and the excitement of new relationships."

Dr. Lucht noted. "My wish for the college and its leadership is continued growth and financial stability and even higher standards of academic excellence."

W. Roger Soles, chairman of the High Point College Board of Trustees and chairman of the college's Presidential Search Committee, today announced that the committee has established its first two criteria for selection of a new president for the college.

The committee, which met on Thursday, decided that any candidates for the presidency should have two qualifications: first, the can-

didate should be Methodist, and second, the candidate should be someone who has not served on the High Point College faculty or in the college's administration.

"We agreed that because of the college's close ties to The United Methodist Church, the President should be of the Methodist faith," Soles commented.

"In addition, we want the new president to have a fresh and open perspective regarding High Point College and the challenges it faces in the coming years. We feel that candidates who come from other situations should be able to lend the insight we seek."

## Career Alumni Day Planned

BY DEENA MCMURTRY  
Staff Writer

Find out what the world of work is really like. Make contacts. Attend the Career-Alumni Day activities on Thursday, February 7.

There will be 35 HPC graduates on campus that day to talk with students about accounting, computers, government, advertising, law enforcement and

other fields. They are all professionals and they could help you get the job you want. "Students will have a

chance, one-on-one, informally, to talk to interested alumni who can help them and give them tips," said Joyce Wainer, director of career development.

From 9:30 a.m. to 10 a.m. faculty members will meet the visiting alumni. At 10, the doors will be opened to students, to gather ideas and information about careers, or simply to establish contacts with people in a field.

"I encourage the faculty to come with their classes to

participate in this event," said Wainer.

Students, especially seniors, should also remember that business recruiters will soon arrive at the college. Recruiting will begin in February and extend through March. Recruiters from such businesses as Pilot Life and Milliken will visit.

Seniors will have the chance to be interviewed by prospective employers.

Seniors should register immediately in the Career Development Center for an appointment, Wainer said.

# OPINION

## Dream and Hope

Dehumanizing of the world population was set for 1984, according to George Orwell. The tendency now, however, is to laugh at Mr. Orwell's prediction and claim victory over another "bleeding heart" of the world. You had better wait a little longer though before you allow the ha-ha's to drown out Orwell's literary cries. While his date, 1984, may be wrong, his thought could be on target.

1984 truly left its mark on history. Geraldine Ferraro became the first woman candidate in a Presidential election. This was considered by many a giant step toward equal rights for women. However, this same event was also considered by just as many to be a major flaw in Walter Mondale's bid for the Presidency. Many justified their actions by saying "The country is not ready to put a woman in the White House". Oh, how things would have been different if Ms. Ferraro had

been barefoot, pregnant, and willing to follow. Who does she think she is anyway, the Queen? It seems kind of hypocritical when you think about it. You're right, who's going to think about it?

There were a few more events in 1984 which we should remember for sometime to come (at least the next 5 minutes). The famine in Ethiopia was a major force in discrediting Orwell's dehumanization theory. In just 10 short weeks the U.S. sent more than \$121 million worth of aid to Ethiopia. Now, how can you say society has become dehumanized after an effort like that? You can't, can you? Well, there are only an estimated 35.3 million Americans remaining who live at or below the poverty level. The poverty level for an American family of four is an annual income of \$10,178. These means that for 52 weeks someone in this family of four must make at least \$4.89 per hour

for 40 hours per week just to reach the highest level of poverty. A person who has an education of high school level or less and no trade skills is lucky if he finds any job which pays minimum wage. He shouldn't feel too bad though because a job making minimum wage only leaves him about \$3,210 below the top rung of the poverty ladder. Now, if this isn't enough to encourage people to work, what will? What do these people want, for crying out-loud? Poverty-relief aid maybe? You're right, what would a man like Jesse Carpenter do with poverty-relief aid? Probably something stupid like renovate his Washington, D.C. home. Carpenter's home was a city park bench, directly across from the White House. This bench served as Carpenter's home until the night he froze to death while sleeping in his spacious bedroom — downtown Washington!

The past year may have brought all of us some kind of problems. Yet as a whole, we received some inspirations for hope. People like Bruce Springsteen, Jeff Blatnick, and Mary Lou Retton proved to all who watched or listened to them that adversity can be overcome. Before the Los Angeles Olympics very few people had ever heard of Mary Lou Retton or Jeff Blatnick. Retton, the 4 foot, 9 inch 92-pound dynamo from Fairmont, W. Va., vaulted into our lives by becoming the first American woman to

win an Olympic gold medal in gymnastics. Her gold medal was not simply in some individual event either, no sir! Retton won the individual, all-around competition. Young girls across the country, some of whom had never before thought of becoming a gymnast, now dream of becoming the next Mary Lou.

Jeff Blatnick was as unknown as Retton until he arrived in L.A. Blatnick, only the second American to ever win a gold medal in Olympic Greco-Roman wrestling, just 2 years ago learned that he had Hodgkin's disease. He endured radiation treatments and operations in hopes of over-coming his problem with cancer and being able to fulfill his dream. While doctors will not claim that Blatnick is cured, Blatnick is still living. As for his dream, Jeff Blatnick accomplished what he set out to do, win a gold medal for his brother. Blatnick proved that where there is a dream, there is a pot of gold.

1984 also was a big year for Bruce Springsteen. This college drop-out appealed to everyone from the blue-collar steel worker in Pittsburgh to President Reagan (while campaigning in Springsteen's native New Jersey). Many consider Springsteen to be today's Bob Dylan because of the way he embraces a cause. "The Boss" sings about social conditions which face our nation. He offers no false answers, only a feeling of

concern for a society which has become cold in its attitude towards the less fortunate. During a recent concert in Greensboro, Springsteen sang about being "Born in the USA". A few minutes later he told the audience that "Just by being Americans, we have a lot of things to be proud of but we have a lot of things to be ashamed of also. Every American has the right to have a chance, a fair opportunity in life."

Springsteen also said, "Everyone has the right to dream and that no other person has the right to take away that dream. One simple dream should not be too much for a person to ask."

While in exactness Orwell's predictions may have been wrong, in essence his thoughts were correct. People, for the most part, no longer show any compassion for their fellow man. To a certain degree this lack of compassion is a form of dehumanization. If people stop caring about people, as we slowly but surely seem to be doing, in another 20 years all of Orwell's predictions will be true. Then what will happen to the human race? Maybe "Big Brother" will be big enough by then to help us. As for our 1984 problems, the answers appear to be well exemplified by Mary Lou Retton, Jeff Blatnick, and Bruce Springsteen — dream and hope.

The opinions expressed in "Letters to the Editor" are not necessarily those of the college or the majority of the student body, rather, those of the writers. The editorials printed in this publication are the expressed opinions of the Editors of the HI-PO.

The HI-PO welcomes letters from its readers on topics of current interest. Letters must be typed, signed and an address must be included. If warranted, requests for anonymity will be honored. The HI-PO reserves the right to edit letters as seen necessary.

The year 1984 and "Big Brother" have vanished forever. Ed Cannady (Director of Campus Safety), however, who acts like a big brother to many of us, remains here at High Point College. I would like to thank Ed as Chairman of the Student Union, as a brother in Pi Kappa Alpha, and as a student at High Point College for supplying "Sober Vans" to college and fraternity functions.

Last year the Student Union took HPC vans to the Halloween Dance and a bus to the Homecoming Dance. As Chairman of the Student Union I was scathed with ridicule for providing this transportation by certain members of the faculty and

administration. Among other things, these individuals said that by providing transportation to events I was encouraging alcohol consumption/abuse. Followers of this sort of "logic" fail to recognize several facts. First, that students, parents, doctors, lawyers, and even college administrators will drink at social events and will drive. Not providing alternate transportation only puts more drunk/impaired drivers on the road.

Second, many HPC students do not have cars, mopeds, skateboards, or other modes of transportation to get themselves to off-campus social functions.

Third, the national trend has been to provide transportation for persons who have had too much to

drink. Organizations such as SADD, MADD, and "Dial-A-Ride" have been leaders in this effort.

I am glad to see HPC now taking the initiative to follow suit. I would like to thank pragmatists (the antithesis of those persons in ivory towers) like Ed Cannady for their accomplishments.

A special thanks also goes out to Dr. Al Sistrunk, Dean of Students, who although he has only been at HPC for a semester, has been supportive in this effort of keeping drunk drivers away from the wheel and putting them in the back seat where they belong.

Carting around wasted people doesn't solve all of HPC's drinking difficulties — but saving people's lives is a good place to start.

## OPINION

# Computer Center Open House Held

BY RICH MILLER

An open house in the new HPC Computer Center will held January 18 for faculty members. "The main purpose of the open house was to introduce faculty members to the services we are providing," said Anita Bowman, center director. "Our ultimate goal is to get the faculty and their students involved in the computer services we provide," Bowman said.

The Computer Center, located in the Haworth Hall of Science, is a recent project which started last June. In the past there were just a few computers in various places around campus. Bowman says that college officials felt the computers would be put to more use if they were brought together in one place where faculty and students would know when they would be

available.

There are 32 computers in the center: nine Apple II's, 19 Apple II Pluses and seven Data General terminals which are connected to the Data General system.

Computer workshops will soon be available for both faculty and students at the center. Faculty members will get instruction in the Command Line Interpreting program, the Wordperfect program, the Mathplan Works program, and the Appleworks program. Students can learn the Appleworks program and Data Plotting and Graphs.

A Computer Information Systems major, to begin next semester, was approved by the faculty at its last meeting. The major will be available to incoming freshmen. Students currently taking computer courses

will not be able to enroll in the new major because they could not complete the required work before the end of their senior year, Bowman said.

The center is staffed by six students: Jane Bowser, Rich Ratanapruks, Bill Cotham, Ginger Budd, Marwan Shaban and Jim Hires.

"Our main job is service," said Bowser. "We are here to find software and to answer any questions that a student or faculty member might have."

Operating hours at the center have been extended since last semester:

Mon.-Thurs.—8am-10pm  
Fri.—1pm-5pm  
Sat.—10am-2pm  
Sun.—5pm-10pm

The center is staffed at all times except from 8 a.m. to 1 p.m. Monday through Thursday.

## OVERSEAS EMPLOYMENT

WORLD-SIDE OPPORTUNITIES FOR MEN AND WOMEN! JAPAN - EUROPE - AFRICA - AUSTRALIA - THE SOUTH PACIFIC - SOUTH AMERICA - THE FAR EAST. EXCELLENT BENEFITS, HIGHER SALARIES AND WAGES! FREE TRANSPORTATION! GENEROUS VACATIONS!

More than 300,000 Americans — not including members of the armed services — are now living overseas. These people are engaged in nearly every possible activity...construction, engineering, sales, transportation, secretarial work, accounting, manufacturing, oil refining, teaching, nursing, government, etc.-etc. And many are earning \$2,000 to \$5,000 per month...or more!

To allow you the opportunity to apply for overseas employment, we have researched and compiled a new and exciting directory on overseas employment. Here is just a sample of what our **International Employment Directory** covers.

(1). Our **International Employment Directory** lists dozens of cruise ship companies, both on the east and west coast. You will be told what type of positions the cruise ship companies hire, such as deck hands, restaurant help, cooks, bartenders, just to name a few. You will also receive several Employment Application Forms that you may send directly to the companies you would like to work for.

(2). Firms and organizations employing all types of personnel in Australia,

Japan, Africa, The South Pacific, The Far East, South America...nearly every part of the free world!

(3). Companies and Government agencies employing personnel in nearly every occupation, from the unskilled laborer to the college trained professional man or woman.

(4). Firms and organizations engaged in foreign construction projects, manufacturing, mining, oil refining, engineering, sales, services, teaching, etc., etc.

(5). How and where to apply for overseas Government jobs.

(6). Information about summer jobs.

(7). You will receive our Employment Opportunity Digest...jam-packed with information about current job opportunities. Special sections features news of overseas construction projects, executive positions and teaching opportunities.

### 90 Day Money Back Guarantee

Our **International Employment Directory** is sent to you with this guarantee: If for any reason you do not obtain overseas employment or you are not satisfied with the job offers...simply return our **Directory** within 90 days and we'll refund your money promptly...no questions asked.

### ORDER FORM

International Employment Directory  
131 Elm Dr. Dept. T21  
Centralia, WA 98531

Please send me a copy of your **International Employment Directory**. I understand that I may use this information for 90 days and if I am not satisfied with the results, I may return your **Directory** for an immediate refund. On that basis I'm enclosing \$20.00 cash... check... or money order... for your **Directory**.

# Dance, Voice Minors Proposed

BY JANINE JOSON

ENTERTAINMENT EDITOR

The Fine Arts Department began with building the High Point College Singers and offering credit for those students who participated in the High Point Community band. Theatre 81, a theatre dance class, was also offered for student interest. All were fairly successful except for the instrumental portion, said Lundrigan. "Since initial interest provoking steps have shown interest in these areas, we feel satisfied in offering minors in dance, voice, and instrumental music. The proposals show a change in attitude with the Arts becoming a vital, major part of the college. If the college wants a strong Arts program, the proposals must go through," Lundrigan claimed.

Although the faculty is waiting to hear the reaction from the Board of Trustees Educational Policies Committee, Paul Lundrigan, acting chairman of the Fine Arts Department, said, "By mid-March we hope to have the plans approved so they can be included in the new school catalog."

According to the pro-

cedure for curriculum addition, the proposals were first submitted to the Faculty Educational Policies Committee. They approved the proposals with the condition that they go to the Board of Trustees Educational Policies Committee for their reaction. "We have not yet heard from the Board of Trustees Committee, but hope to hear from them soon," said Lundrigan.

Since 1980, the Fine Arts department has been work-

ing on curriculum changes. After an informal survey was conducted including colleges around the country and in this area, they decided that a program dealing with musical theatre would be popular to market because of the popularity with musicals, according to Lundrigan. He went on to add that a total revamping of the program was too expensive, so they would try to phase in changes a little at a time.

## Student Works Exhibited

High Point College students are being given many opportunities to show off their talents in the fine arts department. Currently, several students' works are on display at the Holt-McPherson Center Gallery on Main Street.

It is a diversified exhibition featuring silkscreen prints, woodcutting prints, drawings, advertising layouts, and a painting.

Calloway, Margaret Gutterrez, Charles Marr, Bunny Wagner, George England, Scottie Carter, Debra Frazier, Tracy Holden, Carolyn Binkley, Jim Hall, Janet Temple, and Robert Campbell are the students whose works are on display. Their works were selected by Mrs. Jane Burton and Mr. Raeford Porter, both professors of several art classes from which these works were chosen. Burton states, "This is a good way for students' works to be seen by the community."

## Dance, Voice Minors Proposed

BY JANE HARRIS  
The University of North Carolina at Charlotte is considering the proposal to add dance and voice minors to the college's curriculum. The proposal was made by the faculty of the School of Arts and Sciences. The faculty members believe that adding these minors would provide students with a more well-rounded education and allow them to explore their interests in dance and voice. The proposal is currently under review by the university's academic senate.

# PANTHERS 7-4 IN CONF...

## HPC - 50 BELMONT-ABBEY 46

The Panthers of High Point College snapped their four-game losing streak on January 10 by defeating a tough Belmont-Abbey team 50-46. Senior Dave Young led a balanced Panther scoring attack with 12 points while senior forward Odell Walker pulled down 8 rebounds. The win moved the Panthers' record to 9-8 for the season.

## HPC - 73 CATAWBA - 59

The Panthers then hosted the defending Carolinas Conference Champions from Catawba, only to defeat them 73-59. The first half was a seesaw battle with Jim Hoffman and Ron Tellyish sharing the center responsibilities the Panthers were able to stay close as the two teams headed to the dressing room tied at 32-32. Catawba came out hot in the second half jumping out to a 43-39 lead. With 12:19 left to play, 6-0 guard Danny Murphy sparked HPC with a steal and assist to sophomore Andy Young who finished the fastbreak with a slam. HPC ran off 15 unanswered points as the Panthers went up 54-43. Despite missing free throws down the stretch, HPC coasted to an easy win. Dave Young excited the crowd with a thundering game ending jam.

## HPC - 53 ELON - 51

HPC boosted its conference record to 4-3 with a hard-fought victory over rival Elon. The Fightin' Christians of Elon jumped out to an early 12-4 lead before the Panthers could get on track. HPC then scored 10 unanswered points to go ahead 14-12 with 10:06 remaining in the half. With 6:30 left freshman guard Mike "Ice" Johnson stole an Elon pass then dished off to Andy Young for the easy lay-up to tie the game at 20-20. The game stayed deadlocked as the two teams headed to the locker room tied 28-28. The game stayed close in the second half also. The Panthers moved out to a five point lead, 38-33, with 11:04 remaining when Danny Murphy hit a 20 foot

jump. With only 1:42 left to play Andy Young drove the lane and drew the foul as he dunked over two Elon defenders. Young completed the three-point play as HPC squeaked to a 53-51 win.

## HPC - 63 PFEIFFER - 70

HPC then hosted the Falcons of Pfeiffer only to have their three-game winning streak ended, 70-63. HPC centers Jim Hoffman and Ron Tellyish had a tough time handling a 6-8 Craig Cordes of Pfeiffer who scored 24 points and pulled down 9 rebounds. The loss dropped HPC to 11-9 overall and 4-4 in the conference. The Panthers never led in the game. Pfeiffer went up 26-21 at the intermission. With 5:28 left in the game the Panthers pulled within seven after a 22-footer by Danny Murphy and a three-point play by Odell Walker on a fast break. HPC could not pull off the victory, however, as Pfeiffer continued to hit their free throws down the stretch. Despite the disappointing loss, Walker shined for the Panthers by scoring 17 points and snagging 11 rebounds.

## HPC - 42 (OT) ACC - 40

The Panthers bounced right back after their loss to Pfeiffer to defeat Atlantic Christian College 42-40 in overtime. Both teams struggled throughout the game to get on track. ACC had moved on top 38-32 with 3:32 remaining in regulation before 6-3 forward Odell Walker hit six straight points to tie the game at 38-38 and force the overtime. With only 32 seconds left in the overtime period, point guard John Hamilton controlled the ball until he found Dave Young breaking free under the basket. Hamilton hit Young underneath who banked the game - winner off the glass with just 2 seconds on the clock.

## HPC - 78 LENOIR-RHYNE - 72

The Panthers continued their winning ways by stopping Leñoir-Rhyme 78-72. 6-8 center Jim Hoffman sparked HPC with 8 points early in the first half. With

5:17 left in the opening period, 6-2 guard John Hamilton extended the HPC lead to 29-20 with a 15 foot jumper from the top of the key. HPC went to the locker room with a 39-32 lead. With 11:29 remaining in the game, Leñoir-Rhyme pulls within one, 55-54, following a fast break lay-up. Senior Danny Murphy was the man of the hour for HPC as he scored 7 points and pulled down 3 rebounds during the last 1:30 of the game. The victory boosted HPC's record to 13-9 overall and 5-4 in the Carolinas Conference.

## HPC - 84 PEMBROKE ST. - 73

The Panthers extend their winning streak to three games by soundly defeating Pembroke State 84-73. Seniors Odell Walker and Dave Young dominated for the Panthers in the early going. With 2:44 remaining in the first half, Walker took a pass from Young and made the lay-up as he was fouled. Walker sank the free throw to put the Panthers up 35-25. At the 1:27 mark Dave Young was fouled as he hit a turn around jumper. His three-point conversion made it 38-25 HPC. Pembroke came storming back in the second half and cut the HPC lead to just a single point, 46-45, with 14:10 remaining. From there on, however, it was all Purple and White. Behind the outside shooting of Danny Murphy and ball handling skills of John Hamilton, the Panthers extended their record this season to 14-9.

Sophomore Andy Young aikes over an Elon player for the dunk.

Andy Young takes the pass from brother Dave and drives to the hoop.

## HIGHS FOLLOWED BY LOWS IN BASKETBALL

### Jerry Min Sports Editor

It can best be summed up as a topsy-turvy season for the High Point College Lady Panthers basketball team. Some tough losses have been followed by some hard fought victories.

The Lady Panthers opened the New Year with a lose but came back to win five in a row. Despite a 27 point performance by Anita Staton, the Panthers lost Jan. 6th to Campbell, 72-68. Things began to look up however after this.

**High Point-68 Mars Hill-63**  
Led by Anita Staton and her 23 points, and the 11 rebound performance of Anne Meyers HPC won.

**High Point-77 Leñoir-Rhyme-72**  
Senior Susie Ramirez and Freshman Meyers each contributed 16 points for the Lady Panthers.

**High Point-67 Pfeiffer-66**  
Ramirez scored 6 of her game high 16 points in the first 4 minutes of the game

as HPC opened a 10-2 lead. A quick defense allowed the girls to score a lot of transition points as they increase their lead to 20-9.

Sloppy play however allowed Pfeiffer to battle back to within two, 28-26. HPC increased this to a 35-28 halftime lead.

The Lady Panthers came out gunning in the 2nd half, opening a 57-39 lead. Sloppy play in the form of turnovers again allowed Pfeiffer to

Two seniors on the High Point College soccer team have been named to two All-American soccer teams for the 1984 season.

Angelo Stewart, a four-year starter from Alexandria, Virginia, was selected NAIA All-American Honorable Mention. Stewart tallied four goals and had three assists from his sweeper position on defense. Bobby Rapp, a four-year starter from Commack, New York, was named to the National Soccer Coaches Association NAIA All-America team. He scored four goals and had four assists from his stopper position on defense.

Both players had previously been selected All-Carolinas Conference, All-District 26 and All-South.

#### Jerry Min Sports Editor

High Point College continued its winning ways in soccer indoor play as they won the UNC-Asheville tournament for the second year in a row and placed third in the Elon College Tournament.

In the UNC-Asheville Tournament HPC defeated Limestone 6-2, Brevard 4-2, tied Tennessee 3-3, beat the Clearwater Florida Chargers 2-1, Greenville College 3-2 and Radford University 5-0. In the semi-finals High Point faced King College of Tennessee. King finished 4th in the NAIA national tournament. Tied 2-2 after regulation High Point won 3-2 after 2 overtimes. They then faced Carolinas Conference rival Catawba and defeated them 2-1. Senior Angelo Stewart was named tournament most valuable player and sophomore Joe Crupi also made the all-tournament team.

*Continued From pg. 6*

crawl back, and actually take their first lead 61-59. Baskets by Staton and Junior Lisa Jones brought HPC to within one 65-66. With 9 seconds left Staton was fouled, and sank both free throws for the 67-66 victory.

#### High Point-64 Catawba - 58

Sophomore Angie Green contributed 16 points and 9 rebounds as HPC won their fourth game in a row.

**High Point-83  
Atlantic Christian-57**  
Again Green lead all scorers with 20 points as HPC went ahead 27-19 only to let ACC draw close by halftime. Once again in the second the Lady Panthers came out firing and opened a 45-34 lead that ACC could never recover from.

**High Point-63  
Pembroke State-95**  
Despite 18 points by Ramirez, HPC's five game win streak was snapped by Pembroke.

**High Point-61  
Elon-66**  
Green lead the team with 22 points and 15 rebounds only to see Elon win.

**High Point-50  
Guilford-69**  
20 points by Green just wasn't enough as HPC dropped its third straight.

#### High Point-76 Lenoir-Rhyne-67

High Point proved too much for Lenoir-Rhyne again. Though a much taller team, Lenoir-Rhyne was simply out hustled by HPC and forced into many turnovers late in the game as The Lady Panthers coasted to victory.

**High Point-80  
Wingate-72**  
Anita Staton paced HPC with 24 points and Angie Green chipped in 11 rebounds as High Point won its 3rd in a row.

**High Point-79  
Catawba-72**  
Staton again led all scorers with 22 points while Lisa Jones contributed 9 rebounds as the Lady Panthers defeated Catawba for the second time and recorded their 4th straight victory.

As the season moves into February, HPC is gaining that much needed experience. Experience that will be much needed as the tournament and playoffs approach.

# Four to Represent HPC in Miami

By Rich Miller

Staff Writer

Bill Cotham, Jane Bowser, Joseph Smith, and Kritich Ratanaphrucks of High Point College have been selected to attend the sixth American Chemical Society's National Student Affiliates Research Symposium in Miami Beach on April 29 and 30.

The undergraduate chemistry majors wrote four of the 37 papers accepted by the ACS from colleges across the nation. "I was surprised we had that many accepted, not that I doubted

our students' capabilities, but that's alot to be accepted from one school," said Lyman Rickard, who convinced the students to submit their papers.

The four students, who are each graduating with honors in May, will be required to submit a 200-word abstract and give a 10-20 minute oral presentation. Each presentation will be followed by a five-minute discussion period.

Kritich Ratanaphrucks will discuss the relationship between Molecular Weight Distribution of Poly

(Methylstyrene) and Applied Alternating Current. Bill Cotham will discuss the procedures on Interfacing a Fisher 1200 Gas Chromatograph to an Apple II plus Microcomputer. Joseph Smith will give a Hammett study of the Imide/Anhydride competition in the transacylation of Alph-Beta Amic Acids.

Jane Bowser will present a discussion on Immobilized Enzyme Probe for Alcohol using an ion selective electrode.

"We were very surprised when we found out we were

accepted," said Jane Bowser. "We can't wait to present our papers. It should be a good celebration for graduation," she added.

Mr. Rickard says each student got where they are because of hard work and a real sense of dedication to what they are doing. He also feels that they will do excellent against the competition in Miami. "I think this will improve our reputation with other schools. High

Point College will be noticed," added Rickard.

The total trip will cost High Point College 124 dollars. That includes travel, meals, lodging, and registration for the faculty. Registration fees for those students whose papers were selected is being paid by the ACS. Faculty members attending the trip are Mr. Rickard and Dr. Grey Bowman. Dean of the College, Dr. Bearce will pay for the trip out of the college fund.

# Student Faces Charges

By Benji Baity

Staff Writer

According to High Point Police Department records, Saad Ahmed, 24, was arrested in HPC's Belk Dormitory February 10th.

Ahmed was arrested on charges of assault on a police officer, communicating a threat, and malicious damage to college property.

Ed Cannady, Director of Public Safety, said that on February 10th a member of

HPC's campus security force responded to a call in Belk Dormitory. According to Cannady, the security guard, Linda Bennett, encountered a situation which required assistance from the High Point Police Department.

When asked to detail the situation Bennett encountered, Cannady said, "Until Dean Sistrunk (Al Sistrunk, Dean of Students) okays the release of that information I am not at liberty to comment."

When asked to detail the situation Sistrunk said, "There will be no story. The matter is a private one between the student and the college and I have no comments to make."

According to the police report, Ahmed struck Patrolman B.L. Furr on the right side of his face. Furr was taken to High Point Memorial Hospital, treated for a bruise on his right cheek and released.

A hearing for Ahmed is set for February 26th in the High Point District Court.

## Four to Represent HPC in Miami

By Bob Allen

The four students who will represent High Point College at the annual meeting of the National Association of Christian Colleges and Universities (NACCU) in Miami, Florida, are Bob Allen, John Smith, and two others. The meeting will be held from October 15-18, 1971.

Allen, Smith, and the other two students will represent HPC at the meeting. They will be joined by representatives from other Christian colleges and universities. The meeting will be held at the Biltmore Hotel in Miami.

The meeting will be held from October 15-18, 1971. It will be held at the Biltmore Hotel in Miami. The meeting will be held at the Biltmore Hotel in Miami.

## Farrah Divorces Pregnant Alien

"PREGNANT MAN GIVES BIRTH" was the headline I saw on *The Star* while at the 7-11. Next to it, on the beloved, world renowned *National Enquirer*, was the headlining article about how to identify aliens from outer space if you think you encountered one. Along with these two tabloids were *The Sun* and *The Examiner*. Week after week after week these papers appear with equally ludicrous stories. Each week there are stories about aliens, miracle cures, fantastic new weight loss secrets, and other equally fantastic stories. What amazes me is not that they continually claim to get the "exclusive", but that they appear in every major supermarket, not just convenience stores. They sell literally millions of copies. I can only hope that people buy these as a means of comic relief, and really aren't that gullible. "90-Year-Old Woman Gives Birth to Triplets," "I was Haunted By Elvis' Ghost," "10-year-old Girl Gives Birth," "Raw Fish Cures Arthritis," are headlines that I've seen previously.

I can't understand what kind of person would even print this type of paper. Only a money-starved, immoral, yellow, low-life vermin would stoop to these lows to sell papers. I guess that's why they have been hit with so many law suits.

Movie stars and other celebrities are favorite targets of these tabloids. "Stories" about their marriages, divorces, and affairs are always front page material. These stories usually include a picture that was very poorly fabricated to fit that particular story.

These tabloids do appear to be doing sensational. More than a few times I've seen "Sorry, Sold Out" at newsstands that carry the *Enquirer*. I guess that's enough prompting to continue to produce this type of journalistic mockery. They do serve one useful purpose though ... They give me a greater appreciation for the job I do.

## Letters To The Editor...

Dear Editor,

One of the things I'm most proud of at High Point College is our athletics. We have a very good athletic program, and I hate to see things done that undermine that program. Cheerleaders are a very important part of basketball games. The mood of a crowd can be controlled by good cheerleading. The mood can also be destroyed by bad cheering. When High Point played Atlantic Christian College here at HPC, there was an ugly incident where the ACC coach exchanged words with an official and was ejected from

the game. While it's terrible for a coach to act this way, it is even worse to see a couple of High Point College Cheerleaders chanting, "Out. Out. Out.", urging the crowd to chant also. What I saw in this act was not pride in High Point basketball, but contempt for Atlantic Christian. I was embarrassed and angered at this because it showed a lack of professionalism, and more important, a lack of respect. Another incident occurred during a HPC Women's game against Elon, when a cheerleader was given a technical for calling the

referee a faggott. I spent two enjoyable years of cheering for High Point College, and I really hate to see behavior of this type. Perhaps what is needed is a cheerleading coach. An advisor does not have enough time to dedicate himself to the squad. Perhaps a coach can teach professionalism and respect in the cheerleaders. I want to see the continued growth of the cheerleaders, and I believe that a coach would help the squad behave more like cheerleaders, not clowns.

Michael Siegfried

# Safety Officer Assaulted

BY CAROLYN BINKLEY  
ASSISTANT EDITOR

An HPC safety officer was assaulted February 8 at approximately 4:40 a.m. while on her patrol in North dormitory. The officer, Cathy Forrest, noticed a storage room door open with a light on inside. The room had been checked and locked earlier by officers Forrest and Linda Bennett.

Forrest opened the door to see if anyone was there, and was grabbed by the hair and thrown to the floor. The subject scratched her left arm and chest. The subject then fled the scene immediately.

Officers outside the building and High Point police were unable to locate the subject, even after checking every room in the dorm.

According to Ed Cannady, Director of Campus Safety, "As a result of that incident and others, security has once again been tightened up." Students have been hired to stay in Women's lobby and Yarkin lounge to check i.d.'s of persons entering those buildings. "This person could have been a guest of someone, was late leaving, and tried to escape the safety officer; although trying to escape a \$5.00 fine

by assaulting an officer is a very serious matter."

Also, Cannady said, "I'm disturbed that students may prop open doors to the dorms after hours. It makes the whole dorm vulnerable. And in one night's check at 4:00 a.m., we found thirty doors in the Women's complex unlocked. We apologize for any inconvenience; we don't want to harass anyone. But it's our job to make this a safe educational environment for our students."

Officer Forrest has since returned to duty, and the matter is still under investigation.

## Students to Help Choose President

By Lora Songster

Special to the Hi-Po  
HPC students will help select a new president for the college.

In a telephone interview, Dean of Students Albert Sistrunk said that Bill Frampton, SGA president, had asked the announced committee of trustees and faculty members if students could take part in the search process.

Frampton was told that the SGA might appoint an advisory committee of students, according to Sistrunk. The advisory committee would present its opinions about the criteria and procedures for choosing the new president, and might interview the final candidates.

According to Sistrunk, the SGA is at liberty to appoint the advisory committee now or at a later stage of the search process. The SGA is also free to appoint as many students to the committee as it chooses.

Attempts to contact Frampton were unsuccessful.

In other action, the SGA, during its January 23 meeting, denied a request by Dennis Smith for \$1,000 to buy equipment for the newly-organized Pep Club. The Pep Club, organized to help support HPC athletic teams, reportedly has 43 members. The SGA was concerned about the club's dedication and effectiveness.

# Communication System Updated

BY CAROLYN BINKLEY  
ASSISTANT EDITOR

High Point College recently purchased a \$16,000 communications system to be used by the Safety Office, Maintenance, and Project Escort volunteers. The system operates from a base station repeater which is located in the tower of Roberts Hall. The two-channel UHF allows for two-way communication in the

High Point area. The college has a special channel, with the license already FCC approved. Anytime the telephone rings in the Safety Office, the officer on duty has a radio which will ring and can be answered, no matter where the officer is. There are seven radios, which cost \$800 each.

According to Ed Cannady, Director of Campus Safety, "I see some real progressive

moves on the part of the college to provide safety for the students. This system may not be the cheapest, but it does the best job for the least amount of money. It's state-of-the-art; police departments and businesses don't have systems this nice.

"In the past three years, I've received complaints from students and faculty alike when they couldn't

reach safety officers for some reason. The system wasn't reliable; at times, the system was out for an entire weekend. After studying the need, we went to the Board of Trustees with a request to upgrade the system for Safety and Maintenance as well.

"The new system will save lots of resource allocation and man-hours money, as well as saving time and leg

work. Most importantly, it will speed emergency responses."

To get in touch with a Safety Officer now, you can dial 883-4016, the twenty-four-hour a day emergency number. The officer will proceed to your location and call for assistance if necessary. Campus extension 295 is the regular business phone.

## Flasher Apprehended

BY CAROLYN BINKLEY  
ASSISTANT EDITOR

On the night of February 16, at 1:45 a.m., safety officer Ginger Foy apprehended a "flasher" near the maintenance building. According to the police report, as she approached the man, he exposed his hindquarters and then the front portion of his anatomy. Officer Foy stated, "It happened four times. He also exposed himself to one of the RC's." The man, Wayne

Bookstaver, was the guest of a student in McCulloch dorm.

The police arrived and charged the man with indecent exposure. "The fact that some female students saw it bothered me," said Foy. "I thought, 'What would their parents think? What if it was my daughter?'" According to Foy, most of the big problems on campus are caused by non-college students. "Students don't realize

they're responsible for their guests. This certain boy gave me a hard time two nights in a row, and he was without his host both times. It was uncalled for." Bookstaver remained in Guilford County jail until he was allowed bond at 11:00 a.m. Monday. The magistrate told him never to return to the campus again.

"I do not like to be put in this position," Foy said. "But I do what I feel is in the best interest of the college."

BY CAROLYN BINKLEY  
ASSISTANT EDITOR

On the morning of February 11, Zeta Tau Alpha sorority reported the theft of items from their hall to the Safety Office. According to Zeta president Elizabeth Daisey, the following items were taken from the display area: 1) a "Welcome" banner with white letters on a blue background (approximate value: \$150.00); 2) the Zeta tapestry with the Zeta crest on a white background (ap-

proximate value: \$35.00); 3) a carved wooden dove on a wooden plaque (approximate value: \$75.00); and 4) a framed 5" x 7" cross stitch of a bear (approximate value: \$25.00).

According to a Safety Office report, these items are normally on display on Zeta hall. Daisey felt that there was a possibility that the items may have been removed by another sorority that had some ill feelings toward the Zetas. The investigation is continuing.

## Reports Tells

# Shaw to Perform at HPC

BY BOB ROSSI  
CONCERT CHAIRMAN

Tommy Shaw, the blonde mastermind behind the rock group Styx will be performing in concert at High Point College on Tuesday, February 26.

Tommy Shaw. You say the name and it quickly brings the uninhibited spirit of live rock 'n roll. Tommy Shaw...stage left on the massive concert tours Styx trouped across the world for the better part of a decade. The music, "Crystal Ball", "Renegade", "Blue Collar Man", "Pooling Yourself", and "Too Much Time on my Hands", are the gems that stand out in the minds of millions.

The flashy guitarist/vocalist is in the midst of a successful solo tour, opening for Hall and Oates and promoting his new debut solo album on A&M records "Girls with Guns."

Shaw is backed by an exciting four-man band, featuring former Elton John and "Wings" drummer Steve Holley and one of America's most noted saxophonists, Richie Cannata, best known as a member of Billy Joel's band.

State-of-the-art "Coliseum" sound and lighting will be featured for the concert at HPC Memorial Auditorium and the explosive show promises to hear Tommy Shaw perform material from "Girls with

Guns" plus all the traditional Styx favorites.

Opening the show will be North Carolina's own "Arsenic." The three-man band will deliver a set of original rockers and cover tunes beginning at 8:00.

Tickets for Tommy Shaw are \$7.50 and are available at Marty's Records-Westchester Mall, Gerry's Records-High Point Mall, Peaches-Greensboro, and the box office on the night of the show only.

Doors open at the HPC Memorial Auditorium at 7:00 p.m. and show time is 8:00. All seats are General Admission so it is suggested to get there early for the best seats. Don't miss Tommy Shaw in concert Tuesday, February 26, at HPC.

## Bowman

## Speaks on Sci-Fi

By Deena McMurtry  
Staff Writer

Gray Bowman, professor of chemistry at High Point College, recently spoke to members of the Writer's Club on science fiction literature, a subject which highly interests him.

His first interest in Sci-Fi began as a child. His favorite radio program was one called, "Big John and Little Sparky," and then his interests moved to the reading of author Robert Heinlein's books. According to Bowman, Sci-Fi authors had a hard time making a living at writing several years ago. Most novels only sold for about 10

cents on newstands. "Heinlein was one of the first authors to make a living writing science fiction books," said Bowman.

"Sci-Fi is an interesting area of literature," said Bowman. He encouraged students to submit works to the editor, Stan Schmitt, of the science fiction magazine, Analog, for constructive criticism.

Some of the main themes that Sci-Fi authors write about are: travel through time and the prediction of the future.

At present, Bowman has completed the introduction of a Sci-Fi story and continues to read literature on the subject in his spare time.

High Point College has recently hired someone to fill the new position of Director of Resident Life and Student Activities. Robert A. Miller, of Northern Arizona University, will begin work at HPC on March 11.

Miller's responsibilities will include the resident life, the resident halls' facilities, assignment procedures, and regulations. He will work directly with the RA's and counselors and the Student Union. One of Miller's first tasks, according to Al Sistrunk, Dean of Student Life, will be to coordinate the selection of the resident hall staff for next year.

Miller has previous work history in the area of residency at Northern Arizona University, Southern Methodist University, and Western Illinois University.

"We are pleased to have someone of his caliber joining us at HPC," said Sistrunk. "I want and encourage all students to talk with him about any specific problems," concluded Sistrunk.

## CONTINUE YOUR EDUCATION WITH THE ARMY COLLEGE FUND.

So you're started college and you want to go on. You have the ability and desire but need the money. The Army College Fund can help you continue the education you've started.

By qualifying in an Army skill that entitles you to the Army College Fund, you'll be able to start a special savings plan. When you set aside part of your pay each month, the government will match your savings at least five to one. With a two-year enlistment, you'll accumulate \$20,100. With a four-year enlistment, you could save as much as \$26,400 for college.

Keep on growing in college with the Army College Fund.

## Take to the Slopes

By Ted Coryell

Special to the Hi-Po

What's big, white and only works in the winter? Yes, you guessed it, ski slopes. And they are alive and working in North Carolina.

HPC students assaulted Ski Hawksnest on Wednesday, January 30th and Sugar Mountain on Thursday, February 14th on Student Union sponsored ski trips.

The Ski Hawksnest trip was led by Dr. Al Sistrunk, Dean of Students, who, although he spent a large amount of time on the snow rather than on his skis, said "I had a great time and really enjoyed being on an outing with students."

The skiing conditions were "excellent" with over a thirty inch base and six inches of fresh snow. The temperature was thirty degrees, rather balmy for skiing, with little to no wind.

Terry Best, sophomore Home Furnishings Major, saw the trip as more of a social event stating that the

"skiing was all right, but personally, I liked the ski-bunnies." (Reporters note: "Ski-bunny" is skier jargon for an attractive female skier).

Because so many people wanted to go on the first ski trip, Student Union Recreation Chairpersons Kevin Connolly and Kathy McCullough hired a bus for 46 persons to go to Sugar Mountain for a second trip. However, only 27 persons attended the trip.

Kevin Connolly said, "It's difficult for me to understand why so many people wanted to go on the second (trip) but not the second...but I'm glad that everyone who went had fun — it makes it worth all the heartache." Kathy McCullough added, "I wish there had been more participation."

The Sugar Mountain trip had similar skiing conditions with a forty inch base and from six to twelve inches of fresh powder.

Veteran skier Jeff

Chomszack, who is a member of the Ski Patrol and from upstate New York, commented on the trip saying, "For fifteen bucks you can't beat it."

Although there was a lack of participation on the second trip, it seems that both trips were successful with the skiers quoting:

"The most exhilarating experience I've ever had since..."

"It was well worth the money and I'd do it again."

"Long and hard but not very steep."

"I had a blast."

"I had a wild time because the ski conditions were excellent and the people that went were great."

"The snow's not as soft as it looks."

"I had a fantastic time—before, during, and after."

"Awesome conditions, tough course, and the trip was coordinated well."

"It was really fun but 'Big Al' kept gettin' in my way..."

Scruffy graduated from High Point Dog Obedience Club's Beginner's Class on June 1, 1984. He attends advanced sessions in obedience every Friday night. He won his first qualifying ribbon in Pre-Novice Competition with a score of 183 of 200 points at the Raleigh Dog Fancier's Obedience Match on November 11, 1984. He is working toward his All American Companion Dog Title.

# Panthers Ready For Conference Tourney

By Danny Beall  
SPORTS EDITOR

The HPC Men's Basketball team has high hopes as they prepare to take their 18-11 overall record into the Carolinas Conference Tournament on February 28. The Panthers, despite the loss of center Hugh "Winky" Gelston and the decision to redshirt freshman guard Anthony Bell and transfer center Terry Shackelford, have amassed a strong 10-6 record in the Carolinas Conference and hold a 14-7 mark against District 26 competi-

tion. The majority of the punch this year has come from HPC's strong senior class. 6-0 shooting guard Danny Murphy, 6-2 point guard John Hamilton, 6-3 guard/forward Dave Young, and 6-3 forward Odell Walker have accounted for 66% of the Panthers scoring this year, 48% of the teams total rebounding, and 75% of the assists. Hopefully, these impressive seniors will be able to lead the Panthers to a strong showing and possibly a Carolinas Conference Tourney title.

## HPC - 70 CATAWBA - 71

The Panthers fell just short in this crucial conference game despite a 19 point game by senior forward Odell Walker. Catawba avenged their previous 14 point loss at the hands of HPC with good outside shooting and clutch free throws. Jim Hoffman also had a good game despite the outcome. The 6-7 center played tough inside and pulled down 5 rebounds.

## HPC - 77 WINGATE - 62

The Panthers did not let themselves get down after the heartbreaker with Catawba. Instead they came right back with an impressive showing against conference foe Wingate and walked away with a 15 point victory. Wingate defeated HPC earlier this year in a hard fought contest that ended 54-53. This time, however, was quite a different story. The Panthers cruised to a relatively easy win behind the scoring of senior guard Danny Murphy, who sank 20 points for the cause, and sophomore forward Andy Young's 6 rebounds.

## HPC - 39 GUILFORD - 38

Dave Young led the Panthers in scoring once again en route to a 39-38 win over conference opponent Guilford. Young amassed 14 points in this low scoring, ball control game. Other Panther bright spots were Jim Hoffman and John Hamilton who pulled down 3 rebounds a piece.

## HPC - 78 ELON - 68

HPC boosted its conference record to 10-5 with this win over a tough Elon team. The fighting Christians lost a heartbreaker to HPC earlier in the year, 53-51, and once again fell short. Odell Walker was unstoppable as he tallied 27 points for the Panthers and led the team with six rebounds.

## HPC - 38 PFEIFFER - 41

Despite center Jim Hoffman's 13 points and Danny Murphy's six rebounds the Panthers dropped their final conference game of the year to Pfeiffer. The Panthers have had trouble handling Pfeiffer all year, losing 70-63 earlier in the season.

## HPC - 67 GARDNER - WEBB 65

The Panthers of HPC capped off the 1984-85 season with a close win over Gardner-Webb, 67-65. It is only fitting that senior standout Danny Murphy was high scorer as he popped in 20 points from the floor. Odell Walker had 11 points while Dave Young added 10 and the fourth senior on the squad, John Hamilton, sank 8 points for the winning cause. Junior center Jim Hoffman hit 7 of 8 from the floor for 14 points while pulling down 7 rebounds. This victory should start HPC off on the right foot as they prepare to go into the Carolinas Conference Tournament on the 28th.

Nancy Little, women's basketball and volleyball coach at High Point College, has resigned.

Mrs. Little has been the basketball, volleyball coach, and assistant professor in the physical education department since August of 1979.

In those five-and-one-half seasons as basketball coach, Little has compiled an 86-66 record with two AIAW Regional playoff appearances and one NAIA District playoff berth. She was named Carolinas Conference Coach-of-the-Year last season when her team

rebounded from a 3-19 record the previous year to post a 15-9 mark.

In six volleyball seasons, Little's teams have posted a record of 131-92, including four Conference championships, two District and Regional titles, and a pair of appearances in the NAIA

National Tournament. She was Carolinas Conference Volleyball Coach-of-the-Year in 1983 and 1984.

Beyond teaching and coaching duties, Mrs. Little has been the Conference and District Basketball Chairperson, an All-American Selection Commit-

tee member, and on the National Basketball Tournament Committee for the past four years. This year she serves as the Chairman of the NAIA National Basketball Tournament and was nominated to run for the Executive Committee of the NAIA.

Coach Little takes special pride in bringing in and developing athletes compatible with college standards. She wishes to thank her colleagues with their help in developing an effective recruiting program in the face of rising academic standards and tuition costs.

# Panthers Ready For Conference Tourney

The Panthers are ready for the conference tourney. The team has been practicing hard and is looking forward to the upcoming season. The coach is confident in the team's ability to succeed.

# Ramirez makes All-Conference

Reprinted with Permission from  
the High Point Enterprise

Senior guard Susie Ramirez of High Point has been named to the All-Carolinas Conference women's basketball team by a vote of the league's nine head coaches.

A 5-5 point guard from Manassas, Va., Ramirez is third on the team in scoring with a 13.2 average, and she has handed out 100 assists this season.

HPC forward Angie Green received honorable mention.

Pembroke State placed three players on the team, center Barbara Green (who was named player of the year) and forwards Dee Major and Michelle Davis. They were joined by guards Cheryl Barrineau and Stark Welch of Wingate, forward Lois Wright of Guilford, forward Melissa Morgan of Atlantic Christian, forward Jamie McNeely of Elon and guard-forward Brenda Robertson of Lenoir-Rhyne.

Coach of the year voting resulted in a three-way tie between David Bowman of Guilford, Johnny Jacumin of Wingate and Lal Jones of Pembroke State.

# Ramirez makes All-Conference

Senior defensive end Ramirez was named to the All-Conference team by the coaches of the 12 teams in the conference. Ramirez, who played in all 12 games, was the only player from the conference to be named to the team. He was named to the team for his outstanding performance in the defensive line, where he was a key player in the conference's defense. Ramirez was named to the team for his outstanding performance in the defensive line, where he was a key player in the conference's defense.

## \*\*\*SPRING BREAK\*\*\*

Students needing transportation to the airport, bus station, etc. should sign up in the Office of Student Life. Give your name, phone number and time you need to leave campus.

Take valuables with you! The campus will be patrolled, but the college cannot assume liability for anything.

Also, if you need to return early, contact the Office of Student Life.

Two of the top media companies in the Triad have teamed up for the March of Dimes TeamWalk '85.

On Wednesday, November 14, 1984 WXII-TV and WMAG Radio hosted the Team-Walk Kickoff Party for approximately two hundred and fifty business and community leaders at the Airport Marriott Hotel. Debbie Severs and Cameron Kent of WXII-TV and Bill Flynn of WMAG Radio, honorary chairpeople for this years Walk acted as MC's to an enthusiastic crowd of March of Dimes supporters from Winston-Salem.

Greensboro, High Point, Burlington and numerous other small cities throughout the Greater Triad Chapter.

TeamWalk '85 has the potential of being the biggest Walk in the history of the March of Dimes, not only in the Greater Triad, but across the state of North Carolina. North Carolina ranks 4th in the region which includes Georgia, South Carolina and Florida. We want to be first!

At a recent statewide Walk meeting held in Winston-Salem the air was charged with challenge and enthusiasm for Team Walk '85. Several radio and television stations across the state have followed the lead of WXII-TV in publicizing and promoting Team Walk

as their major annual public service event. They are all determined to have more walkers and raise more money than the WXII-WMAG TeamWalk (However, we all know we won't let that happen!)

Several challenges have begun to emerge in the Greater Triad between cities

and businesses. Wachovia Bank, is challenged both internally and externally. Internally the question is, if all the state branches of

Wachovia walk--can they beat the Winston-Salem Wachovia team? (900 strong last year) Externally, the question is, what institution or institutions will rise to the challenge of over taking Wachovia -- and can they?? What team can beat LeRoy Clark and Wilma's House of Charm in per cap dollars raised. Wachovia didn't even do that! (per cap raised by them, \$406.90)--and can anybody beat the 7-Eleven stores who nationwide fielded a team of 4,079 walkers and raised \$574,624.90. That may

friends, is over one half million dollars -- any takers for this challenge?? Would you believe if everybody who walked last year increased what they collected by 25% we could raise in the neighborhood of a quarter of a million dollars in the Triad alone?? Nice neighborhood!! Go Teams Go!!

## DUAL CAREER COUPLES A SPECIAL PROGRAM

MARCH 14 1985 2:30 - 4:00  
CAMPUS CENTER CONFERENCE ROOM

### GROUP DISCUSSION ON:

- Communication and Problem Solving in Dual Careers
- How to Foster Your Own Career
- Decisions about Families, Household Management, Relocation

## OVERSEAS EMPLOYMENT

**WORLD-SIDE OPPORTUNITIES FOR MEN AND WOMEN!**  
JAPAN - EUROPE - AFRICA - AUSTRALIA - THE SOUTH PACIFIC - SOUTH AMERICA - THE FAR EAST.  
EXCELLENT BENEFITS. HIGHER SALARIES AND WAGES!  
FREE TRANSPORTATION! GENEROUS VACATIONS!

More than 300,000 Americans -- not including members of the armed services -- are now living overseas. These people are engaged in nearly every possible activity...construction, engineering, sales, transportation, secretarial work, accounting, manufacturing, oil refining, teaching, nursing, government, etc.-etc. And many are earning \$2,000 to \$5,000 per month...or more!

To allow you the opportunity to apply for overseas employment, we have researched and compiled a new and exciting directory on overseas employment. Here is just a sample of what our **International Employment Directory** covers.

(1). Our **International Employment Directory** lists dozens of cruise ship companies, both on the east and west coast. You will be told what type of positions the cruise ship companies hire, such as deck hands, restaurant help, cooks, bartenders, just to name a few. You will also receive several Employment Application Forms that you may send directly to the companies you would like to work for.

(2). Firms and organizations employing all types of personnel in Australia,

Japan, Africa, The South Pacific, The Far East, South America...nearly every part of the free world!

(3). Companies and Government agencies employing personnel in nearly every occupation, from the unskilled laborer to the college trained professional man or woman.

(4). Firms and organizations engaged in foreign construction projects, manufacturing, mining, oil refining, engineering, sales, services, teaching, etc., etc.

(5). How and where to apply for overseas Government jobs.

(6). Information about summer jobs.

(7). You will receive our Employment Opportunity Digest...jam-packed with information about current job opportunities. Special sections feature news of overseas construction projects, executive positions and teaching opportunities.

### 90 Day Money Back Guarantee

Our **International Employment Directory** is sent to you with this guarantee. If for any reason you do not obtain overseas employment or you are not satisfied with the job offers...simply return our **Directory** within 90 days and we'll refund your money promptly...no questions asked.

### ORDER FORM

**International Employment Directory**  
131 Elms Dr. Dept. T21  
Centralia, WA 98531

Please send me a copy of your **International Employment Directory**. I understand that I may use this information for 90 days and if I am not satisfied with the results, I may return your **Directory** for an immediate refund. On that basis I'm enclosing \$20.00 cash... check... or money order... for your **Directory**.

# Student Committed; Believes Himself To Be Pope

By Michael Roberts  
Fall Guy

Daniel Firebaugh, of room B2 Yarkin, was taken to the Dortha Dix Mental Asylum in Raleigh yesterday for a series of mental examinations and psychoanalysis. Authorities were notified when for the fourth consecutive week he was seen around campus dressed as the pope, according to his roommate Andy Miller. Incidents like this are not unusual for Firebaugh, say some of his closest acquaintances. "Oh, this has been going on for

some time now," said Miller. "Last month he thought he was Napoleon, and it was Boy George. Leonid Brezhnev, and Larry Hedrick before that," commented Miller. "But

nothing has lasted as long as this Pope stuff."

Witnesses have stated that on several occasions Firebaugh has been cited "blessing" the roses beside the post office. Miller stated that it was nearly impossible to sleep at night with the "Pope" giving him his last rites. According to close personal friend and confidant, Ted Sorensen,

"Me and a couple of friends were on our way to the store to get pretzels and pop-tarts for our D&D game one afternoon, when we spotted Dan on the soccer field holding Mass for the squirrels and birds."

"I always thought Daniel Firebaugh was weird, but not crazy," sobbed close friend and classmate Danny Beall, who was visibly upset. "I've been a buddy to Dan

for three years now, and I never noticed anything too peculiar about him, except that none of his clothes fit him," stated Beall. One associate of Firebaugh's, Rich Mullins, said that he wished that Firebaugh would continue to impersonate the Pope. "I'd kind of like someone to shoot him," chuckled Mullins.

Firebaugh's readmission to High Point College will depend on the doctors' findings, according to President Bill Frampton. If the doctors determine that he is not a danger to himself or those around him, Pope Firebaugh will be permitted to finish his senior year at HPC. Firebaugh could not be reached for further comment, and Dean of Students, Al Sistrunk, stated, "I have no comment at this time."

## Whatley, Man With a Conscience

BY MICHAEL ROBERTS  
Chief Mechanic

"I have trouble getting to sleep at night knowing we've fed you kids garbage three times during the day," sighed Frank Whatley, Supervisor of Cafeteria Services. "I must be the most hated man on campus, and I don't deserve that," he said. "I don't know who started that vicious rumor about me not wanting y'all to throw food and napkins at each other. Sometimes just for fun I throw a napkin or two at the chefs. Face it, the food is better on the floors and walls than in your stomachs. Just the other day I saw the Sigs throwing jello at the Gams, and when I walked over they stopped. I just wanted a ringside seat."

Whatley said that the reason the food isn't up to par is because he is on a budget. He felt that it was necessary to serve the students yellow lettuce, leftover french fries, and cheeseburgers five times a week to stay within financial limitations. "I'm just the fall guy in this situation," said Whatley. "These meal plans come from higher up and I get all the complaints. You never see them eating in here. If a day went by when no one complained, I'd shave my sideburns."

Frank Whatley appears to be a good guy in a bad situation. But deep inside he is a man with a heart and a conscience. Al Sistrunk refused to comment.

Cafeteria workers prepare another meal

# Cannady Promoted

BY CAROLYN BINKLEY  
Gremlin in Disguise

Ed Cannady, HPC's beloved Director of Campus Safety, has been promoted to head the Federal Bureau of Investigation in Washington, D.C.

The phone call from the White House came yesterday while Cannady was at lunch. He immediately phoned Washington, and President Reagan informed him of the new position. "This is unreal," said Cannady, as he leaned back in his office chair, puffing on a cigarette. "I'm going to miss this place, and you kids — but I couldn't say 'no' to the President!"

HPC President Bill Frampton commented, "We'll miss the big guy, but it's time he got out in the real world — no more of this college stuff."

Cannady was reluctant at first; but the substantial

salary increase finally made up his mind. After the call yesterday, he was overheard muttering numbers and

Ed Cannady, former Campus Safety Director.

something like "Rich, rich, rich..."

During his years at HPC, the crime rate decreased by 25%, and student respect for Safety Officers increased

substantially. These and other items were reasons for the promotion. "I guess they notice things like that," said Cannady. Director of Student Life Al Sistrunk had no comment.

# Theta Chi's Lose Frisbees

BY CAROLYN BINKLEY  
Pseudo Editor

Mike Reid, president of Theta Chi Fraternity, reported a number of thefts to the Campus Safety Office early Sunday morning. The Safety Office, in turn, reported the incident to High Point Police. The stolen objects were described in the police report as "brightly colored plastic discs, commonly known as frisbees."

According to Reid, the items were noticed missing after a lounge party Saturday night. Ultimate practice was held before the party.

Whenever weather permits, the Theta Chi's can be seen chasing frisbees around campus. Brother Rich Molinaro advocates it as "a great way to meet girls." Meanwhile, Chi's have been frantically searching for frisbee-like substitutes. Several of them have been observed with notebooks and cafeteria plates spinning on their fingers. "I always knew that these plates could be used for something worthwhile," commented brother Gregg Thompson.

Brother Gray Harvey was despondent: "Now what do we do? I can't

throw plates—they break too easily!"

If the frisbees aren't soon recovered, the College will reimburse the fraternity will all new professional models in frat colors, with "ΘΧ" emblazoned in large gold letters.

Director of Campus Safety, Ed Cannady, stated, "We will probably order new frisbees tomorrow. We want to keep our students happy here!"

Director of Student Life Al Sistrunk had no comment on the matter.

## Frampton Chosen President

BY MICHAEL ROBERTS  
WHITE HOUSE  
PRESS AIDE

Former SGA President Bill Frampton has been chosen as the new High Point College President. Frampton is to be inaugurated immediately. Recently appointed President.

Martinson, resigned yesterday to become a short order cook at his brother's restaurant.

"It didn't take any time for the student committee to decide on Frampton," said chairman Ray Hotz. "He's

not a Pika, but hell, everyone can't be perfect."

Newly elected Student Body President, Ted Coryell (also a Pika), has been meeting with Frampton behind locked doors for several days. After one such meeting, Frampton was asked what, if anything, had arisen from these talks. "Well, we'd kind of like to get rid of Al," said Frampton.

At a recent interview, Frampton revealed the agenda he'd been working on. "First of all," he said, "I'd

like to change our school colors. Purple is just so drab. Doesn't do a thing for me. Pink and green is much more cheery. And that mascot! That panther on the cafeteria wall that looks like a wild pig will just have to go! Ducks are much more lovable."

Frampton also stated that everyone would be granted tenure, just to be safe. He commented that he would change the High Point College Singers to the HPC Singers/Breakdancers. "This would make it a multi-

faceted organization," explained Frampton.

Perhaps the most radical change attempted by President Bill Frampton is the assignment of SGA Vice-President Art Payne as the Director of Student Life. "Heck, if we can keep Art off of those fences, he'll do a good job," chuckled Frampton.

Frampton said that he is ready to tackle his new assignment. "Like next year is just gonna be so much fun!" he said. Al Sistrunk had no comment.

## Panty Raid Deemed Successful by Male Residents

BY MICHAEL ROBERTS  
Panty Raid Editor

The panty raid on the Women's complex is being called a success by the residents of McCulloch and Mills dorms.

The idea was the brainchild of McCulloch R.A. Danny "I'm just a Greek God" Beall. He was quoted as saying, "It had been so long since I'd seen a girl's panties, that I figured it was time to take action." And take action he did. Obtaining the services of McCulloch residents and the brothers of Delta Sigma Phi (and Steve Mauer), Beall and company managed to raid all exits before lock up.

The invaders reportedly

knocked on each door and politely asked the girls' for undergarments. One resident of Women's Dorm, Kim Idol, received an estimated four-hundred knocks. Other residents averaged between twelve and fifteen.

The girls' attitudes were described as shocked, flattered, and cooperative. This reporter, being there solely for journalistic purposes, noticed several girls in the halls giving panties to the guys. By midnight, the halls were filled with screaming and chanting males.

One female resident, who wished to remain unidentified said, "I heard these howling noises in the hall and then a knock on my

door. Thinking my roommate had locked herself out, I opened it. There was this guy standing there who said 'Your panties or your life'; so I gave him some."

Afterwards, a tired, but satisfied, Beall stated, "Never has High Point College seen such a daring feat of machismo. I love it when a plan comes together like this." Beall reportedly took one hundred and twenty-five panties back to his room, some still occupied.

A horde of two-hundred males started the invasion, but only twenty-five made it back to their own rooms at the end of the evening.

Dr. Sistrunk had no comment on the matter.

Panty raider exposed.

# Student Arrested for Property Damage

BY CAROLYN BINKLEY  
ASSISTANT EDITOR

Lee Morris, HPC junior, has been charged with malicious damage to property after an incident in the Safety Office Monday night, according to Ed Cannady, Director of Public Safety. The incident occurred around 11:30 p.m.

Monica Gregory, a Project Escort volunteer, was working in the outer office when Morris jumped in the door,

spread his arms and screamed. Gregory was in the corner by the door, signing her time card. Until that moment, she had been sitting at the desk. Morris jumped over the desk, scattering books and papers. Then he overturned the desk, and attempted to throw a radio, but it was plugged in and he dropped it instead. Apparently calming down, he sat down in the chair, picked up the telephone and tried to fix it, and then sat talking to himself.

Ginger Foy, the Safety Officer on duty, Jeff Insley, McCulloch R.C. and student Melanie Weston were in the inner office. According to Gregory, Insley asked Morris what was wrong, and Foy called the High Point Police

Department. Ed Cannady arrived and signed the arrest warrant, and the police took Morris away.

A bond hearing was held Tuesday morning, and the court date has been set for April 2.

# Coryell: Preparing for Challenge

BY MICHAEL ROBERTS  
EDITOR IN CHIEF

After two years as Student Union Chairman, newly elected SGA President Ted Coryell is preparing for a new challenge. "I think that being Student Union Chairman has helped me just tremendously," said Coryell. "I was Ex-officio member of the SGA Executive Council, attended Alumni Association meetings with the president, and I was a legislator for two years." The Student Union works in cooperation with the SGA, especially with Homecoming and Orientation.

"As SGA President I will

be dealing with bigger concepts. Instead of better dances and parties, I'll be dealing with parking lots and procedures," said Coryell. "I'll be dealing more with student needs."

When asked why he felt he ran unopposed, Coryell commented, "I know of at least two people that picked up petitions for president, but they never turned them in. I'm not sure if they were intimidated or just lost interest."

There are two immediate actions that Coryell will work with immediately. The first is helping to form a search committee for the

new college president. Coryell said that the High Point College Trustees have agreed to let the committee interview the finalists for the job, and will take their recommendations into consideration before making their final decision. "I encourage students to give suggestions to this committee," remarked Coryell. He and Vice-President Ray Hotz are also working on a proposal to send to the budget committee for an SGA lecture series. "The people we get," said Coryell, "will not be so much educational as interesting and informative." He said that they are hoping to get at least two "big"

speakers per year, and one interesting local personality. Homecoming next year will be a "whole new deal" according to the new presi-

dent. It will last an entire week, instead of consisting of one night and one ball

# Station Manager Fired, Reinstated

BY TONY B. BAITY

Staff Writer

Craig Van Steenburgh, station manager of HPC's WWIH, was removed from and then reinstated to his position by Dean of Students, Al Sistrunk, the station's faculty advisor.

During a specially called meeting by the Society for Collegiate Journalists (SCJ) on March 14, Van Steenburgh said, "I was told by Dean Sistrunk that the reason I was being replaced was because I am irresponsible and unethical as a student leader."

According to Van Steenburgh, he was informed of his removal only a few minutes before a WWIH staff meeting on Feb. 26. "At the time," said Van Steenburgh, "I thought Dean Sistrunk could dismiss me as station manager and close the station. However, after I returned from Spring Break I was shown a copy of the *Guidelines and Operational Procedures* which was issued by the Publications and Communications Committee of the College."

According to the *Guidelines and Operational Procedures* (Article V.; section B), "Only for proper causes should editors and managers be subject to removal and then by orderly and prescribed procedures. The agency responsible for

the appointment of editors and managers should be the agency responsible for their removal. The Publications and Communications Committee shall review such cases and make appropriate recommendations to the President of the College."

Van Steenburgh said once he read the guidelines he went to discuss them with Dean Sistrunk. "Dean Sistrunk said that the guidelines were incomplete and that he could remove me as station manager because of his power as faculty advisor and as Dean of Students. He (Sistrunk) also told me that the only complaints referring to me as station manager were made by Campus Security. These were only complaints pertaining to staff members leaving the Roberts Hall door unlocked after hours. They were not complaints about the way I performed my duties as station manager." When asked on March 13 to comment on Van Steenburgh's dismissal as station manager, Sistrunk stated, "I have been unable to discuss my actions with Dr. Nelson (Dr. Nelson is Chairman of the Publications and Communications Committee) and until I have informed him of my actions, I have no comment."

Van Steenburgh also told

the SCJ that, "According to Dean Sistrunk, one factor which was considered by him to weigh heavily in my dismissal was the fact that I vandalized college property. This charge stemmed from an incident which occurred on Feb. 28." Van Steenburgh continued, "Since I thought Feb. 28 would be my last day as acting WWIH Station Manager I painted my farewell on one of the walls. I painted my farewell in water-soluble paint and I painted it on a wall which is scheduled to be repainted anyway."

Then on March 15 Van Steenburgh informed certain SCJ members "Dean Sistrunk has reinstated me as acting station manager pending a decision on the charges of me doing malicious damage to college property."

Neither Charles Lucht, president of the college, nor Dr. James Nelson, chairman of the publications and communications committee, could be reached for comment. However, Sistrunk did comment that, "Craig has been reinstated as station manager of WWIH but whether or not it is recommended that he be removed as station manager depends upon the outcome of his hearing which pertains to the charge that he did malicious damage to college property."

# Pikas Collect for MD

BY TED CORYELL

Special to the Hi-Po

The Pi Kappa Alpha Fraternity collected over 1,500 dollars for the Muscular Dystrophy Association on Saturday, March 16.

Enduring traffic, fumes, and cranky customers the Pikes spent six hours at two intersections in High Point (Westchester and Main, Westchester and Lexington) with bright green collection cans. Becoming intimately familiar with spotlight sequences and darting between the stopped vehicles, the Pikes solicited over 1,500 dollars by asking motorists if they would like to "donate to Muscular Dystrophy."

Brad O'Brien, community affairs chairman for Pi Kappa Alpha, organized the fund raiser for MDA in conjunction with Paula Richings, who is the regional coordinator of such activities in the Triad area.

O'Brien commented that last year the Pikes collected over 2,500 dollars for MDA. He said the reason they collected more last year was because they were licensed to collect on two days, not just one. O'Brien said that because of the Pikes excellent work that they would once again receive a certificate of appreciation from MDA.

President of Pi Kappa Alpha, Michael Lemmo, commented that he was "pleased at the interest of the brothers to give up their Saturday for a needy cause." Brother Tom Wynne said, "At first I thought it was going to be a real grind—but it ended up being real fun." Lastly, Jim Flaherty, who voluntarily worked a double shift, stated that "it was really nice seeing people who didn't look like they had much money giving the most."

# Dual - Career Couples Preferred

BY CAROLYN BINKLEY  
ASSISTANT EDITOR

Married couples with both partners working are becoming more common than ever. Issues dealing with dual-career couples were discussed in a recent seminar sponsored by the Career Development Center in conjunction with William F. Cope, Associate Professor of Sociology.

Guest speakers were Sherry Stuckey, Assistant

Director of Outreach Services at the Student Development and Counseling Services at the University of North Carolina-Chapel Hill, and Bill Holahan, a doctoral student in Counseling Psychology at UNC-Chapel Hill. Also speaking were Dr. Gray Bowman and Mrs. Anita Bowman, HPC Alumni dual-career couple.

According to Stuckey, 60% of children under 18 years of age have working mothers. And careers won't take off as fast with a dual-

career couple; career decisions must be shared. Dr. and Mrs. Bowman agreed. Mrs. Bowman spoke of problems on how to divide your time. In her case, it is getting up in the morning, getting four children to school, getting to HPC herself, picking the children up, fixing dinner, cleaning up, taking time with the children, time with her husband — but then there is rarely time left for self.

The group was divided into male and female for

separate discussions on communication and problem-solving; how to foster your own career; decisions about families, household management and relocation; on how to balance careers, marriage and family. There was even a bit of role-playing by students at the end.

Everyone seemed to enjoy the seminar, and Mrs. Joyce Wainer and Mr. Cope were very pleased. According to Mrs. Wainer, "I enjoyed it. I thought it was great."

game. It will be a soccer homecoming, and therefore will be held early in the Fall. "We're going to try to get some top rate performers for Homecoming," said Coryell. "We'll try to get musicians and comics, and other types of entertainment."

When asked what he hoped to achieve as SGA President, Coryell remarked, "I hope to meet student needs as best I can. I'll do whatever I'm capable of doing. Whether students are sick of cafeteria food or need more parking, I'll do whatever possible. No matter what their concerns are, I want to work with them."

# "Heaven Can Wait" Lacks Spirit

BY JANINE JOSON  
ENTERTAINMENT  
EDITOR

In the performance of *Heaven Can Wait*, written by Harry Segall and performed by the High Point College Theatre on February 22, several things come to mind. Overall, the technical aspects of the play were good. The scenery was efficient for staging purposes and realistic in reflecting a wealthy person's home. The decor of the room appeared to have some modern pieces of furniture to us, but for the year 1938, that type of furniture would be considered "new wave." The lighting was effective in creating various moods, spotlighting certain characters, and

showing us what time of day it was. The sound effects added to the mood of this particular time period with the phonograph sound and the choice of the music played.

On the other hand, the play failed to bring my emotions to a pinnacle. I am not quite sure whether it is the way the play was written that made it difficult to keep it moving or whether it was the interaction of the characters in exposing the plot. By this I mean, many of the characters, (although they played their parts well technically), seemed to lack that emotional quality needed to draw the audience's attention and feelings into the play. Take for instance the lead Jim Austin, playing Joe

Pendleton. He came across as a very spunky young man, very caring and honest, but he stayed at one level throughout the play. There never seemed to be any variations in tone, like at the soft moment with Pam McHone, playing Bette Logan, the woman Joe falls in love with. And with the character Julia Farnsworth, played by Doreen Dvorscak, she seemed to do everything technically right and yet I couldn't get involved with her character.

With Mr. Jordan, played by James Austin and Inspector Williams by Bruce Tyrrell, however, I could feel for them; more so with Mr. Jordan, than Inspector Williams. I admired Inspec-

tor Williams primarily because of his great sense of timing in this comedy and his effective stage voice and facial expressions.

The play itself contained much physical action, such as boxing, exercising, cleaning, as well as dramatic action such as speaking to invisible persons, yelling bouts, and so on. But with this action-packed play, it failed to move at an action-packed pace. It seemed to take forever for the play to reach its climax and when it did, it did not move me as it should have.

The theme seemed fairly clear. The overall statement seemed to be that everyone has a design in life — a master plan, if you will. But

even when a mistake occurs and there is a deviation in your path (such as what happened to Joe Pendleton), one can still do good in whatever situation of life he is in.

Also, things are not what they always appear to be. It does not matter what a person looks like from the outside, because what is inside is what is important. And in the end, love transcends all and prevails.

I enjoyed watching the play and the spectacle of it was superb; however, the emotional quality in many of the characters was lacking, resulting in a less moving experience of theatre.

## Spring Rally: Fun for All

BY MICHAEL ROBERTS  
EDITOR-IN-CHIEF

The biggest sporting event to take place since the 1984 Summer Olympics took place on Tuesday, March 26 at High Point College. Instead of hammer and discus throwing, sprints and marathons, there was an egg toss, frisbee throw, and mattress race. This gala event was none other than the annual Pi Kappa Alpha Spring Rally.

Alpha Gamma Delta sorority arrived early for last minute preparation and a pep rally. The Gams were followed by Zeta Tau Alpha, which arrived in a long, marching, chanting line. They were followed by a convoy of vehicles adorned with balloons and streamers. This procession was none other than the Kappa Delta.

After the arrival of all participating sororities, the aura of competition filled the air. Each sorority assembled in their respective groups in a show of spirit and sisterhood, each chanting their own unique cheers. Alpha Gamma Delta proved that there is strength in numbers, for not only were they the loudest group on the field, their chants even penetrated the innermost walls of Roberts Hall.

Gam coaches discuss strategy.

The field was nothing short of a mob scene as the competition was about to begin. The girls were enthralled in the last-second pep rally as photographers and supporters rushed to become part of the action. The games were attended by such notables of Director of Resident Life, Robert Miller, and Dean of Students, Dr. Al Sistrunk. Many of the brothers of Delta Sigma Phi showed up to exhibit their support for Alpha Gamma Delta, adorning Gam sweat shirts and banners.

Kappa Delta started off strong by winning two of the first three events. Phi Mu

also started strong by winning the pie eating contest.

Kappa Delta did meet tragedy, however, in the mattress race.

After watching the competition, the competitiveness, the spirit, and the closeness of the girls, it doesn't really matter who won. Winning was secondary to fun and togetherness, and in the long run no one will remember who really did win. (For the record, Alpha Gamma Delta in a landslide.)

## HPC for Africa

H.P.C. For Africa is a united attempt by High Point College and the college community to raise money through a benefit doubleheader basketball game to aid the famine victims in Africa.

Wednesday night, April 10th beginning at 6:30 p.m. in Alumni Gym, our male and female faculty members will be putting their corpses on the line for a good cause and a few laughs as they will do battle with the male and female all-star intramural teams.

The idea was conceived by Director of Library Services, Tom Gaughan and myself as an excellent way to break a sweat, to boost school morale, and to be of service to our fellow man.

The game will be open to spectators who will either pay a \$1.00 admission fee or make a contribution to the cause.

Half-time entertainment

includes break dancers from the Thomasville, Archdale-Trinity area and the finals of the 1985 H.P.C. dunk contest.

I realize the remaining weeks of the semester are short and precious to each of us. Term papers, exams and pre-registration deadlines appear all over our calendars but we must not forget the purpose of this project.

Even though some are unsure of what may transpire, if we can help one child it will be well worth the effort. Remember, in a good institution you'll find concerned students working together making an effort.

For this to be a success we need everyone's participation especially the fraternity and sorority organizations. Without your participation, the idea of H.P.C. For Africa is like putting a match to a stack of hay — it goes up in smoke.

Mario Watson

# Says Ted

BY TED CORYELL  
COLUMNIST

Ever wonder why libraries have those elaborate electronic detection systems or why the "Lance" vending machines are starting to look like bank vaults? I'll tell you why—because some people will stop at nothing to beat the system.

Specifically, I am talking about those persons who scalped their Tommy Shaw tickets and probably cost HPC students about 1,000 dollars. According to Bob Rossi, Student Union Concert Chairman, "We usually

make twice as much at the box office the night of the show as we make on outside ticket sales." Rossi collected over 500 dollars before the show and expected to make at least 100 dollars more.

Jane Morris, who worked at the box office the night of the concert, said she only sold six tickets to outsiders. She also saw some HPC students selling/scalping tickets to others. Although she notified the HPC security staff and a High Point policeman of their actions, it was too late for the damage was already done.

Tommy Shaw was the

most prestigious (and expensive) performer to ever grace the HPC Memorial Auditorium. Shaw and his group were brought to HPC through a tremendous effort on the part of the Student Union and the Student Government Association. Great pains were taken to make the concert free to all HPC students.

At most schools students have to pay large amounts to see performers of Tommy Shaw's caliber. Their tickets usually cost between five and ten dollars. However, the Student Union wanted to make the concert free to

all HPC students and defer this lost revenue (of student ticket sales) by making money on sales in the community. Thanks to the selfish interests of some individuals this money was kept from the Union.

You as students should feel personally robbed—for in fact you have been. The Student Union receives its budget from your student activity fee that is part of your college tuition costs.

The money that has been stolen by our fellow classmates will be felt in two manners. First, the Student Union will not have the

necessary funds to fuel a Last Class Bash that you are used to getting because of the 1,000 or so dollars that were lost. Second, it appears obvious that some members of the student body are not mature enough to handle a free concert. Because of this situation students will have to be charged for tickets just to discourage people from scalping them.

So if this year's Last Class Bash isn't what you expected and/or you have to pay for the next HPC concert, you'll know who to thank.

## Impersonator Gets Classes Cancelled

BY TERRI LIVINGSTON  
Special to the HI-PO

Take yourself back many weeks ago. It was Monday afternoon, January 28, and snow was falling at a pace unfamiliar to North Carolina. More than likely, the mind of every High Point College student was working in the same manner as was the student that made the "phone call". Most students watched the late news hoping to find that

they could sleep late the next morning. When the announcement was made, "High Point College day classes cancelled," a shrill cry of happiness shot out from every dorm, even from the room of the person who made the call. For obvious reasons let's refer to him as the "caller". The "caller" was surprised it had worked. It seemed too easy.

Going back to Monday afternoon...this particular

student was watching the snow fall and decided it would be nice to put off his (or her) class work for the next day, knowing there would be no classes. Why not make a phone call and give it a try? The caller used a pay phone, to be safe, and dialed Channel 8. Imitating Dean Bearce, the "caller" told the voice on the other end that "High Point College would like them to announce a cancellation of

Tuesday's day classes."

The female voice from Channel 8 asked for a verification number. Quickly the "caller" tried to imagine what kind of number would satisfy this question. Before blowing his cover the "caller" repeated the number printed in front of him on the phone dial. That was all it took. The voice from Channel 8 thanked the person she thought to be Dean Bearce and hung up

the phone.

Because Channel 8 had asked for a verification number the "caller" remained by the phone for a while in case she called back. The return phone call never came. The announcement on the 11 o'clock news was a pleasant surprise for the "caller" and the students, yet, a not-so-pleasant surprise for the real Dean Bearce.

## Theater Fills Vacancies

The High Point Theatre has recently hired two new permanent employees to fill vacancies on the staff left in 1984.

Elizabeth Hinkle assumed the position of Business Manager in mid-February, the position previously held by the recently named Theatre Director, Steve Willis. Ms. Hinkle has a B.S. degree from High Point College, as well as a B.S. degree from Salem College. In 1981, while attending Salem College, she was responsible for coordinating a week long arts festival at Old Salem Square, in addition to teaching crafts classes and organizing group trips to

local cultural events. Ms. Hinkle has volunteered with several area civic organizations, and has held the position of Stage Designer for the Chair City Players in Thomasville. Prior to accepting the position of Business Manager of the theatre, she was employed as a box office assistant since January of 1984.

Lisa Brown assumed the position of House Manager in the fall of 1984 after receiving a Bachelor of Fine Arts in Musical Theatre from Tarkio College in Tarkio, Missouri earlier in 1984. Ms. Brown served as Technical Director for two semesters while at Tarkio,

responsible for supervising student workers in all areas of set and property construction, and theatre

maintenance. While involved with an independent experimental theatre company in Omaha, Nebraska during

the summer of 1984, Ms. Brown was involved in administration, public relations, set construction and

stage management as well as performing leading roles. Ms. Brown has acted in over 20 professional and academic productions.

## KD's Rock for Charity

The Kappa Delta sorority sponsored a Rock-a-thon to benefit the Crippled Children's Hospital in Richmond, Virginia. The Rock-a-thon is an event where each girl received sponsors for each hour she could rock in a rocking chair over a twenty-four hour period. According to Kappa Delta sister Lisa McKeown, the event takes place every two years.

The sorority began rocking at 3:00 pm on Friday, March 15, and rocked until 3:00 p.m. Saturday in the Holt-McPherson Campus Center. The girls were given

a 10 minute break every hour. They also had male volunteers to rock them while they slept, and to run errands. One volunteer, Dennis Smith, stayed for the full twenty-four hours. "What these girls are doing is great," said Smith. "I'd do anything to help."

The Kappa Delta sorority raised \$1,350 for their charity. Sponsors, such as Domino's Pizza, sent them free food. According to Lisa McKeown, "It's been like a big slumber party...with a lot of visitors." When asked what they would do after the marathon, she commented, "We're all going to crash!"

**Abstract**—The purpose of this study was to determine the effect of a 12-week training program on the heart rate (HR) and energy expenditure (EE) of sedentary, middle-aged women. The subjects were 12 sedentary women, 40 to 50 years of age, who were randomly assigned to a 12-week training program or a control group. The training program consisted of three sessions per week of aerobic exercise at 60% of maximum HR. The control group remained sedentary. The HR and EE were measured at rest and during a 30-minute period of moderate exercise at the end of the 12-week period. The results showed that the training program had a significant effect on the HR and EE of the subjects. The HR and EE of the training group were significantly lower than those of the control group at rest and during exercise. The results suggest that a 12-week training program can improve the cardiovascular fitness of sedentary, middle-aged women.

## **New President Selected**

**By Michael Roberts  
Editor-in-Chief**

Dr. Jacob Christian Martinson, Jr., president of Brevard College, has been named the sixth president of High Point College. The announcement was made Tuesday by W. Roger Soles of Greensboro, chairman of the college's Board of Trustees. Martinson will take office on August 1, 1985.

Martinson has served at Brevard for nine years. During his tenure, enrollment increased 40%, and the college's endowment grew from

\$2.1 million to \$5.4 million. Alumni support during his nine years increased 400%, and in 1983-84, total charitable contributions to the college exceeded \$1 million. In 1984, Brevard College installed a new \$550,000 computer center.

A native of Dunn County, Wisconsin, Martinson earned his undergraduate degree in English literature from Huntingdon College and was awarded his master of divinity degree by the Duke University Divinity School. After completing

postgraduate studies in psychology and religion at the University of St. Andrews in Scotland, he attended the Vanderbilt University Divinity School, where he earned his doctorate in theology. He also has completed postdoctoral studies at the Harvard University Institute for Educational Management.

An ordained Methodist minister, Martinson served two churches in Florida — First United Methodist

Church in Winter Park and Trinity United Methodist Church in Pompano Beach — before entering the field of higher education. He was

adjunct instructor at Florida Southern College from 1968 to 1971 and supervising instructor in field supervision at Vanderbilt Divinity School before accepting the presidency of Andrew College in Cuthbert, Georgia, in 1972. Martinson became president of Brevard College in 1976.

In announcing Martinson's appointment, Soles said, "Dr. Martinson has had a fine record everywhere he has been — in Florida, Georgia, and at Brevard College. We at

High Point College feel very fortunate to have him agree to come with us as our President. High Point is a strong college, and with Dr. Martinson's leadership, it can be even stronger."

## **Nantucket, Richard Lewis Head Last Class Bash '85**

**By Bob Rossi  
Special to the HI-PO**

Last Class Bash 1985 at High Point College will be another great week of premier entertainment and partying.

Hard rocking Nantucket and TV comedian Richard Lewis are the scheduled headliners for the week beginning Monday, April 22 — Friday, April 26.

Monday, April 22 will feature the hilarious Richard Lewis in a comedy concert in the Memorial Auditorium beginning at 8:00 p.m.

During intermission there will be free Domino's pizza and drinks for all HPC students and faculty.

Lewis has been tagged as the "next Woody Allen" and has appeared numerous times on the David Letterman Show, the Tonight Show, Home Box Office and is a regular at the Improv and Comedy Store in Los Angeles. He's a sure hit on the college circuit and a guaranteed crowd pleaser. Admission to Richard Lewis is free.

With 4 major albums and

"Nantucket V" to be released later this spring, Nantucket has made a successful impact on the national music scene. Having toured in the past 5 years with such bands as Yes, Foreigner, Kiss, AC/DC, Styx and the Romantics, Nantucket has been seen and heard by hundreds of thousands of people throughout the U.S.A.

Nantucket last appeared at High Point College two years ago and packed the Memorial Auditorium for an

# Students' Protest: Appealing to Morality Again

Reprinted with permission of Charlotte Observer

By JAMES SIMON KUNEN

Newsday

It is an April afternoon at Columbia University. A leaflet handed out by conservative students threatening violence against demonstrators has backfired, provoking an unusually large turnout for the rally protesting the university's complicity in racism and war. Five hundred students (including me) are prepared to march into the administration building, in defiance of a rule against indoor demonstrations.

It is 1968.

Columbia's administration, which has steadfastly refused to respond to a seemingly endless series of petitions, referrals, rallies and student government resolutions, has ordered the doors locked to keep students out. Enraged, we run to the construction site in Harlem's Morningside Park where Columbia has broken ground for its new gymnasium — to us, a symbol of the school's "racist expansion" into the community — and we tear down the chain-link fence around the excavation.

We return to campus and 300 of us sit down in the lobby of the main classroom building, Hamilton Hall, vowing to remain until the administration meets our demands: Stop building the gym. Stop doing research for the Pentagon.

In the following week, students barricade themselves into three more campus buildings, declaring them "liberated." Finally, at 2:30 a.m. on April 30, 1968, the university gives the green light to 1,000 city police to eject the students. The police run amok, clubbing, punching and stomping students, faculty and even medical personnel attempting to treat the injured; 720 people are arrested and 148 are treated at area hospitals. The central College Walk is literally awash in blood.

The next afternoon 2,000 students and faculty gather on campus to launch a strike. They have been "radicalized" by "confrontation politics" — the theory that a billy club on the head is worth a thousand leaflets.

There will be no gym in Morningside Park. There will be no future as president of Columbia for Grayson Kirk. There will be no more business as usual on American campuses for the next few years.

This month, Columbia students were again sitting-in at Hamilton Hall. Students who were toddlers in 1968 were demonstrating against what they see as Columbia's complicity in racism, and journalists described their action as "echoing the protests of the 1960s." How comparable is today's anti-apartheid action to the rebellion of '68?

## One Difference

The question itself suggests one difference: Demonstrations in "the '60s" — the term denotes roughly the period from the Rev. Martin Luther King's March on Washington in 1963 to the nationwide protest against the mining of Haiphong Harbor in 1972 — were not considered "echoes" of anything. The occasional leftwing intellectual might draw a comparison to the activism of the 1930s, but to be taken seriously we didn't have to overcome a public perception that our actions were pale reenactments of some nostalgically remembered Real Thing.

Students always have a hard time being taken seriously. The threat of a student "strike" is something less than terrifying to the powers that be, because students don't produce anything that stores are likely to run out of. No one is more aware of this powerlessness than the students.

But we sit-in at Columbia in '68 picked up the

newspapers each morning to read all about ourselves on the front page. The searing klieg lights of TV crews illuminated our every night. It was as though a moral physician had palpated the body politic, asking, "Where does it hurt?" and the nation had screamed, "Columbia!"

Today's anti-apartheid demonstrators probe and probe, but have yet to strike a comparably sensitive national nerve.

In '68, the superstars of the left — H. Rap Brown and Stokely Carmichael and Abbie Hoffman and Tom Hayden — made a beeline for our campus. No such figures have appeared now; there are no such figures.

The racial division in the '68 demonstration was of course the very antithesis of the recent solidarity evident at Columbia.

Those were violent times. Today's demonstrators, by contrast, are not merely peaceful; they are polite. No attempt has been made actually to block access to Hamilton Hall, or to stop classes from being held. Indeed, it is reported that many of the demonstrators themselves go to classes, and that there are quiet times for studying even as they sit on the steps.

Today's students seem less angry than we were in '68. They lack the fire of disillusion. They have no illusions, having grown up in an America with a recent past of the Assassinations and Vietnam and Watergate, instead of Ike, Togetherness and Tail Fins.

What a difference 17 years makes. But there are also important similarities.

Now, as then, students have undertaken civil disobedience only as a last resort. At least since 1978 Columbia students have been peacefully urging their university to divest its holdings in companies doing business in South Africa. The administration that deplores their current tactics paid much less attention to them until they adopted those tactics.

Now, as then, the students are motivated not by political ideology but by the fundamental sense of social responsibility that Columbia teaches them. To us in '68, the Vietnam War was a moral offense, not a question of politics; we reacted to it in moral, rather than political terms. We felt ourselves to be a purifying force — the force of life. We appealed to conscience. This month, a sign held aloft at Columbia read, "Our Morality Fights Your Investment."

## Authorities Feel Threatened

And again, the university administration is the most effective anti-administration agitator on campus, because of its obsessively rigid response to what it sees as a threat to its authority. Columbia President Michael Sovern should know better; he co-chaired a faculty group formed to restore some vestige of order after Grayson Kirk stonewalled his way into the decade of '68. So when seven students go on a hunger strike — their outrageous demand is for a meeting with him — Sovern refuses to respond until 15 days, one collapse and two hospitalizations later. And even then he says that hunger-strikers, and all the demonstrators, are subject to discipline, possibly expulsion.

Why? Because the university can't have kids telling it what to do. But that is exactly what it has. It is a Columbia tradition.

James Simon Kunen is a Newsday editor; as a college sophomore in 1968, he wrote "The Strawberry Statement," an account of his participation in that year's student rebellion at Columbia University.

In the last issue of the Hi-Po, an article entitled "ZTA Reports Thefts", by Carolyn Binkley, Assistant Editor, is a perfect example of poor journalism and how things get "turned around" when relying on information given by someone other than the primary source. That "other source" happened to be a security report which was filed improperly by one of the security guards. The security guard with whom I talked, failed to put down all possibilities of which I mentioned, when I was asked

where the items might be found. Then, too, the Assistant Editor failed to come to me and double check on these possibilities. Therefore, one possibility was written in the article that "the items may have been removed by another sorority that had some ill feelings toward the Zetas." This is indeed a misquote. I told the security guard that if any of the sororities had them, that probably it would be only a few girls within any of the sororities who might be doing this as a

result of poor fraternity/sorority relations. Such an article as this, is one that causes the poor relations on campus and I for one, as President of Zeta Tau Alpha, am an advocate of good sorority relations and am in the process of working on a program with the other three presidents to deal with this problem of poor relations.

Sincerely,  
Elizabeth Daisey  
President, Zeta Tau Alpha

Editor's Note: All information in the article "ZTA Reports Thefts" was obtained from a Safety Office report. The incorrect statement reads, "Daisey felt that there was a possibility that the items may have been removed by another sorority that had some ill feelings toward the Zetas." It should read, "Daisey told the investigating officer

that she felt that there was a possibility that the items may have been removed by another sorority that had some ill feelings toward the Zetas." The investigating officer listed the one possibility that ZTA president Elizabeth Daisey denoted, and recorded it in her report.

Carolyn Binkley,  
Assistant Editor

unforgettable two-hour show which was highlighted by over 50 students joining them on stage for their final encore.

Free transportation will also be provided for the Nantucket party at the Fairgrounds. City buses and school vans will be shuttling to-and-from the fairgrounds throughout the evening beginning at 7:45 p.m.

Bid farewell to the seniors and don't miss out on any of

the events during the Last Class Bash 1985 - Brought

to you by the High Point College Student Union.

On Wednesday, April 24, there will be the 2nd Annual Student/Faculty Softball Game at 3:00 on the Intramural field. Refreshments will be served free at the game.

Thursday night, April 25 will be our final "Street Dance" in front of the Campus Center Pavilion. The dance will run from 8 to mid-

night and music will be provided by Z-93.

Free gifts will be given away at each event to commemorate Last Class Bash

The Intrafraternity Council and Pi Kappa Alpha have teamed up to provide unlimited keg beer, soft drinks and food which are all included in one low admission price. The cost is \$5 for "drinkers" and \$3 for "non-drinkers." "Drinkers" must be 19 or over with I.D.

'85 at High Point College.

The week comes to its pinnacle on Friday, April 26th at the Jaycee Fairgrounds in Jamestown, as Carolina's favorite sons, Nantucket, takes to the stage for a Rock n' Roll party beginning at 8:00 p.m.

Comedian Richard Lewis

## Reporter Speaks to Journalism Class

By John Savas

Special to the HI-PO

"I usually write about whatever I happen to be doing at the time," Dr. Martha Brown's guest speaker told her Journalism II class Thursday night, March 21.

No, it wasn't Tom Selleck, although he has sometimes been compared to Selleck — always unfavorably. Thinking that Jim Jenkins is more desirable than Tom Selleck is absurd, one of his admirers (?) recently told Jenkins. She blamed "grits, country ham, and a poor excuse for barbecue" for the "over-weight, balding (Southern) men who think they're God's gift to women."

Jenkins replied that it isn't fair to compare him "with a guy who's had hair implants and as much plastic surgery as Tom has." As for her taste in barbecue, he referred the lady to "a skinny colleague of mine (Jerry Bledsoe) who fancies himself an authority" on barbecue.

Casually dressed — slacks, camel's hair blazer, unbuttoned shirt collar — Jim Jenkins resembles a modern-day Sir John Falstaff more than Tom Selleck. His informal appearance matches the informal style of his presentation.

Obviously, there's enough humor in whatever he happens to be doing at the time to enable him to turn out

three columns a week for the Greensboro News & Record. Over the years, Jenkins has written satirically on gourmet lunches, rare hamburger, cats, and public figures. (The list here does not necessarily reflect his order of preference.)

Jenkins said that he doesn't outline his columns before he writes them. "I'm too lazy, I guess." But he did advise writers to "think about" what they wanted to say.

"Spread out your notes in front of you," he told the class. "Think about your material. Just go over it in your mind. That will help your writing flow. And write as if you were telling a story."

Writers don't concern themselves too much with "the thousand technical things" that are a part of the writing craft, he said. That, in effect, would impede their work. "They simply try to tell a story."

Unlike some columnists, Jenkins does not have a staff to help him gather his material, and he would not relish being required to turn in a column every day. He estimated that with three columns a week, he produces enough copy in a year to fill between two and three average length novels.

Friends frequently tip him off on a good story, he said, and sometimes he and other columnists at the News & Record will "trade off."

That's when comments by one columnist will justify a response — in print — by another columnist.

"And then there's the mail," Jenkins said. With a good mail run, "readers will write your column for you."

He welcomes responses from readers, he said, not only because they help him write his column, but because "sometimes we're wrong, and that needs to be corrected."

While the emphasis in his own columns is humorous, Jenkins admitted that he can't always avoid controversies, such as the one that erupted after his comments on television evangelists Jim and Tammy Bakker appeared in the paper.

In a more recent column, he criticized Jerry Falwell, another TV evangelist. Jenkins was asked to contrast Falwell with Bakker.

"Jerry Falwell himself will tell you that he doesn't own a Rolls-Royce," he replied.

People who lead public lives "have to develop a sense of humor," he said. For example, reporters have known Sen. Jesse Helms to slam down the phone on them, only to call back a few minutes later to continue the conversation.

No, Helms has expressed no intentions of wanting to buy the News & Record, but the senator's designs on CBS inspired a 46-year-old Ohio typesetter to form a

"Committee to Buy Jesse Helms." The man explained that "what Jesse Helms was doing in trying to buy CBS was ridiculous, and that someone needed to make fun of him."

During the past few weeks, Jenkins said, he has been in touch with another North Carolinian, actor Andy Griffith, but he refused to disclose the nature of their conversation. "You'll just have to wait and see," he told inquisitive members of the class.

The future of newspapers? Jenkins said he believes newspapers will endure,

despite the disappearance of two afternoon papers in the Triad. This year, the Winston-Salem Sentinel was absorbed by the morning Winston-Salem Journal. Before that, the Greensboro Daily News merged with the Greensboro Record to become the Greensboro News & Record.

Television and radio, Jenkins said, cannot match newspapers in reporting local news nor in depth coverage.

"Besides," he said, "there's something about being able to carry a newspaper around with them that people like."

## Honor Society Initiates New Members

On Thursday April 11 three students were initiated into the foreign language honor society, Phi Sigma Iota. The students were Veronica Hernandez (Spanish), Diane Lynk (Spanish), and Susanne Zuroff (French). A student must be a junior or senior undergraduate students; have a 3.0 GPA or better; have completed at least one course in the third year level of a language; and shall not rank lower than the highest 35% of their class.\* Phi

Sigma Iota was founded in 1922 at Allegheny College and is the highest academic honor in the field of foreign language. Officers for Phi Sigma Iota for 1985-86 are Kelly Brisentine, president; Veronica Hernandez, vice-president; Alicia Wright, secretary; and Diane Lynk, treasurer.

\*The students must also be receiving a minor in a language whether in International Business or a straight minor.

Continued from page 1  
 "I'm not a reporter," she said. "I'm a student."

But she was not a student at the time she was writing the article. She was a student at the University of California, Berkeley, where she was a member of the Phi Kappa Phi Honor Society. She was also a member of the Sigma Chi Fraternity, which is a national organization of college students.

# College Obtains New Camera System

By Ken Zeller  
Special to the HI-PO

The Media Communications program of High Point College will soon obtain a useful tool to complement its current studies of modern methods of mass communications.

According to Director of Media Communications, Dr. William DeLeeuw, the program will receive a camera system that will help students gain a better understanding of the stages of layout and composition that are involved in the pro-

duction of print publications.

The camera system, known in technical jargon as a "stat machine" will have the capacity to enlarge and reduce the size of newspaper print copy and graphic illustrations. DeLeeuw says the system will have the ability to reduce print copy or illustrations to a size 33 percent smaller than the original, or enlarge that same copy to a size 300 percent larger than the original. "It will also have the ability to produce half-tones which are necessary in the printing of photographs in

newspapers," he said.

"The system will complement the college's Edit Writer system that functions much like a word processor in composing newspaper print copy," he said.

According to DeLeeuw, these two systems together will help students produce all the print and graphic copy that is required in the production of a basic publication such as the HI-PO.

Not only is the system compatible with the college's already existing equipment, but will also

complement courses offered in communications and journalism.

Through the operation of the system, students will gain hands on training as well as an invaluable background gained in the classroom, said DeLeeuw.

The use of the camera system, like the Edit Writer, will be offered to students who are enrolled as communications majors, he said.

A one hour course instructed by DeLeeuw will be offered to teach students the mechanics of the new system.

When asked how the

camera system will be used to benefit the college, he said it may be used in the production of various campus publications. Also the system may cut the college's expenses for publications by helping to complete much of the firms that print the college's published material, he said.

According to DeLeeuw, the new system will "cost the college approximately four-thousand dollars."

He said that the system should arrive before the end of the semester, but is not certain when it will be installed and in working order.

## Fifteen Members Added to Board of Visitors

Fifteen new members of the High Point College Board of Visitors have been named by the college's Board of Trustees.

The following new members, who will serve three-year terms, were presented at the annual meeting of the Board of Visitors on Friday, April 12: William G. Ervin, High Point, Ervin, a graduate of the college, is president of Ervin Insurance Company in High Point.

James T. Fain, III, High Point, Fain is Vice-President of First Union National Bank in High Point.

Rev. Jim C. Gilland, Greensboro. Rev. Gilland is district superintendent of the Greensboro District in the Western North Carolina Conference of The United Methodist Church. He received his undergraduate degree from High Point College.

Willis F. Gupton, High Point. Gupton, an alumnus of the college, is a retired vice-president of Wachovia Bank and Trust Co. in High Point.

Mrs. Eleanor Latimer, High Point. Mrs. Latimer is a long-time supporter of the college.

Robert H. McInnis, High Point. McInnis is executive vice-president of High Point Bank and Trust Co.

Mrs. Elsie G. McPherson, High Point. Mrs. McPherson, an alumna of the college, has been a supporter of the college for many years.

Max L. Meeks, High Point. Meeks, well-known radio personality and vice-president of WMFR Radio, is a graduate of High Point College.

Patrick Meisky, High Point. Meisky is president of Central Savings Bank in High Point and is an alumnus of the college.

Dr. Murphy M. Osborne, Jr., Winston-Salem. Osborne, who is a graduate of the college, is executive director of The Children's Home in Winston-Salem.

Charles C. Riddle, High Point. Riddle is executive director of the United Way of Greater High Point. He is a High Point College graduate.

Bob L. Robertson, Clemmons. Robertson, an alumnus of the college, is owner-dealer of Premiere Auto Parts.

James E. Thomas, High Point. Thomas is vice-president and general manager of Thomas Built Buses.

Norris R. Woody, Jr., Bassett, Virginia. Woody is a graduate of High Point College, is national accounts supervisor for Bassett Furniture Industries.

Dr. J. Allen Thacker, High Point. Thacker is a retired member of the High Point College faculty. He received his undergraduate degree from the college.

Members of the Board of Visitors help interpret the College to individuals, groups, and corporations with whom they have influence. In turn, they report to college various reactions from business, professional, church, and community groups with whom they are associated. The Board also is responsible for identifying areas where the college can strengthen or expand its services.

## Seven Faculty Members Promoted

Seven faculty promotions have been approved by the High Point College Board of Trustees.

Four faculty members have been promoted from assistant professor to associate professor. They are:

Janice J. Burton, art. Mrs. Burton has been a member of the faculty since 1965. She received her A.B. and M.F.A. degrees from the University of North Carolina at Greensboro.

Manyon L. Idol, mathematics. Idol earned his B.S. degree from Guilford College and his M.S. from Appalachian State University. He has been a member of the High Point College faculty since 1964.

Catherine Steele, health and physical education. Mrs. Steele, in addition to her teaching duties, is the coach for women's field hockey and women's tennis. She joined the faculty in 1976. Her associate degree is from Campbell Junior College and her undergraduate and master's degrees are from UNC-Greensboro.

Jerry M. Steele, health and physical education. Steele is the athletic director and men's basketball coach.

He holds a B.S. from Wake Forest University and an M.Ed. from UNC-Chapel Hill. Steele has been at High Point College since 1972.

Three faculty members have been promoted from instructor to assistant professor. They are:

Marion Gibson, health and physical education. Gibson is the men's soccer and men's golf coach, as well as sports information director. A member of the faculty since 1980, Gibson received his undergraduate degree from High Point College and his master's degree from N.C. A&T State University.

Richard Hoffman, health and physical education. Hoffman, who came to High Point College in 1980, is assistant men's basketball coach and cheerleading coach. He is a graduate of Randolph-Macon College, where he earned his B.A., and Pembroke State University where he received his M.Ed.

Alice Sink, English. Mrs. Sink has been a faculty member since 1981, during which time she has been director of the College's writing lab. She earned both her B.A. and her M.F.A. degrees from UNC-Greensboro.

# College Obtains New Camera System

The College of Arts and Sciences has received a new camera system from the State of Tennessee. The system will be used to monitor the campus and provide security for the students and faculty.

The system will be installed in the main building and the library. It will provide a clear view of the campus and help to prevent crime.

# College Purchases Art Works

By Janine Joson  
Entertainment

The Art Committee formed under the Student Government Association recently purchased two art works. According to Bill Frampton, former SGA president, the SGA unanimously passed a bill asking for \$1000 to be allocated from the contingency fund to purchase pieces of art.

A committee consisting of SGA members Bill Frampton, Shannon Moore, Rich Mullins, Karen White, Todd Harmon, and Robin Sink, and SGA Advisor, Al Sistrunk, and Faculty Advisor, Jane Burton, was set up to look at some possible art purchases.

After some of them spent a Sunday afternoon looking at some drawings, paintings, and prints in the Southeastern Center for Contemporary Arts (SECCA), the committee finally decided on two pieces. The first print is a lithograph of a chair by artist Paul Har-

charik. The same painting is hanging in the Victorian and Albert Museum in London. The second piece is a watercolor painting by North Carolinian artist, Beth Stafford. It is a beach scene and many of the students who saw the painting felt this to be an appropriate subject for the college campus.

There is still some discussion as to where the paintings will be hung. Frampton hopes they will be placed in the lobby of the new admissions building. Frampton states, "When prospective students look at the paintings, they can see that students are involved."

Art Professor Jane Burton, the originator of the idea to purchase art for the school, said, "We had a wonderful committee of students. They were very open minded and discussed the works openly before making any kinds of decisions."

The art works will be revealed on Honors Day when the SGA presents them to the college.

# Kim Thomas Shows Off Talent

By Terri Livingston  
Staff Writer

UNC-G College was the scene of auditions for anyone interested in summer employment at theme parks such as Carowinds, Kings Dominion, and Great America Amusement Parks.

The room was full of sights. There were dancers stretching nervously, singers warming their voices and twisting their necks into awkward positions, a juggler was tossing around anything he could pick up, and actors assuming different characters.

Among the talent was a familiar face from High Point College. Kim Thomas decided to audition just for

the experience. For five hours Kim learned and performed dance routines and sang for six different judges. She auditioned with a group of about 30 other talents. After singing the first time, Kim was called back to sing a song the judges had selected and to read a monologue. They took her weight and measurements and sent her home. Kim was told that she would be contacted in a couple of weeks if she had been selected. She went home feeling confident. Five days later she received a phone call congratulating her for being chosen to perform for Carowinds Theme Park. Within another week, Thomas was wrapped up in a

heavy rehearsal schedule, for instance, 5 hours Friday night, 14 hours on Saturdays, and 7 hours on Sundays. All of these rehearsals seemed necessary considering the group performs two shows a day, a Kiddie Show called "Song of the Smurfs" and a musical show for the older crowd titled "Surfs-Up," which is a take-off of the old Frankie and Annette Beach movies. In this show, Thomas plays a sweet and spacy character named Candy, and has many solo songs. Anyone who has had the opportunity to hear Kim Thomas sing knows they would be in for a treat, a 'Candy' treat, to see these performances at Carowinds.

# Tower Players Produce One-Act Plays

The Tower Players of High Point College, a theater/service organization, will produce four student-directed one-act plays on Friday and Saturday, April 26 and 27. The plays are being presented as a part of the college's first annual One Act Festival '85.

The shows will begin each evening at 7:30 p.m. in the Empty Space Theater on campus. There will be limited seating on a first-come, first-served basis, with tickets on sale at the door. All seats are \$2.00.

The plays being produced are:

**Actors' Nightmare**, a bizarre comedy by Christopher Durang to be directed by Reston, Virginia, sophomore Aileen Lynch;

**The Informer**, a taut drama examining nazi Germany written by Bertolt Brecht, which will be directed by Winston-Salem junior Cindy Gleiser;

**Hello From Bertha**, an intense Tennessee Williams play directed by Janet Temple, a junior from Arnold,

Maryland; and

**Bird bath**, a drama by Leonard Melfi from his famous Encounters collection, which will be directed by Winston-Salem junior Pam McHone.

The casts for the shows consist of High Point College students and faculty.

For more information, contact Ron Law, instructor of theater arts, at (919) 885-5101, extension 209.

# HPC Singers Tour Capital

By Terri Livingston  
Staff Writer

The High Point Singers have just returned from a four-day tour to Washington, D.C. The singers, directed by Alexa Jackson, left campus on Thursday afternoon, March 28, and drove to Springfield, Va. Friday morning the group sang at American University. That evening there was a very successful performance at the Washington Street United Methodist Church in Alexandria, Va. Friday night's performance was attended by High Point Alumni from the area,

and was a successful performance. Saturday the group had a free day and many took advantage of touring the Nation's Capital and attending the theater.

The tour finished up on Sunday morning at the Messiah United Methodist Church in Springfield, Va. where the group sang for 8:30 and 9:30 a.m. church services. Following the services the group headed back home to High Point feeling good about their performances and a little hung-over from a good time in the Washington area. Georgetown was also well attended!

# Plans for New Dorm Approved

Tentative plans for the construction of a new residence hall have been approved by the HPC Board of Trustees, according to Dean of Students, Al Sistrunk.

"The College had originally planned to completely renovate McCulloch Residence Hall," said Sistrunk. "However, the cost of the renovation project would equal if not surpass the cost of building a new residence hall. Therefore, the College has decided to build a new residence hall."

The proposed building site for the new residence hall is

between Montlieu Ave. and the current McCulloch dormitory. According to Sistrunk, "McCulloch will be used to house students until the new facility is completed. We are hoping to have the new residence hall ready for the fall semester in 1986."

The plans for the new residence hall calls for a minimum of 80 double occupant rooms. Every two rooms will contain an interlocking bathroom. Each room will contain a sink. The door to each room will be off-set in the interior corridor in order to reduce the noise

within the rooms. The plans also call for some rooms to be equipped for the physically handicapped.

The exact architectural design for the new residence hall has not been decided but, according to Sistrunk, "The design will be very similar to that of Roberts Hall and Smith Library."

The Board of Trustees have approved an expenditure of up to \$2.4 million for the building of the new residence hall. Sistrunk also said, "As soon as the new residence hall is complete McCulloch will be demolished."

## Safety Office Reports

### Break-ins

BY CAROLYN BINKLEY  
ASSISTANT EDITOR

HPC Campus Safety and the High Point Police Department have been busy staking out campus parking lots for the past month.

According to Ed Canady, Director of Campus Safety, seven cars were broken into in one week. The cars involved were parked at Belk Dormitory and Cooke Hall. Apparently the thief was only interested in stereo equipment; other valuables such as cameras, were left in the cars. Some of the cars were left unlocked,

while others had windows broken; one car's dash was torn up. All of the break-ins occurred after 11:00 p.m.

The suspect is a black male with glasses, driving a green Nova or Monda. Canady feels that the suspect must have a market in which to fence the stereo equipment. Since the stake-outs began on April 5, no more thefts occurred.

The stake-out and investigation are continuing. Campus Safety requests information on this suspect or any suspicious looking person on campus.

## Seven Participate in Panel Discussion

On Tuesday April 16, seven High Point College students participated in a panel discussion on cultural backgrounds at the Triad World Trade Club meeting. The Triad World Trade Club serves High Point, Greensboro and Winston-Salem. It is the Triad's chapter of the national organization. The members include business men and women whose firms deal in some sort of international trade. The seven students were Mon Son Yom (Korea), Anwar Atalla (Jordan), Kritich Rantanaphrucks

(Thailand), Cynthia Ismael (Bolivia), Sami Nahri (Finland) and the alternates - Marwan Shaban (Syria) and Francisco Bloch (Bolivia). Discussed on the panel were various items that would be important for an American to know if he were to do business with the foreign countries represented. Organizations, institutions, unions, etc. helpful for a foreigner to be aware of; differing customs; items not easily imported or exported to or from that country; and characteristics of this country which might work

against a sales representative dealing in a foreign country were just some of the topics discussed. Dr. Carole A. Head, Modern Foreign Language Department, and Joann Sprink, of the International Division of RJ Reynolds, worked together to organize the panel. Mrs. Sprink is a graduate of High Point College's CAEP program. Mr. Hamilton, Vice-President of Wachovia Bank and Trust and Chairman of the International Business Advisory Board of HPC, was the moderator for the panel.

## Hi-PO

## Panthers Sign Bolden

High Point College basketball coach Jerry Steele today announced that 6-3 guard Tony Bolden of Reidsville High School had signed a grant-in-aid to attend High Point.

An All-Conference performer for the past two seasons, Bolden averaged 18 points, four rebounds and five assists per game while leading his team to a 24-4 record and the

Mid-State 3A regular season and tournament championships.

Bolden was a nominee for the McDonald's All-American team as a senior and was also an All-Conference football player, having been recruited by several colleges as an outside linebacker.

As a junior, the 190-pounder was All-Conference in baseball and basketball and was selected as the Player-of

the-Year in Rockingham County as well as being named the Reidsville High School Athlete-of-the-Year.

Bolden is the first player to announce that he will attend High Point next fall.

High Point College, finishing 18-12 during the past season, loses four seniors to graduation including the starting guards.

THE UNIVERSITY OF CHICAGO PRESS

**Abstract.** The purpose of this study was to determine the effect of a 10-week, 100-hr, 100-mile, 100-lb. weight loss program on the body composition of 100 obese women. The program was designed to be a total lifestyle change, including diet, exercise, and behavior modification. The program was evaluated using a pretest and posttest design. The results of the study showed that the program was effective in reducing body weight, body fat, and body mass index. The program was also effective in increasing lean body mass and bone mineral density. The program was well tolerated and had a high level of adherence. The results of this study suggest that a 10-week, 100-hr, 100-mile, 100-lb. weight loss program is an effective and safe method for weight loss and body composition improvement in obese women.

## U Jam: More than Basketball

BY RICH MILLER

Staff Writer

Uncle Jam Enterprise continued its dominance of Intramural Basketball by winning its third championship in four years, but there is more to the team than just basketball.

Founded by senior Mario Watson, Uncle Jam Enterprise is an independent organization founded on unity and education. "With these two elements we think the world could be a better place to live," said Watson.

According to Watson, all it takes to play on Uncle Jam is to be a down-to-earth good guy. The team is based on having and sharing talent on the court. This gives the team a sense of unity and flow.

Uncle Jam Enterprise started out as Uncle Jam's

Army, but as the team grew Watson thought it needed a more upstanding name. Uncle Jam's growth was quick and successful. The first Uncle Jam team averaged 106 points a game and won the championship with an undefeated season. The second team was undefeated until they lost the championship to the Swaffers in double-overtime. Last year, Uncle Jam won the championship, their only blemish being a loss to Fratricide. This year, the squad won the championship game by ten points after being down 17-2. "The organization grew fast because we learned to accept people for what they are. You don't have time to grow if you discriminate," added Watson.

Uncle Jam has grown in

other areas besides basketball. They organize two fund raisers a year and have been known to chop wood for the elderly. Uncle Jam has branched out into women's basketball. They sponsor "Ebony Rose" who finished with a .500 record this season.

Junior Eddie Williams, who was vice-president of Uncle Jam last season, has taken over the job of president this season. As president, Williams organized the team, called practices, and looked at jerseys. "My job is to keep the group together and maintain a perspective on unity and education. We want to look good as a group and not as individuals," said the 6-1 forward. As president, Williams is organizing two social activities sponsored

by Uncle Jam: a wine-and-cheese party and a graduation party for Mario and members of Ebony Rose.

Watson first displayed his basketball talents at HPC as a walk-on freshman on Coach Steele's team. The 6-3 guard was the tenth player on the team and never played until the 19th game when Coach Steele suspended six players for not making the twelve o'clock Homecoming curfew. In front of the Homecoming crowd Watson scored nineteen points, leading HPC to an upset victory.

"It was a stepping stone to many opportunities for me. The biggest element of the game was surprise," stated Watson. "The crowd had never seen me play. I believed in myself during the event and that made it much easier for the crowd to

Mario Watson

believe in me."

The self confidence and determination that aided Watson in this game has led to the Uncle Jam dynasty which has lost only four games in four years.

## Students, Faculty Aid Starving

By Rich Miller

Staff Writer

The HPC for Africa benefit basketball game on April 10 raised 247 dollars in donations given at the door. The fund-raising efforts have been extended until April 24 in order to raise more money.

The money will be sent to Father Ted Smith, a Catholic Priest at Aldama Ravine, Kenya, which is on the Kenya-Sudan-Ethiopia border. The direct African connection was made possible through efforts of Tom Gaughan, director of

library service. Gaughan knows Sister Cecilia, of Immaculate Heart of Mary school in High Point. Sister Cecilia knew about Father Smith and his brother Father Claude Smith, of Plano, Texas. The money will be sent to Father Claude and he in turn, will wire the

money to his brother in Africa. Father Claude has raised more than \$100,000 since Christmas, and his brother has distributed it.

The project was conceived and done in three weeks by senior Mario Watson. "As a fifth year senior and communications major, I wanted to have a going away project to showcase the talents I have learned from Dr. DeLeeuw," said Watson. Watson did many jobs such as organizing teams, calling twenty-six different media about the game and finding jerseys which were donated by Duke and Wake Forest for the team to wear.

Gaughan was instrumental in keeping the male faculty updated on information about the

game and keeping the funds out of the wrong hands. "It wouldn't have been done if everyone didn't do their part. The real stars were everyone that participated in the project. My main job was to inspire everyone," said Watson.

The festivities of HPC for Africa included a women's allstar intramural team vs. a women's faculty team. The women's faculty team won 47-46. The halftime entertainment was provided by the Cold Crush Crew, a group of teenaged breakdancers.

The second game consisted of a student allstar B league intramural team and a men's faculty team. The men's team athletic ability was seven points shy of the all-stars but their influence with the score keeper carried them to a 54-53 victory.

Hodge jerks down rebound for faculty all-stars.

The halftime entertainment was a slam dunk contest which was won by Dave Young. George Heins, the leading scorer for the all-stars with

eight points said, "It was fun playing the game, but the real satisfaction came from helping the starving children in Africa."

## U Jam: More than Basketball

WASHINGTON, D.C. — The University of Maryland basketball team's victory over the University of Virginia in the first round of the NCAA tournament on Saturday night was more than just a win for the Terrapins. It was a statement.

The Terrapins, coached by Jim Calhoun, defeated the Cavaliers, coached by Jim Calhoun, 78-65. The Terrapins' victory was a surprise to many, as the Cavaliers were considered the favorite to win the tournament.

The Terrapins' victory was a testament to their hard work and dedication. They had a long and grueling season, but they never gave up. They proved to the world that they were a team that could compete with the best.

The Terrapins' victory was also a testament to the support of their fans. They had a large and loyal following, and their support was a major factor in their success.

The Terrapins' victory was a moment of pride for the entire university. It was a moment that showed the world that the University of Maryland was a place where excellence was achieved.

## Students, Faculty Aid Starving

WASHINGTON, D.C. — A group of students and faculty members at the University of Maryland have organized a hunger strike to draw attention to the problem of hunger in the United States.

The hunger strikers, who are both students and faculty members, are protesting against the lack of funding for food assistance programs. They are demanding that the university and the federal government provide more resources to help the hungry.

The hunger strikers are eating very little food, and they are losing weight. They are hoping that their actions will bring about a change in policy.

The hunger strikers are also holding signs and making speeches. They are trying to educate the public about the problem of hunger.

The hunger strikers are also receiving support from other groups. They are being encouraged to continue their fight.
